The new edition includes a new chapter called Teaching Pedagogy of the Oppressed with additional dialogue questions and activities designed to support students and instructors. It also includes an updated Bibliography and further reading list. Antonia Darder closely examines Freire's ideas as they are articulated in *Pedagogy of the Oppressed*, beginning with a historical discussion of his life and a systematic discussion of the central philosophical traditions that informed his revolutionary ideas. Darder explores Freire's fundamental themes and ideas, including issues of humanization, teacher-student relationship, reflection, dialogue, praxis, and his larger emancipatory vision. The book also includes a chapter-by-chapter close reading of the text with sample questions to prompt discussion and engagement with Freire's ideas, as well as a new interview with Freire's widow Ana Maria Araújo Freire and a preface by Donaldo Macedo.

**Storying Pedagogy as Critical Praxis in the Neoliberal University** Mark Vicars, Ligia Pelosi, 2023-08-30. This book examines how teaching and learning and teacher and student identities are being reframed in higher education by neoliberal policies and practices. It shares how teachers perform teaching and learning duties in relation to prescribed institutional policies and how teachers insert dissonant pedagogies as a critical practice. The book explores narrative pedagogy as a disruptive presence and a space for critique. It interrogates personal professional experience of educational systems that present educators juggling complexity and meeting competing demands to make learning meaningful for students. Each contribution will act as a counterpoint and provide a synoptic method for comparison. The book re-constructs meaning from the generic narrative of the public face of education which homogenizes and diminishes collective understandings of teachers and teaching. This book provides a contemporary account of the social realities experienced within the higher education classroom across the globe.

Each chapter delves into theories of social transformation supported by qualitative data from

student reflections to provide both theoretical and practical insights These insights illustrate how physicalized pedagogy can be effectively used to engage students with socially transformative ideas and identities It also emphasizes the significant role of the facilitator in this process highlighting how they can create an environment that fosters ethical and multicultural awareness in both formal educational settings such as classrooms and informal settings like community workshops By promoting an ethos of inclusivity and ethical consideration it argues that facilitators can help students navigate and engage with complex social issues through the medium of theatre An accessible and compelling text it aims to inspire educators to adopt innovative methods that promote deeper engagement and understanding among students

Performativity, Politics and Education Peter Roberts, 2022-04-04 This book provides a distinctive perspective on some of the ways in which performativity as an expression of neoliberal and managerialist thinking works in specific policy contexts It pays particular attention to higher education and considers how the logic of performativity reconfigures our sense of what it means to engage in worthwhile research what it means to be well and ultimately what it means to be human Philosophy of education conceived not just as a domain of scholarly activity but as a way of life rubs against the grain of performativity In a performance driven world efficiency measurability and predictability are all important A philosophical life in education is often unpredictable uncertain and inefficient it creates a kind of intellectual restlessness that can never be fully satisfied

Performativity Politics and Education From Policy to Philosophy suggests that the current obsession with productivity performance and prosperity is misguided It argues that policies and practices underpinned by the principle of performativity are dehumanising and offers an alternative approach an orientation to education grounded in a philosophy of hope and underpinned by a commitment to collegiality constructive critique and ongoing dialogue
