Gender And Ageing Changing Roles And Relationships Ageing And Later Life Series:

Gender And Ageing: Changing Roles And Relationships Arber, Sara, Davidson, Kate, Ginn, Jay, 2003-11-01 This text emphasizes changing gender roles and relationships gender identity and an examination of masculinities in midlife and later life It covers the need to reconceptualize partnership status in order to understand the implications of both widowhood and divorce for older women and men

EBOOK: Gender And Ageing: Changing Roles and Relationships Sara Arber, Kate Davidson, Jay Ginn, 2003-11-16 This book is a follow up to Arber and Ginn's award winning *Connecting Gender and Ageing* 1995 It contains original chapters from eminent writers on gender and ageing addressing newly emergent areas within gender and ageing including gender identity and masculinity in later life Early work on gender and ageing was dominated by a focus on older women The present collection breaks with this tradition by emphasizing changing gender roles and relationships gender identity and an examination of masculinities in midlife and later life A key theme running through the book is the need to reconceptualize partnership status in order to understand the implications for women and men of widowhood divorce and new forms of relationships such as Living Apart Together LAT relationships Another is the influence of socio economic circumstances on how ageing is experienced and transitions are negotiated The book illustrates new ways of thinking about old age and indicates policy implications especially concerning the nature of service provision for older people It will change the ways in which social scientists conceptualize later life Written with undergraduate students and researchers in mind *Gender and Ageing Changing Roles and Relationships* will be an invaluable text for those studying social gerontology sociology of later life gender studies health and community care and social policy

Family Ties and Aging Ingrid Arnet Connidis, 2010 This advanced textbook covers issues of family ties and aging broadly the goal being to provide an integrated and thorough representation of what we know from the current research Whereas books on families and aging have traditionally focused on ties to a spouse and to children and grandchildren *Family Ties Aging* is more extensive and more reflective of contemporary society The text includes groups and relationships that typically receive short shrift exploring such neglected populations as single divorced and childless older people and their family relationships as well as sibling relationships among the elderly live in partnerships not formalized by marriage and the kinds of family ties forged by gay and lesbian persons over the life course The book weaves the vast range of information we now have about the many facets of family relationships and aging into a critical comprehensive and integrated whole

Aging Men, Masculinities and Modern Medicine Antje Kampf, Barbara L. Marshall, Alan Petersen, 2013-05-07 *Aging Men Masculinities and Modern Medicine* explores the multiple socio historical contexts surrounding men's aging bodies in modern medicine from a global perspective The first of its kind it investigates the interrelated aspects of aging masculinities and biomedicine allowing for a timely reconsideration of the conceptualisation of aging men within the recent explosion of social science studies on men's health and biotechnologies including anti aging perspectives This book discusses both healthy and diseased states of aging men in

medical practices bringing together theoretical and empirical conceptualisations Divided into four parts it covers Historical epistemology of aging bodies and masculinity and the way in which the social sciences have theorised the aging body and gender Material practices and processes by which biotechnology medical assemblages and men s aging bodies relate to concepts of health and illness Aging experience and its impact upon male sexuality and identity The importance of men s roles and identities in care giving situations and medical practices Highlighting how aging men s bodies serve as trajectories for understanding wider issues of masculinity and the way in which men s social status and men s roles are made in medical cultures this innovative volume offers a multidisciplinary dialogue between sociology of health and illness anthropology of the body and gender studies The Cambridge Handbook of Age and Ageing Malcolm L. Johnson,Vern L. Bengtson,Peter G. Coleman,Thomas B. L. Kirkwood,2005-12-01 The Cambridge Handbook of Age and Ageing first published in 2005 is a guide to the body of knowledge theory policy and practice relevant to age researchers and gerontologists around the world It contains almost 80 original chapters commissioned and written by the world s leading gerontologists from 16 countries and 5 continents The broad focus of the book is on the behavioural and social sciences but it also includes important contributions from the biological and medical sciences It provides comprehensive accessible and authoritative accounts of all the key topics in the field ranging from theories of ageing to demography physical aspects of ageing mental processes and ageing nursing and health care for older people the social context of ageing cross cultural perspectives relationships quality of life gender and financial and policy provision This handbook will be a must have resource for all researchers students and professionals with an interest in age and ageing Food for the Ageing Population Monique Raats,2008-12-17 The world s ageing population is increasing and food professionals will have to address the needs of older generations more closely in the future This unique volume reviews the characteristics of the ageing population as food consumers the role of nutrition in healthy ageing and the design of food products and services for the elderly Chapters in part one discuss aspects of the elderly s relationship with food such as appetite and ageing ageing and sensory perception food and satisfaction with life and the social significance of meals The second part of the book reviews the role of nutrition in extending functionality into later years with chapters on topics such as undernutrition and conditions such as Alzheimer s disease bone and joint health and eye related disorders Concluding chapters address the issues of food safety and the elderly designing new foods and beverages for the ageing and nutrition education programmes With its distinguished editors and contributors Food for the ageing population is an essential reference for those involved in the research development and provision of food products for the older generation A unique review of the characteristics of the ageing population as food consumers Discusses aspects of the elderly s relationship with food including appetite ageing and sensory perception and the social significance of meals Examines the role of nutrition in extending functionality in later years focusing on undernutrition Alzheimers and bone and joint health The Palgrave Handbook of Age Diversity and Work Emma Parry,Jean McCarthy,2016-11-26 This Handbook

incorporates a variety of disciplines and approaches in order to provide a comprehensive and authoritative examination of the issues that result from increasing age diversity at work. Despite interest in this area exploding over the past few years amongst academics, practitioners and policy makers, the analysis of age diversity has remained primarily within disciplinary silos such as Psychology or Sociology with a focus on ageing or generational differences rather than a combination of approaches to understanding age diversity. Unique in its coverage of multiple perspectives, it considers not only generational and ageing perspectives to age diversity but also highlights the importance of context in driving both the impact and response to this issue. The Palgrave Handbook of Age Diversity and Work includes contributions from leading scholars in age and generational diversity from across the world, discussing cutting edge research findings about the nature and impact of age diversity and presenting approaches to managing this phenomenon.

