

## Demonstration Tests

### About the Demonstration Tests

The CTP Online Demonstration Tests contain sample questions intended to familiarize students with the question types that appear in the CTP Online. We hope viewing the Demonstration Tests simulate students' experience viewing and answering tests and other computer system features of the CTP Online.

Questions in the Level 1-2 Demonstration Tests are appropriate for students in most appropriate for students from spring of third grade through fall of fourth grade of fourth grade through fall of seventh grade.

### Level 1-2 Language Arts and Mathematics Demonstration Tests

For administration of these demonstration tests to students you will need the Level 1-2 demonstration test. You must print the directions **before** you administer the demonstration test to students. It is also important to read through the directions and review the test headsets to listen to instructions and questions. Adults viewing these tests with directions for administration of the actual Level 1 and Level 2 tests are for use

Schools interested in using CTP Online can find more information at <http://www.era.org>

**Private Secondary Schools** Peterson's, 2011-05-01 Peterson's Private Secondary Schools is everything parents need to find the right private secondary school for their child. This valuable resource allows students and parents to compare and select from more than 1,500 schools in the U.S. and Canada and around the world. Schools featured include independent day schools, special needs schools, and boarding schools, including junior boarding schools for middle school students. Helpful information listed for each of these schools includes school's area of specialization, setting, affiliation, accreditation, tuition, financial aid, student body, faculty, academic programs, social life, admission information, contacts, and more. Also includes helpful articles on the merits of private education, planning a successful school search, searching for private schools online, finding the perfect match, paying for a private education, tips for taking the necessary standardized tests, semester programs, and understanding the private schools admission application form and process.

**Educational Assessment** Robert J. Wright, 2007-12-21 Grounded in the real world of public schools and students, this engaging, insightful, and highly readable text introduces the inner workings of K-12 educational assessment. There has never been a time when it is more important for educators to have an understanding of testing and assessments. Accountability is now a fact of life for all public school educators, and testing is at the core of all educational assessment programs. It is no longer prudent or even possible for educators to ignore this national zeitgeist. *Educational Assessment: Tests and Measurements in the Age of Accountability* addresses all of the constructs central to understanding the design, construction, and evaluation of educational measures. It goes on to provide students with insight into the link between today's high-stakes testing mandates and the traditions of the past 125 years of scientific measurement in the United States. It addresses the problem of understanding and correctly interpreting test scores on local, statewide, national, and international assessments. It also addresses how certain issues, such as institutionalized cheating, test preparation, and individual differences among students and their families, influence test score outcomes.

**Key Features:** Covers traditional topics in an approachable and understandable way. Reliability, validity, performance, assessments, standardized achievement tests, and many more topics are included. Analyzes and interprets hot-button issues of today's complex measurement concerns. The score gap, high-stakes testing, grade retention, drop-out crises, academic redshirting, diversity, family influence, and educational technology are examined. Relates theory to practice. Each chapter includes relevant real-life examples and case studies to demonstrate how the technical measurement principles impact those involved. Addresses the needs of diverse students. Issues related to students with special needs and the testing of English Language Learners are discussed.

**Ancillaries:** Instructors' Resources on CD-ROM include PowerPoint slides, Web resources, suggested answers for each chapter's discussion questions, and a sample syllabus. The CD also includes Brownstone's Diploma Test Bank software so that instructors can create, customize, and deliver tests. Qualified instructors can contact Customer Care at 1-800-818-SAGE 7243 from 6am-5pm PT to request a copy. A web-based Student Study Site at [www](http://www)
