Freeing Speech The Constitutional War Over National Security

Sam Lebovic

Freeing Speech The Constitutional War Over National Security:

Freeing Speech John Denvir, 2012-03 The United States is in the midst of a heated conversation over how the Constitution impacts national security In a traditional reading of the document America uses military force only after a full and informed national debate However modern presidents have had unparalleled access to the media as well as control over the information most relevant to these debates which jeopardizes the abilities of a democracy's citizens to fully participate in the discussion The author targets this issue of presidential dominance and argues that the First Amendment's goal is to protect the entire structure of democratic debate even including activities ancillary to the dissemination of speech itself Assessing the right of political association the use of public streets and parks for political demonstrations the press ability to comment on public issues and presidential speech on national security he examines why this democratic model of free speech is essential at all times but especially during the War on Terror

Peopling the Constitution John E. Finn, 2014-03-24 The U S Constitution begins with the soaring words We the People but we the people have little to do with the document as most of us have come to know it When most people think of the constitution they think of it as a legal instrument the province of judges and lawyers who alone possess the expertise and knowledge necessary to discern its elusive and complex meaning This book outlines a very different view of the Constitution as a moral and philosophical statement about who we are as a nation This Civic Constitution constitutes us as a civic body politic transforming the people into a singular political entity Juxtaposing this view with the legal model the Juridic Constitution John E Finn offers a comprehensive account of the Civic Constitution as a public affirmation of the shared principles of national self identity and as a particular vision of political community in which we the people play a significant and ongoing role in achieving a constitutional way of life The Civic Constitution is the constitution of dialogical engagement of contested meanings of political principles of education of conversation Peopling the Constitution seeks nothing less than a new interpretation of the American constitutional project in an effort to revive a robust understanding of citizenship It considers the entire constitutional project from its founding and maintenance to its failure with insights into topics ranging from the practice of deliberative democracy and the meaning of citizenship to constitutional fidelity civic virtue the separation of powers federalism and constitutional interpretation The Civic Constitution in Finn's telling is primarily a political project requiring an active engaged and most importantly constitutionally educated citizenry committed to the civic virtues of civility and tending When we as citizens are unwilling or unable to tend to and sustain the Constitution and when constitutional questions reduce to legal questions and obscure civic interests constitutional rot results And in post 9 11 America Finn argues constitutional rot has begun to set in With its multi dimensional vision of constitutional governance Finn's book stands as a corrective to accounts that locate the Constitution in and conceive it essentially as a legal instrument making a powerful and impassioned argument for restoring the people to their rightful place in the politics and practice of the Constitution

Making Sense of the Constitution Walter M

Frank,2012-03-22 In Making Sense of the Constitution A Primer on the Supreme Court and Its Struggle to Apply Our Fundamental Law Walter Frank tackles in a comprehensive but lively manner subjects rarely treated in one volume Aiming at both the general reader and students of political science law or history Frank begins with a brief discussion of the nature of constitutional law and why the Court divides so closely on many issues He then proceeds to an analysis of the Constitution and subsequent amendments placing them in their historical context Next Frank shifts to the Supreme Court and its decisions examining among other things doctrinal developments the Court s decision making processes how justices interact with each other and the debate over how the Constitution should be interpreted The work concludes with a close analysis of Court decisions in six major areas of continuing controversy including abortion affirmative action and campaign finance Outstanding by the University Press Books for Public and Secondary Schools Freeing Speech John Denvir,2010-05-01 The United States is in the midst of a heated conversation over how the Constitution impacts national security In a traditional reading of the document America uses military force only after a full and informed national debate However modern presidents have had unparalleled access to the media as well as control over the information most relevant to these debates which jeopardizes the abilities of a democracy s citizens to fully participate in the discussion In Freeing Speech John Denvir targets this issue of presidential dominance and proposes an ambitious solution a First Amendment that makes sure the voices of opposition are heard Denvir argues that the First Amendment s goal is to protect the entire structure of democratic debate even including activities ancillary to the dissemination of speech itself Assessing the right of political association the use of public streets and parks for political demonstrations the press ability to comment on public issues and presidential speech on national security Denvir examines why this democratic model of free speech is essential at all times but especially during the War on Terror Free Speech and Unfree News Sam Lebovic,2016-03-14 Does America have a free press Many who say yes appeal to First Amendment protections against censorship Sam Lebovic shows that free speech on its own is not sufficient to produce a free press and helps us understand the crises that beset the press amid media consolidation a secretive national security state and the daily newspaper s decline **Congressional Record** United States. Congress,1971

