Knowledge Unbound Peter Suber, 2016-03-25 Influential writings make the case for open access to research explore its implications and document the early struggles and successes of the open access movement Peter Suber has been a leading advocate for open access since 2001 and has worked full time on issues of open access since 2003 As a professor of philosophy during the early days of the internet he realized its power and potential as a medium for scholarship As he writes now it was like an asteroid crash fundamentally changing the environment challenging dinosaurs to adapt and challenging all of us to figure out whether we were dinosaurs When Suber began putting his writings and course materials online for anyone to use for any purpose he soon experienced the benefits of that wider exposure In 2001 he started a newsletter the Free Online Scholarship Newsletter which later became the SPARC Open Access Newsletter in which he explored the implications of open access for research and scholarship This book offers a selection of some of Suber's most significant and influential writings on open access from 2002 to 2010 In these texts Suber makes the case for open access to research answers common questions objections and misunderstandings analyzes policy issues and documents the growth and evolution of open access during its most critical early decade

Evidence Based Physical Therapy Linda Fethers, Julie Tilson, 2018-10-26 Improve outcomes through evidence based therapy This practical easy to use guide uses a five step process to show you how to find appraise and apply the research in the literature to meet your patient's goals You'll learn how to develop evidence based questions specific to your clinical decisions and conduct efficient and effective searches of print and online sources to identify the most relevant and highest quality evidence Then you'll undertake a careful appraisal of the information interpret the research and synthesize the results to generate valid answers to your questions And finally you'll use the Critically Appraised Topic CAT tool to communicate your findings

The Trojan War Diane P. Thompson, 2013-06-24 The Trojan War occurred more than 3 000 years ago Since then starting with Homer's epics people have been writing painting sculpting and creating music about this event and its participants This book starts with an overview of the Bronze Age when the Trojan War occurred and then follows a selection of the major literature about this war from Homer down through the ages and on to the Internet Each retelling of the Troy story is discussed in its historical context and includes a synopsis of the story itself The ways of telling the story change over time The main versions considered include Homer's Iliad and Odyssey a selection of Classical Greek Dramas especially Iphigenia at Aulis Virgil's Aeneid Chaucer's Troilus and Criseyde Guido delle Colonne's History of the Destruction of Troy Racine's Iphigenia at Aulis Goethe's Iphigenia in Tauris Shakespeare's Troilus and Cressida Joyce's Ulysses and two feminist Troy novels Sheri Tepper's The Gate to Women's Country and Marion Zimmer Bradley's The Firebrand Instructors considering this book for use in a course may request an examination copy here

Intermediate Horizons Mark Vareschi, Heather Wacha, 2022-09-27 Foreword Intermediate horizons Matthew Kirschenbaum Section I Approach Benjamin Franklin's postal work Christy L Pottroff Linking book history and the digital

humanities via museum studies Jayme Yahr Section II Access Material and digital traces in patterns of nature early modern botany books and seventeenth century needlework Mary Learner Opening the book the utopian dreams and uncertain future of open access textbook publishing Joseph L Locke and Ben Wright Books of ours what libraries can learn about social media from books of hours Alexandra Alvis Section III Assessment Whose books are online Diversity equity and inclusion in online text collections Catherine A Winters and Clayton P Michaud Electronic versioning and digital editions Paul A Broyles Materialisms and the cultural turn in digital humanities Mattie Burkert **Genres on the Web** Alexander Mehler, Serge Sharoff, Marina Santini, 2010-10-01 The volume *Genres on the Web* has been designed for a wide audience from the expert to the novice It is a required book for scholars researchers and students who want to become acquainted with the latest theoretical empirical and computational advances in the expanding field of web genre research The study of web genre is an overarching and interdisciplinary novel area of research that spans from corpus linguistics computational linguistics NLP and text technology to web mining webometrics social network analysis and information studies This book gives readers a thorough grounding in the latest research on web genres and emerging document types The book covers a wide range of web genre focused subjects such as The identification of the sources of web genres Automatic web genre identification The presentation of structure oriented models Empirical case studies One of the driving forces behind genre research is the idea of a genre sensitive information system which incorporates genre cues complementing the current keyword based search and retrieval applications Librarian's Guide to Online Searching Christopher C. Brown, 2021-06-18 Updates the premier textbook for students and librarians needing to know the landscape of current databases and how to search them Librarians need to know of existing databases and they must be able to teach search capabilities and strategies to library users This practical guide introduces librarians to a broad spectrum of fee based and freely available databases and explains how to teach them The updated 6th edition of this well regarded text covers new databases on the market as well as updates to older databases It also explains underlying information structures and demonstrates how to search most effectively It introduces readers to several recent changes such as the move away from metadata based indexing to full text indexing by vendors covering newspaper content Business databases receive greater emphasis As in the previous editions this book takes a real world approach covering topics from basic and advanced search tools to online subject databases Each chapter includes a thorough discussion a recap concrete examples exercises and points to consider making it an ideal text for courses in database searching as well as a trustworthy professional resource Electronic Lexicography Sylviane Granger, Magali Paquot, 2012-10-25 This book brings together leading professional and academic lexicographers to report on current developments in the deployment of electronic means in the planning writing and dissemination of dictionaries Every major aspect of electronic lexicography is covered by the book including dictionary types general and specialized dictionaries monolingual and multilingual dictionaries collocation dictionaries sign dictionaries collaborative dictionaries in a range of

