**Ethics, Emotion, Education, and Empowerment** Lisa Kretz,2020-10-14 Universities teach courses in ethics but do

they teach students how to be ethical in practice Lisa Kretz's *Ethics, Emotion, Education, and Empowerment* explores the ways that philosophical ethics are currently taught and argues that dominant approaches fail to adequately support ethical action in part because emotions are all too often ignored or repressed in university classrooms. In isolation, abstract theoretical content fails to motivate. The ability to reason through an ethical dilemma does not by itself of necessity impact ethical action. Empowered action requires intentional emotional engagement. Kretz argues that part of the reason affective pedagogy fails to get sufficient uptake is due to the operations of oppression. There is a long history of the reason/emotion dualism undermining recognition of the necessary and valuable epistemic roles emotions play in moral life and serving as a political tactic to undermine the experience of oppressed groups. This impoverishes ethical pedagogy because it is to the detriment of their ability to teach ethics in a comprehensive way and strips the potential of supporting students to enact their own reflectively held ethical beliefs and values. Using the example of the environmental crisis, Kretz makes a case for supporting students as engaged activists aware of their capacity to ethically change the world.

[But Don't Call Me White](#) Silvia Cristina Bettez, 2012-01-01

Highlighting the words and experiences of 16 mixed race women who have one white parent and one parent who is a person of color, Silvia Bettez exposes hidden nuances of privilege and oppression related to multiple positionalities associated with race, class, gender, and sexuality. These women are secret agent insiders to cultural Whiteness who provide unique insights and perspectives that emerge through their mixed race lenses. Much of what the participants share is never revealed in mixed White of color company. Although critical of racial power politics and hierarchies, these women were invested in cross cultural connections and revealed key insights that can aid all in understanding how to better communicate across lines of cultural difference. This book is an invaluable resource for a wide range of activists, scholars, and general readers including sociologists, sociologists of education, feminists, anti-oppression, social justice scholars, critical multicultural educators, and qualitative researchers who are interested in mixed race issues, cross cultural communication, social justice work, or who simply wish to minimize racial conflict and other forms of oppression. Theoretically grounded and with vivid detail, this book amplifies the voices of mixed race women to trouble and expand our understandings of race, gender, hybridity, and education. Silvia Bettez fills a stark gap in the research literature and sets the bar high for what comes next.

Kevin Kumashiro, editor of *Troubling Intersections of Race and Sexuality: Queer Students of Color and Anti Oppressive Education*. In *But Don't Call Me White*, Silvia Bettez accomplishes the difficult task of presenting complex theories in accessible ways while introducing the reader to the intersectional nature of identities in the 21st century. Through the voices of her participants, Bettez illuminates aspects of gender, race, sexuality, and social class that cannot be discerned when examined in isolation, and she does so in an engaging manner. In addition to presenting a model of excellent qualitative research, the book makes a valuable contribution to mixed race studies, gender studies, and education.

*The Moral Skeptic* Anita M. Superson, 2009-03-13 Anita Superson challenges the traditional picture of the skeptic who asks Why be moral While holding that the skeptic s position is important she builds an argument against it by understanding it more deeply and then shows what it would take to successfully defeat it Superson argues that we must defeat not only the action skeptic but the disposition skeptic who denies that being morally disposed is rationally required and the motive skeptic who believes that merely going through the motions in acting morally is rationally permissible We also have to address the amoralist who is not moved by moral reasons he recognizes Superson argues for expanding the skeptic s position from self interest to privilege to include morally unjustified behavior targeting disenfranchised social groups as well as revising the traditional expected utility model to exclude desires deformed by patriarchy as irrational Lastly she argues that the challenge can be answered if it can be shown that it is in an important way inconsistent and therefore irrational to privilege oneself over others The Moral Skeptic makes an important contribution to both metaethics moral theory and feminist philosophy and brings feminist thinking into the larger discussion of the skeptical challenge
