Rogers, 2015-10-01 Katherin A Rogers presents a new theory of free will based on the thought of Anselm of Canterbury We did not originally produce ourselves Yet according to Anselm we can engage in self creation freely and responsibly forming our characters by choosing from ourselves a se between open options Anselm introduces a new agent causal libertarianism which is parsimonious in that unlike other agent causal theories it does not appeal to any unique and mysterious powers to explain how the free agent chooses After setting out Anselm s original theory Rogers defends and develops it by addressing a series of standard problems levelled against libertarianism These include the problem of internalism in that an agent is not the source of his original motivations how can the structure of his choice ground his responsibility the problem of Frankfurt style counterexamples Do we really need open options to choose freely and the problem of luck If nothing about an agent before he chooses explains his choice then isn t the choice

just dumb luck The Anselmian answer to this perennial criticism is especially innovative proposing that the critic has the relationship between choices and character exactly backwards Finally as a theory about self creation Anselmian Libertarianism must defend the tracing thesis the claim that an agent can be responsible for character determined choices if he himself formed his character through earlier a se choices Throughout the book defends and exemplifies a new methodological suggestion someone debating free will ought to make his background world view explicit In the on going debate over the possibility of human freedom and responsibility Anselmian Libertarianism constitutes a new and plausible approach Selections Georg Wilhelm Friedrich Hegel,1929 At head of title Hegel Translations by Josiah Royce J B Baillie W Wallace and others Short bibliography 1 p following p xliii Handbook of the Christian Religion for the Use of Advanced Students and the Educated Laity Wilhelm Wilmers,1891 *Freedom in the Modern World* Horace Meyer Kallen,1928