formats CD ROM web based handheld dictionary writing systems integration of corpora The book also addresses the implications of electronic dictionary making for lexicographic theory and illustrates how the new developments are integrated into innovative dictionary projects like Wiktionary The perspective of the user is considered throughout the book including how electronic dictionaries take account of user needs and whether and how users take advantages of the new features afforded by the electronic medium This state of the art account of developments in one of the most vibrant areas of reference publishing and language research will appeal to everyone concerned with current lexicography

Emergent Intelligence of Networked Agents Akira Namatame, 2007-05-03 The study of intelligence emerged from interactions among agents has been popular In this study it is recognized that a network structure of the agents plays an important role The current state of the art in agent based modeling tends to be a mass of agents that have a series of states that they can express as a result of the network structure in which they are embedded Agent interactions of all kinds are usually structured with complex networks The idea of combining multi agent systems and complex networks is also particularly rich and fresh to foster the research on the study of very large scale multi agent systems Yet our tools to model understand and predict dynamic agent interactions and their behavior on complex networks have lagged far behind Even recent progress in network modeling has not yet offered us any capability to model dynamic processes among agents who interact at all scales on complex networks This book is based on communications given at the Workshop on Emergent Intelligence of Networked Agents WEIN 06 at the Fifth International Joint Conference on Autonomous Agents and Multi agent Systems AAMAS 2006 which was held at Future University Hakodate Japan from May 8 to 12 2006 WEIN 06 was especially intended to increase the awareness of researchers in these two fields sharing the common view on combining agent based modeling and complex networks in order to develop insight and foster predictive methodologies in studying emergent intelligence on of networked agents From the broad spectrum of activities leading experts presented important paper and numerous practical problems appear throughout this book The papers contained in this book are concerned with emergence of intelligent behaviors over networked agents and fostering the formation of an active multi disciplinary community on multi agent systems and complex networks

Art Information and the Internet Lois Swan Jones, 2013-12-16 In the first book of its kind art information expert Lois Swan Jones discusses how to locate visual and textual information on the Internet and how to evaluate and supplement that information with material from other formats print sources CD ROMS documentary videos and microfiche sets to produce excellent research results The book is divided into three sections Basic Information Formats Types of Websites and How to Find Them and How to Use Web Information Jones discusses the strengths and limitations of Websites scholarly and basic information resources are noted and search strategies for finding pertinent Websites are included Art Information and the Internet also discusses research methodology for studying art historical styles artists working in various media individual works of art and non Western cultures as well as art education writing about art problems of copyright and

issues concerning the buying and selling of art This title will be periodically updated

Homeschooling For Dummies Jennifer Kaufeld, 2011-04-20 If you believe that a good education is the greatest gift you can give your child you're probably pretty unhappy with what's being taught in most classrooms these days If you think that education should do more than just train kids to take standardized tests that it should build their critical thinking skills enable them to weigh ethical considerations instill a passion for learning and reflect your core values and beliefs then you're probably fed up with the current state of our schools If like many parents you're wondering whether homeschooling can be the solution you're looking for then you'll be happy to know that the answer is yes and *Home Schooling For Dummies* shows you how This friendly well-informed guide is a valuable resource for parents considering homeschooling as well as veteran homeschooler interested in fresh homeschooling ideas It gets you on track with what you need to know to confidently determine whether homeschooling is right for you and your family Get started in homeschooling Obtain teaching materials Develop a curriculum that reflects your values and beliefs Comply with all legal requirements Find healthy social outlets for your kids Join a homeschooling cooperative From textbooks to computers to state compliance expert Jennifer Kaufeld covers all the bases She anticipates most of your questions about homeschooling and answers them with clear easy-to-follow answers enlivened by real-life accounts by parents around the nation who have opted to homeschool their children Topics covered include Deciding at what age to begin Determining your kid's learning style and teaching to it Teaching special needs children Developing a curriculum that's right for your children Finding social outlets for you homeschoolers Complying with state and federal regulations Teaching at the primary middle school and high school levels Preparing for the SATs ACT and other key standardized tests Networking with other homeschoolers You shouldn't have to compromise on your children's education Get *Homeschooling For Dummies* and find out how to turn your home into a school and raise smart well-adjusted kids

