The Photographer's Website Manual Philip Andrews, 2003 The Internet is the biggest communication tool since the telephone and photographers can benefit from it more than most Many successful photographers now have their own websites whether it be to sell their work or simply exhibit it there is no simpler faster and more effective way to reach an audience at any given time anywhere This book looks at precisely that offering practical advice on setting up a website discussing the technical and aesthetic considerations involved analysing a selection of successful websites and exploring the commercial possibilities of this new ever expanding technology It constitutes a clear and comprehensive guide to all photographers wishing to exhibit their work and further their business by having a Web presence Book jacket *The Astrophotography Manual* Chris Woodhouse, 2017-12-04 The Astrophotography Manual Second Edition is for photographers ready to move beyond standard SLR cameras and editing software to create beautiful images of nebulae galaxies clusters and the stars Beginning with a brief astronomy primer this book takes readers through the full astrophotography process from choosing and using equipment to image capture calibration and processing This combination of technical background and hands on approach brings the science down to earth with practical methods to ensure success This second edition now includes Over 170 pages of new content within 22 new chapters with 600 full color illustrations Covers a wide range of hardware including mobile devices remote control and new technologies Further insights into leading software including automation Sequence Generator Pro and PixInsight Ground breaking practical chapters on hardware and software as well as alternative astrophotography pursuits **Manual of Arthroscopic Surgery** Michael J. Strobel, 2013-11-21 The Manual of Arthroscopic Surgery provides the most up to date state of the art for all those dealing with arthroscopic diagnosis and treatment A standardised structure of the individual chapters facilitates the retrieval of information Diagnosis therapeutic management including decision making for conservative and operative treatment arthroscopic results and surgical techniques The latter are described in a practical how to do step by step manner 2 300 brilliant figures illustrate each operative step The comprehensive manual includes rare conditions as well and provides detailed information on tricks and pitfalls In its entirety it reflects the most up to date high tech standard of arthroscopy **Mac OS X Leopard: The Missing Manual** David Pogue, 2007-12-07 With Leopard Apple has unleashed the greatest version of Mac OS X yet and David Pogue is back with another meticulous Missing Manual to cover the operating system with a wealth of detail The new Mac OS X 10 5 better known as Leopard is faster than its predecessors but nothing is too fast for Pogue and this Missing Manual It is just one of reasons this is the most popular computer book of all time Mac OS X The Missing Manual Leopard Edition is the authoritative book for Mac users of all technical levels and experience If you are new to the Mac this book gives you a crystal clear jargon free introduction to the Dock the Mac OS X folder structure and the Mail application There are also mini manuals on iLife applications such as iMovie iDVD and iPhoto and a tutorial for Safari Mac's web browser This Missing

Manual is amusing and fun to read but Pogue doesn't take his subject lightly Which new Leopard features work well and which do not What should you look for What should you avoid Mac OS X The Missing Manual Leopard Edition offers an objective and straightforward instruction for using Leopard's totally revamped Finder Spaces to group your windows and organize your Mac tasks Quick Look to view files before you open them The Time Machine Leopard's new backup feature Spotlight to search for and find anything in your Mac Front Row a new way to enjoy music photos and videos Enhanced Parental Controls that come with Leopard Quick tips for setting up and configuring your Mac to make it your own There's something new on practically every page of this new edition and David Pogue brings his celebrated wit and expertise to every one of them Mac's brought a new cat to town and Mac OS X The Missing Manual Leopard Edition is a great new way to tame it

Operative Manual of Endoscopic Surgery 2 A. Cuschieri, G. Buess, J. Perissat, 2013-11-11 The second volume of Operative Manual of Endoscopic Surgery covers some of the operative endoscopic procedures which have been introduced into clinical practice since the publication of Vol 1 In the general section we have included an updated chapter on instrumentation and new chapters on anaesthetic management of patients undergoing endoscopic surgery and on video image and recording Both topics are of importance to the practice of endoscopic surgery and have not been adequately covered in the reported literature Volume 2 deals with endoscopic procedures in the chest and abdomen There have been significant advances in thoracoscopic surgery during the past 2 years particular references made to anatomical pulmonary resections and oesophageal resections As far as the gastrointestinal tract is concerned we have included gastric and allied operations but have not covered the colorectal region as we believe that more evaluation is needed before definitive accounts can be written on endoscopic colorectal resections especially for cancer For this reason we have decided to defer this important topic to Vol 3 which is in preparation The same applies to laparoscopic repair of abdominal hernias The same layout has been adopted as in Vol 1 of the series with heavy emphasis on illustrative representation of the operative steps and techniques In the diagrams on sites of trocar cannulae we have indicated not only the site and size but also the functional role of each port
