puede considerar como el embrión de lo que en 1939 se convertiría en el Ejército del Aire. En 2020 se conmemora también la construcción de la torre de mando o seales de Cuatro Vientos. Su diseño se basó en un proyecto redactado en julio de 1919 por el comandante de Ingenieros D Leopoldo Giménez aprobado por una Real Orden del 11 de agosto del mismo año y desarrollado por Enrique Sierra en sus talleres del Paseo de las Delicias de Madrid. Para desarrollar este emblemático edificio se siguieron las pautas utilizadas en los faros marítimos de la época. Han pasado nueve años desde que hemos conmemorado el Centenario de la creación de la Aviación Militar Española 1911-2011 siete años desde que se celebró el Centenario de la Aviación en Canarias 1913-2013 y la creación oficial del Servicio de Aeronáutica Militar creado por Real Decreto de su Majestad el Rey Alfonso XIII el 28 de febrero de 2013. Y ya hemos celebrado el 75 Aniversario de la creación del Ejército del Aire 1939-2014 hace seis años. Por ello me gusta dedicar este libro gráfico a todos aquellos profesionales del Ejército del Aire que día a día dan todo de forma desinteresada en su trabajo en las misiones que se le encomiendan y en todos los cometidos asignados. Personal que de una u otra manera contribuyen de forma desinteresada y llenos de orgullo a engrandecer nuestro querido Ejército del Aire que lleva su nombre por todos los continentes y de manera muy especial quiero tener un recuerdo y rendir memoria a todos aquellos compañeros que dieron su vida por la Patria para poder conseguirlo.

Pearce,2012 This original and important book explores how the interaction between China and multinational enterprises MNEs has the potential to affect the future of the Chinese economy the global economy and international business It examines the interaction of two of the most important forces affecting the development of the global economy in recent decades firstly the opening and massive growth of the Chinese economy and secondly the rise in foreign direct investment per se and the consequent strategic restructuring of major MNEs The expert contributors begin by investigating precisely how leading MNEs with well honed international practices and commitments have drawn their subsidiaries in China into their established networks They suggest that MNEs operations are increasingly embedded in the growth and sustainability of the Chinese economy itself rather than merely serving as a supply base for their global markets The second part of the book examines the emergence of new MNEs from China itself It shows how these MNEs are seen as integral to China s development and how their ability to expand reflects strengths from China s growth as well as revealing the growing needs required for sustainability This timely study will be of great interest not just to those following one of the world s key economies but also to researchers and students of the fast paced changes in international business strategy *The Arup Journal* ,1997 **Teleconnect** ,1983 [The Communications Industries in the Era of Convergence](#) Catherine E.
