EREWHON.,Samuel Butler,1872 *Erewhon* Samuel Butler,2017-09-15 *Erewhon or Over the Range* by Samuel Butler
Erewhon or Over the Range is a novel by Samuel Butler which was first published anonymously in 1872 The title is also the name of a country supposedly discovered by the protagonist In the novel it is not revealed where Erewhon is but it is clear that it is a fictional country The greater part of the book consists of a description of Erewhon The nature of this nation is intended to be ambiguous At first glance Erewhon appears to be a Utopia yet it soon becomes clear that this is far from the case Yet for all the failings of Erewhon it is also clearly not a dystopia such as that depicted in George Orwell s *Nineteen Eighty Four* As a satirical utopia Erewhon has sometimes been compared to *Gulliver s Travels* 1726 a classic novel by Jonathan Swift the image of Utopia in this latter case also bears strong parallels with the self view of the British Empire at the time It can also be compared to the William Morris novel *News from Nowhere* **Erewhon** Samuel Butler,2018-09-12 *Erewhon or Over the Range* is a novel by Samuel Butler which was first published anonymously in 1872 The title is also the name of a country supposedly discovered by the protagonist In the novel it is not revealed where Erewhon is but it is clear that it is a fictional country Butler meant the title to be understood as the word nowhere backwards even though the letters h and w are transposed The book is a satire on Victorian society Samuel Butler's Erewhon, Or, Over the Range Samuel Butler,Miriam Allen De Ford,1944 **Erewhon** Samuel Butler,2017-12-26 *Erewhon* the famous utopian novel by Samuel Butler took the English speaking world by storm in 1872 and remains effective and entertaining satire to this day **Erewhon** Samuel Butler,2009-11 Setting out to make his fortune in a far off country a young traveller discovers the remote and beautiful land of Erewhon and is given a home among its extraordinarily handsome citizens But their visitor soon discovers that this seemingly ideal community has its faults here crime is treated indulgently as a malady to be cured while illness poverty and misfortune are cruelly punished and all machines have been superstitiously destroyed after a bizarre prophecy In Erewhon criminals are considered to be ill and are treated by straightners who make them well whereas those who have physical illnesses or suffer bad luck are considered criminal and are tried and punished Thus an embezzler will be treated for his illness and the party who was robbed will be tried in the Court of Misplaced Confidence The consistency with which Butler carries through with this conceit is impressive and consistently entertaining and this is only one of the curious conventions of Erewhonian society Another fascinating chapter in *Erewhon* explains how machines are on an evolutionary track that will surpass and then come to dominate their human creators The detail of the argument is impressive the discussion of vestigial organs in machines is hysterical and accurate and no matter how far fetched it must have seemed in 1872 when the book was published it seems much less a satire and more a serious fear today This is a book of great intelligence and wicked humor As a simultaneous mind stretching exercise and laugh generating experience there

Butler meant the title to be understood as the word nowhere backwards, even though the letters h and w are transposed. The book is a satire on Victorian society. The first few chapters of the novel dealing with the discovery of Erewhon are in fact based on Butler's own experiences in New Zealand, where as a young man he worked as a sheep farmer on Mesopotamia Station for about four years, 1860-64, and explored parts of the interior of the South Island, and which he wrote about in his *A First Year in Canterbury Settlement* 1863. The novel is one of the first to explore ideas of artificial intelligence, as influenced by Darwin's recently published *On the Origin of Species* 1859, and the machines developed out of the Industrial Revolution, late 18th to early 19th centuries. Specifically, it concerns itself in the three-chapter Book of the Machines with the potentially dangerous ideas of machine consciousness and self-replicating machines. **An Historical and Critical Review of Samuel Butler's Literary Works** Willem Gerard Bekker, 1925 **Erewhon Over the Range (EasyRead Super Large 20pt Edition)** Samuel Butler, 1927 **Erewhon; Or, Over the Range** Samuel Butler, 2022-10-31 Reproduction of the original *Erewhon* Samuel Butler, L.
