**Feminist Perspectives on Terrorism** Aleksandra Gasztold, 2020-04-01 This book explores terrorism and security issues from feminist perspectives putting gender and androcentrism at the heart of its analysis It argues against traditional research approaches to political violence and terrorism in particular that are dominated by the male gaze and individual stereotypes and perspectives and that feminist approaches offer a fresh perspective on security research Our current understanding of political violence is primarily based on the experiences of men and as such the challenge in terrorism and radicalization research is to demonstrate that women s studies on security and terrorism satisfy certain universal criteria The author shows how a post

positivist approach can be useful in gaining insights into terrorism and violent extremism and how to address these phenomena. The book presents theoretical foundations based on various feminist assumptions and exposes the essence of feminism, its conceptual grid, gender variabilities, and the developments in feminist thinking and theory. Furthermore, it discusses the trends in feminist epistemology and explains female radicalization to terrorist activity, the specificity of female terrorism, and the roles of women in deradicalization processes as well as their impact on counterterrorism policy. The book concludes that gender difference as a constitutive variable of social reality is of key importance in studies on terrorism and counterterrorism.

**Routledge Handbook of Critical Terrorism Studies** Richard Jackson, 2016-04-14. This new handbook is a comprehensive collection of cutting edge essays that investigate the contribution of Critical Terrorism Studies to our understanding of contemporary terrorism and counterterrorism. Terrorism remains one of the most important security and political issues of our time. After 9/11, Critical Terrorism Studies (CTS) emerged as an alternative approach to the mainstream study of terrorism and counterterrorism, one which combined innovative methods with a searching critique of the abuses of the war on terror. This volume explores the unique contribution of CTS to our understanding of contemporary non-state violence and the state's response to it. It draws together contributions from key thinkers in the field who explore critical questions around the nature and study of terrorism, the causes of terrorism, state terrorism, responses to terrorism, the war on terror, and emerging issues in terrorism research. Covering a wide range of topics, including key debates in the field and emerging issues, the Routledge Handbook of Critical Terrorism Studies will set a benchmark for future research on terrorism and the response to it. This handbook will be of great interest to students of terrorism studies, political violence, critical security studies, and IR in general.

**Gender, National Security, and Counter-Terrorism** Margaret L. Satterthwaite, Jayne Huckerby, 2013-02-15. In the name of fighting terrorism, countries have been invaded, wars have been waged, people have been detained, rendered, and tortured, and campaigns for hearts and minds have been unleashed. Human rights analyses of the counterterrorism measures implemented in the aftermath of 11 September 2001 have assumed that men suffer the most, both numerically and in terms of the nature of rights violations endured. This assumption has obscured the ways that women, men, and sexual minorities experience counterterrorism. By integrating gender into a human rights analysis of counterterrorism and human rights into a gendered analysis of counterterrorism, this volume aims to reverse this trend. Through this variegated human rights lens, the authors in this volume identify the spectrum and nature of rights violations arising in the context of gendered counterterrorism and national security practices. Introduced with a foreword by Martin Scheinin, former UN Special Rapporteur on Human Rights and Counterterrorism, the volume examines a wide range of gendered impacts of counterterrorism measures that have not been theorized in the leading texts on terrorism, counterterrorism, national security, and human rights. *Gender, National Security, and Counter-Terrorism* will be of particular interest to scholars and students in the disciplines of Law, Security Studies, and Gender Studies.