The Law of U.S. Foreign Relations Sean D. Murphy,Edward T. Swaine,2023 The Law of U S Foreign Relations is a comprehensive and incisive discussion of the rules that govern the conduct of U S relations with foreign countries and international organizations and the rules governing how international law applies within the U S legal system Among other topics this volume examines the constitutional and historical foundations of congressional executive and judicial authority in foreign affairs This includes the constitutional tensions prevalent in legislative efforts to control executive diplomacy as well as the ebb and flow of judicial engagement in transnational disputes with the judiciary often serving as umpire but at times invoking doctrines of abstention The process of U S adherence to treaties and other international agreements is closely scrutinized as the authors examine how such law as well as customary international law and the law making acts of

international organizations can become a source of U S law Individual chapters focus on the special challenges posed by the exercise of war powers by the federal government including during recent incidents of international armed conflict the complex role of the several states in foreign affairs and the imperative to protect individual rights in the transnational sphere Among the contemporary issues discussed are the immunity of foreign heads of State treatment of detainees at Guant namo movement of the U S Embassy in Israel to Jerusalem state level foreign compacts to address climate change bans affecting refugees and asylum seekers and recent interpretations of key statutes such as the Alien Tort Statute the Torture Victim Protection Act and the Foreign Sovereign Immunities Act

The Oxford Companion to the Supreme Court of the United States , *The Legal, Moral, and National Security Consequences of "prolonged Detention"* United States.

The Limits of Constitutional Democracy Jeffrey K. Tulis,2010-11-14 Constitutional democracy is at once a flourishing idea filled with optimism and promise and an enterprise fraught with limitations Uncovering the reasons for this ambivalence this book looks at the difficulties of constitutional democracy and reexamines fundamental questions What is constitutional democracy When does it succeed or fail Can constitutional democracies conduct war Can they preserve their values and institutions while addressing new forms of global interdependence The authors gathered here interrogate constitutional democracy s meaning in order to illuminate its future The book examines key themes the issues of constitutional failure the problem of emergency power and whether constitutions should be suspended when emergencies arise the dilemmas faced when constitutions provide and restrict executive power during wartime and whether constitutions can adapt to such globalization challenges as immigration religious resurgence and nuclear arms proliferation In addition to the editors the contributors are Sotirios Barber Joseph Bessette Mark Brandon Daniel Deudney Christopher Eisgruber James Fleming William Harris II Ran Hirschl Gary Jacobsohn Benjamin Kleinerman Jan Werner M ller Kim Scheppele Rogers Smith Adrian Vermeule and Mariah Zeisberg

The Limits of Constitutional Democracy Jeffrey K. Tulis,Stephen Macedo,2010-10-18 Constitutional democracy is at once a flourishing idea filled with optimism and promise and an enterprise fraught with limitations Uncovering the reasons for this ambivalence this book looks at the difficulties of constitutional democracy and reexamines fundamental questions What is constitutional democracy When does it succeed or fail Can constitutional democracies conduct war Can they preserve their values and institutions while addressing new forms of global interdependence The authors gathered here interrogate constitutional democracy s meaning in order to illuminate its future The book examines key themes the issues of constitutional failure the problem of emergency power and whether constitutions should be suspended when emergencies arise the dilemmas faced when constitutions provide and restrict executive power during wartime and whether constitutions can adapt to such globalization challenges as immigration religious resurgence and nuclear arms proliferation In addition to the editors the contributors are Sotirios Barber Joseph Bessette Mark Brandon Daniel Deudney Christopher Eisgruber James