The Web Library Nicholas G. Tomaiuolo, 2004 Describes how to create a digital library of documents

A short guide to post-editing Jean Nitzke, Silvia Hansen-Schirra, 2021 Artificial intelligence is changing and will continue to change the world we live in These changes are also influencing the translation market Machine translation (MT) systems automatically transfer one language to another within seconds However MT systems are very often still not capable of producing perfect translations To achieve high quality translations the MT output first has to be corrected by a professional translator This procedure is called post-editing (PE) PE has become an established task on the professional translation market The aim of this text book is to provide basic knowledge about the most relevant topics in professional PE The text book comprises ten chapters on both theoretical and practical aspects including topics like MT approaches and development guidelines integration into CAT tools risks in PE data security practical decisions in the PE process competences for PE and new job profiles

Taste and the Ancient Senses Kelli C. Rudolph, 2017-07-31 Olives bread meat and wine it is deceptively easy to evoke ancient Greece and Rome through a few items of food and drink But how were their tastes different from ours How did

they understand the sense of taste itself in relation to their own bodies and to other modes of sensory experience This volume the first of its kind to explore the ancient sense of taste draws on the literature philosophy history and archaeology of Greco Roman antiquity to provide answers to these central questions By surveying and probing the literary and material remains from the Archaic period to late antiquity contributors investigate the cultural and intellectual development towards attitudes and theories about taste These specially commissioned chapters also open a window onto ancient thinking about perception and the body Importantly these authors go beyond exploring the functional significance of taste to uncover its value and meaning in the actions thoughts and words of the Greeks and Romans Taste and the Ancient Senses presents a full range of interpretative approaches to the gustatory sense and provides an indispensable resource for students and scholars of classical antiquity and sensory studies

The Soft Edge Paul Levinson,1998 Explores theories on the evolution of technology the effects that human choice has on this revolution and what s in store in the future

Padak,2013-08-30 Helping teachers move beyond fluency as measured by speed alone this book focuses on building the skills that students need to read accurately meaningfully and expressively the essential components of reading comprehension Each concise chapter presents a tried and true instructional or assessment strategy and shows how K 12 teachers can apply it in their own classrooms using a wide variety of engaging texts Special features include classroom examples Your Turn activities and 24 reproducible forms in a large size format for easy photocopying Purchasers also get access to a Web page where they can download and print the reproducible materials

Finding and Using Health and Medical Information on the Internet Betsy Anagnostelis,Alison Cooke,Sue Welsh,2004-06-17 This guide focuses on the different uses and applications of biomedical information resources available on the Internet It explains how to find the best information resources quickly and effectively and how to customize Internet tools to the user s personal requirements

Virtual Mentoring for K-12 Literacy Instruction Paula Saine,2018-10-12 There is no research based text that provides a model for teaching and learning in a virtual environment with literacy learners Therefore this book will focus on preparing challenging students to be successful independent learners for the twenty first century This will involve one where students are constructing their own meaning not only within the traditional brick and mortar environment with the assistant of the classroom teacher but also in an online environment scaffolded by a virtual tutor Today virtual environments are a common alternative space for students in K 12 to engage in meaningful online literacy learning with their tutors Boxie 2004 Hurst 2007 Williams Witte 2007

Integrating Young Adult Literature through the Common Core Standards Rachel L. Wadham,Jon W. Ostenson,2013-01-07 This book advocates for a stronger role for young adult literature in ELA classrooms compellingly documenting how this body of work meets both the needs of adolescent students and the demands of the common core for complex texts and tasks Integrating Young Adult Literature through the Common Core Standards provides a compelling template for teachers that uses young adult literature and inquiry learning to

meet students needs and the demands of the common core standards The first part of the book addresses the widely adopted common core state standards by examining closely the standards model of text complexity and demonstrating how young adult literature can fill the requirements of this model The second part provides theoretical discussions and analysis of the standards as well as concrete applications of young adult literature within the classroom in order to give school professionals a comprehensive understanding of how young adult literature and the standards can work together The book empowers schools and teachers to make intelligent informed decisions about texts and instructional practices that benefit their students Finally the authors explore a powerful teaching approach that integrates current understandings about learning young adult literature and the common core standards in a way that will facilitate greater learning and understanding in English classrooms

Internet Cool Tools for Physicians Melissa Rethlefsen,David Rothman,Daniel Mojon,2008-11-19 Feel like you re being sucked down into a swirl of never ending information Today s physicians are faced with new advances in medicine and new research that can impact practice but finding the right information at the right time seems overwhelming in the constant deluge of scientific research That s where this illustrated guide will walk you through some of today s most useful Internet tools tools that can help you find manage and organize the information you need so that it is always at your fingertips whether for patient care research practice or fun
