Gemstone Reflexology:

Gemstone Reflexology Nora Kircher, 2006-07-23 An innovative and holistic approach that combines the healing powers of gemstones with reflexology therapy Presents a synergistic therapy that can help numerous mental and physical disorders Includes illustrated instructions for determining the specific needs of a disorder and how to apply the therapy Combining the healing energy of crystals and reflexology therapy Gemstone Reflexology offers a holistic approach to triggering the body's self-healing energies to deal with a large number of mental and physical disorders ranging from headache to heart disease The treatment is based on using eight gemstone wands: agate, amethyst, fluorite, heliotrope, rock crystal, rose quartz, rutiled quartz, and sodalite that allow users to direct the healing power of the crystals to activate designated pressure points Every gemstone has specific healing properties When crafted into wands, these gems enable the patient to apply the perfect amount of pressure on the appropriate acupressure point The energies of the crystal combine with the energies released by the pressure on the reflexology point to produce a powerful force for healing Readers are provided a system of kinetic analysis to determine the appropriate stone and pressure point for their specific condition Sodalite, for example, has a beneficial effect on mental health which is increased when applied to the pressure points corresponding to the head; agate helps in the treatment of skin disorders and amethyst restores vigor The book contains illustrated instructions that show the treatment areas for a wide range of conditions including earaches, headaches, and migraines, back and joint pain, colds and flu, low blood pressure, intestinal cramps, cardiovascular disease, and depression

Reflexology Today Doreen E. Bayly, 1984-05 Stimulating the body's healing forces through massage of the reflex areas of the feet helps to increase blood circulation and relax tension in the nervous system and can do much to retard the ageing process Ailments that respond to reflexology include glaucoma, migraine, liver disease, cataracts, asthma, neuritis, shingles, herpes zoster, arthritis, and sinus trouble

Maternal and Child Health Nursing Adele Pillitteri, 2013-11-25 Adele Pillitteri aims to ensure that today's students have a technical understanding without losing the importance of compassion in their role as a nurse The text presents pediatrics and maternity as a continuum of knowledge, taking a holistic approach and viewing maternity and pediatric content as a family event The text links theory closely with application that helps students gain a deeper understanding of content and be better prepared to practice in their careers Provided by publisher

The Metaphysical Book of Gems and Crystals Florence Mégemont, 2007-12-13 Details the powerful effects of gems as an alternative therapy for physical, psychological, and spiritual healing Reveals the physical healing and astrological properties of over 70 minerals along with instructions for maintaining and recharging their powers Examines the life energy of stones, their basic vibratory patterns, and how this energy is used therapeutically to treat various disorders Shows how to use gems in color therapy and to harmonize the chakras Gemstones have been used for both therapeutic and spiritual purposes since the beginning of time and in all traditions Used properly, they can contribute to and accelerate healing through the practice of lithotherapy which uses gems and minerals to restore

enzymatic functions and they can energize spiritual development Alternative medicines such as homeopathy have given prominence to the therapeutic character of certain minerals but the use of gemstones in expanding awareness or establishing a holistic energetic connection with the stone itself have scarcely been brought forward In this reclaiming of ancient wisdom Florence M gemont explores the many potent and beneficial dimensions of the mineral world Over 70 precious and semiprecious stones are inventoried as to their principal deposits therapeutic applications and zodiac correspondences Readers will discover which physical and emotional disorders can be relieved by using which minerals and with the application of chakra therapy which gemstones are indispensable to their spiritual health While not proposing that lithotherapy is a substitute for traditional allopathic treatment M gemont shows that it can be a powerful complement to it Additionally stones can act preventively energizing both our health and spiritual resources to a state of balance and attunement