Fleming William Harris II Ran Hirschl Gary Jacobsohn Benjamin Kleinerman Jan Werner Müller Kim Scheppele Rogers Smith Adrian Vermeule and Mariah Zeisberg **Congressional Record** United States. Congress, 2007 **Yale Law Journal: Volume 122, Number 3 - December 2012** Yale Law Journal, 2013-01-16 One of the world's leading law journals is available in quality ebook formats This issue of The Yale Law Journal the third of Volume 122 academic year 2012-2013 features new articles and essays on law and legal theory by internationally recognized scholars Contents include John H Langbein The Disappearance of Civil Trial in the United States Daniel E Ho Fudging the Nudge Information Disclosure and Restaurant Grading Saul Levmore Ariel Porat Asymmetries and Incentives in Plea Bargaining and Evidence Production The issue also includes extensive student research on targeted killings of international outlaws Confrontation Clause jurisprudence as implemented in lower courts and the implied license doctrine of copyright law as applied to news aggregators Ebook formatting includes linked footnotes and an active Table of Contents including linked Tables of Contents for all individual articles and essays as well as active URLs in notes and extensive tables and properly presented figures and tables **First They Came for the Gun Owners** Mark W. Smith, 2019-10-29 Bestselling author and attorney Mark W Smith exposes the all encompassing nature of the anti gun lobby's attack on the right to keep and bear arms and how it serves as a proxy to empower government to control other important aspects of our lives Smith notes that it's no accident that the people who oppose the Second Amendment also argue for bigger government in other areas as well as favoring sharp limits on free speech and property rights Taken together it is an all encompassing attack on individual liberties by those who consider themselves intellectually and morally superior to average Americans Smith makes a compelling and urgent case that protecting and preserving our right to bear arms is an imperative for all who value freedom whether you own a gun or not

The National Security Constitution in the Twenty-First Century Harold Hongju Koh, 2024-06-25 A deeply researched fully updated edition of The National Security Constitution that explores the growing imbalance of institutional powers in American foreign affairs and national security policy Since the beginning of the American Republic a package of norms has evolved in the U S Constitution to protect the operation of checks and balances in national security policy This National Security Constitution promotes shared powers and balanced institutional participation in foreign policymaking Today it is under attack from a competing claim of executive unilateralism generated by recurrent patterns of presidential activism congressional passivity and judicial tolerance This dynamic has pushed presidents of both parties to press the limits of law in foreign affairs In his award winning National Security Constitution 1990 Harold Hongju Koh traced the evolution of this constitutional struggle across America's history This new book based on the earlier volume but with roughly 70 percent new material brings the story to the present placing recent events into constitutional perspective Reviewing the presidencies of the twenty first century he explains why modern national security threats have given presidents of both parties incentives to monopolize foreign policy decision making Congress incentives to defer and the courts reasons to rubber stamp Koh

suggests both a workable strategy and crucial prescriptions to restore the balance of our constitutional order in addressing modern global crises Routledge Handbook of War, Law and Technology James Gow, Ernst Dijxhoorn, Rachel Kerr, Guglielmo Verdirame, 2019-05-15 This volume provides an authoritative cutting edge resource on the characteristics of both technological and social change in warfare in the twenty first century and the challenges such change presents to international law The character of contemporary warfare has recently undergone significant transformation in several important respects the nature of the actors the changing technological capabilities available to them and the sites and spaces in which war is fought These changes have augmented the phenomenon of non obvious warfare making understanding warfare one of the key challenges Such developments have been accompanied by significant flux and uncertainty in the international legal sphere This handbook brings together a unique blend of expertise combining scholars and practitioners in science and technology international law strategy and policy in order properly to understand and identify the chief characteristics and features of a range of innovative developments means and processes in the context of obvious and non obvious warfare The handbook has six thematic sections Law war and technology Cyber warfare Autonomy robotics and drones Synthetic biology New frontiers International perspectives This interdisciplinary blend and the novel rich and insightful contribution that it makes across various fields will make this volume a crucial research tool and guide for practitioners scholars and students of war studies security studies technology and design ethics international relations and international law *Armed groups: Studies in National Security, Counterterrorism, and Counterinsurgency* Jeffrey H. Norwitz, 2008 Discussion of armed groups which are considered to include classic insurgents terrorists guerrillas militias police agencies criminal organizations war lords privatized military organizations mercenaries pirates drug cartels apocalyptic religious extremists orchestrated rioters and mobs and tribal factions To study armed groups use of history political science anthropology sociology theology and economics are traditional areas of research The book also delves into matters of ethics technology intelligence education the law diplomacy military science and even mythology The book is divided into five sections History and armed groups Present context and environment Religion and inspiration thinking differently about armed groups the shape of things to come **The SAGE Encyclopedia of Surveillance, Security, and Privacy** Bruce A. Arrigo, 2016-06-15 In all levels of social structure from the personal to the political to the economic to the judicial The SAGE Encyclopedia of Surveillance Security and Privacy uncovers and explains how surveillance has come to be an integral part of how our contemporary society operates worldwide *N-Z, pages 803-1,110* Brooklyn Library, 1880
