Failure To Flourish How Law Undermines Family Relationships:

Failure to Flourish Clare Huntington, 2014-05-20 Exploring the connection between families and inequality *Failure to Flourish How Law Undermines Family Relationships* argues that the legal regulation of families stands fundamentally at odds with the needs of families Strong stable positive relationships are essential for both individuals and society to flourish but from transportation policy to the criminal justice system and from divorce rules to the child welfare system the legal system makes it harder for parents to provide children with these kinds of relationships exacerbating the growing inequality in America *Failure to Flourish* contends that we must re orient the legal system to help families avoid crises and when conflicts arise intervene in a manner that heals relationships To understand how wrong our family law system has gone and what we need to repair it *Failure to Flourish* takes us from ancient Greece to cutting edge psychological research and from the chaotic corridors of local family courts to a quiet revolution under way in how services are provided to families in need Incorporating the latest insights of positive psychology and social science research the book sets forth a new more emotionally intelligent vision for a legal system that not only resolves conflict but actively encourages the healthy relationships that are at the core of a stable society *Caring for Families in Court* Barbara A. Babb, Judith D.

Moran, 2019-01-15 In many US courts and internationally family law cases constitute almost half of the trial caseload These matters include child abuse and neglect and juvenile delinquency as well as divorce custody paternity and other traditional family law issues In this book the authors argue that reforms to the family justice system are necessary to enable it to assist families and children effectively The authors propose an approach that envisions the family court as a care center by blending existing theories surrounding court reform in family law with an ethic of care and narrative practice Building on conceptual procedural and structural reforms of the past several decades the authors define the concept of a unified family court created along interdisciplinary lines a paradigm that is particularly well suited to inform the work of family courts These prior reforms have contributed to enhancing the family justice system as courts now can shape comprehensive outcomes designed to improve the lives of families and children by taking into account both their legal and non legal needs In doing so courts can utilize each family s story as a foundation to fashion a resolution of their unique issues In the book the authors aim to strengthen a court s problem solving capabilities by discussing how incorporating an ethic of care and appreciating the family narrative can add to the court s effectiveness in responding to families and children Creating the court as a care center the authors conclude should lie at the heart of how a family justice system operates The authors are well known figures in the area and have been involved in family court reform on both a US national and an international scale for many years **The Cambridge Companion to Comparative Family Law** Shazia Choudhry, Jonathan

Herring, 2019-01-31 Offers a comprehensive overview of the key issues facing family law globally and explores how different countries have tackled them *Grandparents and the Law* Samantha M Davey, Jaime Lindsey, 2023-05-18 Should

grandparents have rights in relation to their grandchildren If so what should the content of those rights be both procedurally and substantively And what is the appropriate role of the law in providing solutions to problems arising in the context of grandparents rights This book considers these questions from both a public and a private law perspective and analyses the human rights implications for parties such as children parents and grandparents It also explores the topic of grandparents rights in the context of the European Convention on Human Rights and the United Nations Convention on the Rights of the Child as well as in other jurisdictions such as Iran France and Nepal The book argues that grandparents rights have so far received insufficient acknowledgement and consequently that relationships between grandparents and grandchildren have received insufficient protection However it is crucial that the protection of grandparents rights is balanced with the rights of parents and the rights and welfare of children the book considers how best to achieve this for example in disputes on child arrangements i e residence and contact child protection matters and in adoption cases The book is of particular interest to all academics seeking a clear framework for the protection of grandparents rights in private and public law proceedings

Law, Reason, and Emotion M. N. S. Sellers, 2017-12-28 This book examines the role and importance of reason and emotion in justice and the law Eight lawyers and philosophers of law consider law s basis in the universal human need for society our innate sense of justice and many other powerful inclinations and emotions including the desire for fairness and even for law itself Human beings are deeply social creatures inspired by social and other emotions which can ennoble support or undermine the law Law gains legitimacy and effectiveness when reason recognizes and embraces human emotions for the benefit of society as a whole This volume explores the power and purposes of reason and emotion in the law

Divorced from Reality Jane C. Murphy, Jana B. Singer, 2015-06-26 Over the past thirty years there has been a dramatic shift in the way the legal system approaches and resolves family disputes Traditionally family law dispute resolution was based on an adversary system two parties and their advocates stood before a judge who determined which party was at fault in a divorce and who would be awarded the rights in a custody dispute Now many family courts are opting for a problem solving model in which courts attempt to resolve both legal and non legal issues At the same time American families have changed dramatically Divorce rates have leveled off and begun to drop while the number of children born and raised outside of marriage has increased sharply Fathers are more likely to seek an active role in their children's lives While this enhanced paternal involvement benefits children it also increases the likelihood of disputes between parents As a result the families who seek legal dispute resolution have become more diverse and their legal situations more complex In Divorced from Reality Jane C Murphy and Jana B Singer argue that the current problem solving model fails to address the realities of today's families The authors

suggest that while today's dispute resolution regime may represent an improvement over its more adversary predecessor it is built largely around the model of a divorcing nuclear family with lawyers representing all parties a model that fits poorly with the realities of today's disputing families To serve the families it is meant to help the legal system must adapt and reshape itself

A Restorative Approach to Family Violence Joan Pennell, 2022-07-08 A Restorative Approach to Family Violence looks back at an early and successful demonstration of a family and culturally based model to stop severe family violence This conferencing model called family group decision making was applied by three diverse Canadian communities Inuit rural and urban to the benefit of child and adult family members Narrative inquiry identifies how engaging the family and relatives resets the narrative from misrecognition to recognition of their competence and caring Family violence poses some of the most long term and controversial questions in restorative justice Should we use a restorative approach to stop gendered and intergenerational harm Or will bringing together those who have been harmed those causing harm and their supporters only incite more violence Underlying these questions is a profound distrust of families and their cultural networks This distrust has stalled turning away from carceral interventions that particularly harm minoritized communities Moving forward in time the volume identifies blocks to trusting families and their cultural networks and means of circumventing these blocks The book offers a theory of feminist kin making to comprehend the restorative process and gives practical guidance to restorative participants practitioners policy makers and researchers

The Emotional Dynamics of Law and Legal Discourse Heather Conway, John Stannard, 2016-12-15 In his seminal work Emotional Intelligence Daniel Goleman suggests that the common view of human intelligence is far too narrow and that emotions play a much greater role in thought decision making and individual success than is commonly acknowledged The importance of emotion to human experience cannot be denied yet the relationship between law and emotion is one that has largely been ignored until recent years However the last two decades have seen a rapidly expanding interest among scholars of all disciplines into the way in which law and the emotions interact including the law's response to emotion and the extent to which emotions pervade the practice of the law In The Emotional Dynamics of Law and Legal Discourse a group of leading scholars from both sides of the Atlantic explore these

issues across key areas of private law public law criminal justice and dispute resolution illustrating how emotion infuses all areas of legal thought The collection argues for a more positive view of the role of emotion in the context of legal discourse and demonstrates ways in which the law could in the words of Goleman become more emotionally intelligent
