Gender And Envy Gender And Envy:

Gender and Envy Nancy Burke, 2014-02-04 The first volume of its kind this edited collection brings together classic texts in the history of psychoanalysis and developing theory to examine gender and envy Bringing to light the ways in which our preoccupation with the Freudian concept of penis envy has both revealed and obscured fundamental psychological insights the essays also form bridges across many disciplines and schools of psychological thought From foundational works by Freud Klein and Horney to the current scholarship of Fast Torok and Friedman Gender and Envy brings together a library of critical thinking on the ongoing discussion of envy gender and psychoanalysis **Envy, Competition and Gender** Leyla

Gender: Crossdressing in Context Gregory G. Bolich, Ph. D. G. G. Bolich, 2007-11-01 The first in a five volume set this book reestablishes dress as a foundational context for crossdressing This major study demonstrates the interplay between sex gender and clothes especially as these relate to transgender behaviors of which crossdressing is the best known **Gender Protest and Same-Sex Desire in Antebellum American Literature** David Greven, 2016-04-22 Expanding our understanding of the possibilities and challenges inherent in the expression of same sex desire before the Civil War David Greven identifies a pattern of what he calls gender protest and sexual possibility recurring in antebellum works He suggests that major authors such as Margaret Fuller Edgar Allan Poe Herman Melville and Nathaniel Hawthorne consciously sought to represent same sex desire in their writings Focusing especially on conceptions of the melancholia of gender identification and shame Greven argues that same sex desire was inextricably enmeshed in scenes of gender role strain as exemplified in the extent to which *The Narrative of Arthur Gordon Pym* depicts masculine identity adrift and in disarray Greven finds similarly compelling representations of gender protest in Fuller's exploration of the crisis of gendered identity in *Summer on the Lakes* in Melville's representation of Redburn's experience of gender nonconformity and in Hawthorne's complicated delineation of desire in *The Scarlet Letter* As Greven shows antebellum authors not only took up the taboo subjects of same sex desire and female sexuality but were adept in their use of a variety of rhetorical means for expressing the inexpressible

Transvestites and Transsexuals Richard F. Docter, 2012-12-06 The objective of this book is to propose a theory of transvestism and secondary transsexualism and to provide information concerning these behaviors My view of these topics is much like that of Benjamin 1966 and nearly all other gender researchers It holds that a syndrome of similar behaviors can be identified ranging from fetishism through transvestism transgenderism and secondary transsexualism But description is one thing and explanation of causes is another I agree with other gender researchers e g Green Stoller 1985c who have concluded that the causes of transvestism and transsexualism remain largely unknown But the fact that we cannot fully explain the origins of transvestism or secondary transsexualism does not mean that a comprehensive theory is impossible Indeed excellent theoretical statements have been proposed concerning each of these topics Bancroft 1972 Buckner 1970 Buhrich Money Ovesey Person Stoller 1968a 1974 1985c It is with considerable respect therefore that we acknowledge both the strong shoulders on which we stand and also the more practical fact that we have drawn heavily upon the many contributions of these researchers The approach I have adopted has the same scientific difficulties that confronted all of these previous workers

The Envious Imagination Andrea Yvette Lobb, 2007 Chapter Four reads Teresa Brennan's foundational fantasy as a key feminist reworking of Kleinian envy and introduces a distinction between what I call basic and surplus envy The fifth and final chapter engages with Jessica Benjamin's work on envy gender and recognition as an example of the reanimation of the concept of envy from the perspective of relational psychoanalysis and its contribution to a robust critical feminism On the basis of this rich array of feminist adaptations I argue that the psychoanalytic concept of envy

deserves to be rehabilitated from earlier simplistic readings of it as the product of misogynistic thought and to be recognized as a highly productive tool for feminist analysis

The Strategy: Government mandated teaching of Gender in school. Dr. Jan Friedman, 2023-06-02 Twenty some years ago most people did not know about Gender Identity Theory There has been a unified strategy launched in most Western countries to teach Gender Gender Identity Theory in school Surprisingly the facts are that the majority of people seeking Gender Affirming Care are teenage girls who discover usually while in school that they are in the wrong body transgender The side effect of Gender Affirming Care the recommended treatment is that most who receive it are sterilized cannot have biological children Why would any government want young people to believe in Gender Identity Theory This book gives the answer and the answer is fully supported by the facts included in the book

Beyond the emotional cry for transgender rights is the truth and this book reveals the facts and the truth