Ageing and Diversity Daatland, Svein Olav, Biggs, Simon, 2006-04-05. Assessing the stereotyped conceptions of ageing, this book explores the diversity of individual pathways of ageing, the sources of identifications, migration and otherness, and the tension between social structures and personal agency. It is aimed at academics, students and practitioners in the fields of sociology, social psychology and welfare.

Longevity and Social Change in Australia Allan Borowski, Sol Encel, Elizabeth Ozanne, 2007. Covers a wide range of issues including health, retirement, incomes, aged care, family relations, employment, housing and town planning. Special attention is given to the particular structural disadvantages affecting women, Aboriginal Australians and ethnic minorities.

Handbook of Families and Aging Rosemary Blieszner, Victoria Hilkevitch Bedford, 2012-09-20. This comprehensive state of the art textbook and reference volume in family gerontology reviews and critiques the recent theoretical, empirical and methodological literature, identifies future research directions and makes recommendations for gerontology professionals. This book is both an updated version of and a complement to the original *Handbook of Families and Aging*. The many additions include the most recent demographic changes on aging families, new theoretical formulations, innovative research methods, recent legal issues and death and bereavement as well as new material on the relationships themselves, sibling, partnered and intergenerational relationships, for example. Among the brand new topics in this edition are step family relationships, aging families and immigration, aging families and 21st century technology and peripheral family ties. Unlike the more cursory summaries found in textbooks, the essays within *Handbook of Families and Aging* Second Edition provide thoughtful, in depth coverage of each topic. No other book provides such a comprehensive and timely overview of theory and research on family relationships, the contexts of family life and major turning points in late life families. Nevertheless, the contents are written to be engaging and accessible to a broad audience including advanced undergraduate students, graduate students, researchers and gerontology practitioners. Serious lay readers will also find this book highly informative about contemporary family issues.

Issues in Aging Mark Novak, 2015-07-22. Opportunities and optimism in Aging. *Issues in Aging* 3rd edition takes an optimistic view of aging and human potential in later life. This book presents the most up to date facts on aging today, the issues raised by these

facts and the societal and individual responses that will create a successful old age for us all Mark Novak presents the full picture of aging exhibiting both the problems and the opportunities that accompany older age The text illustrates how generations are dependent on one another and how social conditions affect both the individual and social institutions Learning Goals Upon completing this book readers will be able to Understand how large scale social issues social attitudes the study of aging and demographic issues affect individuals and social institutions Identify the political responses to aging and how individuals can create a better old age for themselves and the people they know Separate the myths from the realities of aging Recognize the human side of aging Trace the transformation of pension plans health and opportunities for personal expression and social engagement to the new ecology of aging today **The Futures of Old Age** John A

Vincent,Chris Phillipson,Murna Downs,2006-05-15 What is the future of old age How will families services and economies adapt to an older population Such questions often provoke extreme and opposing answers some see ageing populations as having the potential to undermine economic growth and prosperity others see new and exciting ways of living in old age The Futures of Old Age places these questions in the context of social and political change and assesses what the various futures of old age might be Prepared by the British Society of Gerontology The Futures of Old Age brings together a team of leading international gerontologists from the United Kingdom and United States drawing on their expertise and research The book's seven sections deal with key contemporary themes including population ageing households and families health wealth pensions migration inequalities gender and self and identity in later life **The Identity at Death of the Old and Young from**

the Neolithic, Bronze and Iron Ages on the Southeast Asian Mainland Kenneth William Ross,2025-07-03 This book examines Neolithic to Iron Age burials in mainland Southeast Asia focusing on age identity at death Exploring four sites it reveals diverse mortuary practices and social attitudes toward the old and young offering the first regional study of elderly individuals in archaeological contexts **Age Matters** Toni M. Calasanti,Kathleen F. Slevin,2013-10-11 This volume of

original chapters is designed to bring attention to a neglected area of feminist scholarship aging After several decades of feminist studies we are now well informed of the complex ways that gender shapes the lives of women and men Similarly we know more about how gendered power relations interface with race and ethnicity class and sexual orientation Serious theorizing of old age and age relations to gender represents the next frontier of feminist scholarship In this volume leading national and international feminist scholars of aging take first steps in this direction illuminating how age relations interact with other social inequalities particularly gender In doing so the authors challenge and transform feminist scholarship and many taken for granted concepts in gender studies **Sexuality & Ageing** Walter Bouman,Peggy Kleinplatz,2017-10-02

Across the globe both in developed and developing countries the population is rapidly ageing In the fields of sexual and relationship therapy and sexual health ageing has not been an issue of priority Too often ageing is thought of as a process that relates to problems deficits and taboos and less to pleasure change growth and diversity It is treated as a separate life

stage and not a process throughout the lifecycle Sexuality and sexual health are important parts of the lives of older people as they have a significant impact on quality of life psychological well being and physical health as well as social and family life This book brings together contributions from those currently writing on and researching ageing as it relates in a therapeutic context to gender identity to sex and sexuality and to intimate relationships This book was originally published as a special issue of Sexual and Relationship Therapy
