**Free Will in Philosophical Theology** Kevin Timpe, 2013-11-21 Free Will in Philosophical Theology takes the most recent philosophical work on free will and uses it to elucidate and explore theological doctrines involving free will. Rather than being a work of natural theology, it is a work in what has been called clarification: using philosophy to understand, develop, systematize, and explain theological claims without first raising the justification for holding the theological claims. That one is working with Timpe's aim is to show how a particular philosophical account of the nature of free will, an account known as source incompatibilism, can help us understand a range of theological doctrines. Free Will and Theism Kevin Timpe, Daniel Speak, 2016-04-29 Concerns both about the nature of free will and about the credibility of theistic belief and commitment have long preoccupied philosophers. In addition, there can be no denying that the history of philosophical inquiry into these two issues has been dynamic and, at least to some degree, integrated. In a great many cases, classical treatments of one have influenced classical treatments of the other, and in a variety of ways. Without pretending to be able to trace all the historical integrations of these treatments, there is no real question that these philosophical interrelations exist and are worthy of further exploration. In addition, contemporary discussions contain more than a few hints of suspicion that theistic belief is adversely affecting the purity of inquiry into contours of human free will. Nevertheless, until now there has been no volume systematically exploring the relationship between religious beliefs and various accounts of free will in the contemporary domain. With a particular eye on how the former might be either legitimately or illegitimately affecting the latter, this collection fills an important gap in the current debate. Here, sixteen leading philosophers focus their attention on a crucial point of intellectual intersection with surprising and illuminating results. Free Will and Classical Theism Hugh J. McCann, 2017 The articles in the present collection deal with the religious dimension of the problem of free will. Together, they provide a historical and contemporary overview of problems in the theology of freedom along with recent work by some important philosophers in the field aimed at resolving those problems. Free Will and God's Universal Causality W. Matthews Grant, 2019-05-16 The traditional doctrine of God's universal causality holds that God directly causes all entities distinct from himself, including all creaturely actions. But can our actions be free in the strong libertarian sense if they are directly caused by God? W. Matthews Grant argues that free creaturely acts have dual sources: God and the free creaturely agent, and are ultimately up to both in a way that leaves all the standard conditions for libertarian freedom satisfied. Offering a comprehensive alternative to existing approaches for combining theism and libertarian freedom, he proposes new solutions for reconciling libertarian freedom with robust accounts of God's providence, grace, and predestination. He also addresses the problem of moral evil without the commonly employed Free Will Defense. Written for analytic philosophers and theologians, Grant's approach can be characterized as neo-scholastic as well as analytic, since many of the positions defended are inspired by consonant with and develop resources drawn from the scholastic tradition, especially Aquinas. **An Introduction to**

**Theological Anthropology** Joshua R. Farris, 2020-04-21 In this thorough introduction to theological anthropology Joshua Farris offers an evangelical perspective on the topic Farris walks the reader through some of the most important issues in traditional approaches to anthropology such as sexuality posthumanism and the image of God He addresses fundamental questions like Who am I and Why do I exist He also considers the creaturely and divine nature of humans the body soul relationship and the beatific vision T&T Clark Handbook of Analytic Theology James M. Arcadi, James T.

Turner, 2021-01-28 This handbook provides theological and philosophical resources that demonstrate analytic theology's unique contribution to the task of theology Analytic theology is a recent movement at the nexus of theology biblical studies and philosophy that marshals resources from the analytic philosophical tradition for constructive theological work Paying attention to the Christian tradition the development of doctrine and solid biblical studies analytic theology prizes clarity brevity and logical rigour in its exposition of Christian teaching Each contribution in this volume offers an overview of specific doctrinal and dogmatic issues within the Christian tradition and provides a constructive conceptual model for making sense of the doctrine Additionally an extensive bibliography serves as a valuable resource for researchers wishing to address issues in theology from an analytic perspective *Christian Philosophy* J. Aaron Simmons, 2019 One of the marks of being a philosopher is participating in debates about what counts as philosophy Of particular note in such debates is the question of how to distinguish philosophy from theology Although a variety of answers to this question have been offered in the history of philosophy in recent decades the prominence of Christian philosophy has been heralded by many as a genuine triumph over the problematic narrowness of strong foundationalism positivism and scientism For others however it signals that philosophy continues to risk being replaced by confessional theology Wherever one comes down on such issues and however one interprets recent trends in philosophy of religion the idea of Christian philosophy continues to present pressing questions for those working in meta philosophy epistemology metaphysics hermeneutics and value theory In this volume established scholars representing a variety of cultural traditions religious perspectives and philosophical priorities all wrestle with how the idea of Christian philosophy should be understood appropriated and engaged in light of where philosophy is and where it is likely to go The volume includes classical essays that have deeply marked the field and also new essays that explore the relevance of Christian philosophy to issues in disability studies engaged pedagogy lived phenomenology the academic study of religion and the workings of social power Rather than offer a unified view that seeks to settle things the contributors demonstrate that Christian philosophy remains a topic of lively debate Wherever one comes down on the issues considered here this volume shows that Christian philosophy is neither merely of historical interest nor of interest only to Christians but instead remains a thoroughly philosophical topic worthy of serious consideration and substantive critique With a Foreword by Nicholas Wolterstorff Noah Porter Professor Emeritus of Philosophical Theology at Yale University Senior Research Fellow in the Institute for Advanced Studies in Culture at the University of Virginia and Honorary Professor of Australian Catholic