Conversing on Gender G. G. Silent Or Salient Gender? Hanne Løland, 2008 Hanne Loland studies gendered god language in the Hebrew Bible She offers a theoretical framework that is helpful for the interpretation of biblical language used in reference to God and for the broader theological and scholarly debate on God and gender One of the main questions Loland discusses is whether and how gender is salient that is of significance when gendered god language occurs in a text This is a new line of questioning in Hebrew Bible research which so far has been mostly concerned with mapping the occurrences of feminine god language The question of gender significance is debated both in theoretical discussions on God gender and language and in three case studies Isa 42 13 14 46 3 4 and 49 14 15 These texts are chosen primarily because of today's research situation where there has been a claim that Isa 40 55 or 40 66 differs from the rest of the Hebrew Bible in its use of feminine god language Loland argues that there is in principle no difference between god language formulated in similes or metaphors Further there is no significant difference between male and female god language in the Hebrew Bible These findings are also relevant for the contemporary debate concerning god language in academia church and synagogue This volume was recognized with the John Templeton Award for Theological Promise in 2008

The Seductions of Biography David Suchoff, Mary Rhiel, 2016-02-04 *The Seductions of Biography* is an important volume which sheds new light on a flourishing literary form the biography In postmodern culture new methods and intentions emerge as well as new obstacles towards our understanding of biography as a genre This book provides a thorough exploration of this genre from a wide range of postmodern perspectives *The Seductions of Biography* brings together a number of essays which reflect in culturally critical as well as autobiographical terms on current themes and practices of contemporary biography Issues addressed by these essays focus on the postmodern dilemma itself as new voices from excluded communities make themselves heard in biographical works the decentralization of new issues such as

gender ethnicity and sexuality becomes problematic Contributors question the responsibilities a biographer has both to the subject and the public and consider also questions of morality and taste for example is it fair to use private tapings made by your subject s analyst And how much do we really need to know about Eleanor Roosevelt s sex life The impact of sexuality on our reading of public figures is addressed as well as other issues which explore the popular and provocative nature of biography Interdisciplinary and wide ranging in scope The Seductions of Biography will appeal to biographers historians cultural critics and the vast population of avid biography readers Contributors Kwame Anthony Appiah Clark Blaise Marilyn L Brownstein Blanche Wiesen Cook John D Emilio Jeffrey Louis Decker Michael Eric Dyson Diana Fuss Marjorie Garber Henry Louis Gates Jr Hayden Herrera Maurice Isserman Barbara Johnson William S McFeely Diane Wood Middlebrook Richard J Powell Phyllis Rose Doris Sommer Marita Sturken Sherley Anne Williams Jean Fagan Yellin The Sexual Century Ethel Spector Person,1999-01-01 Over the course of the past century sexual liberation has transformed the way in which most of us regard our bodies and live our sexual lives Now a preeminent psychoanalytic theoretician on sex and gender discusses what has gone into this unquiet revolution the roles played by sexologists and psychoanalysts antibiotics and birth control the liberation movements and Freud s insight that sex has as much to do with the mind as with the genitals In this collection of new and previously published papers Ethel Person writes of the centrality of sexuality to our identity She describes the role of fantasy in desire its different expression in the sexes and the way in which desire is inevitably intertwined with power Her classic papers on transvestism transsexualism and cross dressing homosexuals written with Lionel Ovesey help us to understand how gender and sex develop in all of us The public acceptance of the transsexual says Person is emblematic of the profound scientific and intellectual shifts that have taken place in the past hundred years The way that sex and gender develop and are experienced and expressed is the result not only of nature and nurture but also of the cultural zeitgeist its unspoken values and biases **Beyond Natural Resources to Post-Human Resources** Peter Baofu,2014-09-18 Are natural resources really so limited that as Mahatma Gandhi once famously said Earth provides enough to satisfy every man s need but not every man s greed TE 2012 This limiting view of natural resources can be contrasted with an opposing view by John Maynard Keynes who summarized Say s Law as supply creates its own demand but then turned Say s Law on its head in the 1930s by declaring that demand creates its own supply so whenever a demand exists there will be resources to create the supply EN 2012 Contrary to these opposing views and other ones as will be discussed in the book natural resources in relation to both diversity and discontinuity are neither possible or impossible nor desirable or undesirable to the extent that the respective ideologues on different sides would like us to believe Needless to say this challenge to the opposing views of natural resources does not mean that natural resources are unimportant or that those interdisciplinary fields related to natural resources like conservation biology environmental management ecological economics political ecology environmental ethics adaptive management genetic engineering Malthusianism and so on are not worth studying Of course neither of these

extreme views is reasonable Rather this book offers an alternative better way to understand the future of natural resources especially in the dialectic context of diversity and discontinuity while learning from different approaches in the literature but without favoring any one of them or integrating them since they are not necessarily compatible with each other More specifically this book offers a new theory that is the resilient theory of natural resources to go beyond the existing approaches in a novel way If successful this seminal project is to fundamentally change the way that we think about natural resources in relation to diversity and discontinuity from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what the author originally called its post human fate
