Gender In Canada 4th Edition Nelson A:

Teaching Gender and Sex in Contemporary America Kristin Haltinner, Ryanne Pilgeram, 2016-04-28 This book provides innovative pedagogy theory and strategies for college and university professors who seek effective methods and materials for teaching about gender and sex to today's students. It provides thoughtful reflections on the new struggles and opportunities instructors face in teaching gender and sex during what has been called the post feminist era. Building off its predecessor *Teaching Race and Anti Racism in Contemporary America* this book offers complementary classroom exercises for teachers that foster active and collaborative learning. Through reflecting on the gendered dimensions of the current political economic and cultural climate as well as presenting novel lesson plans and classroom activities *Teaching Gender and Sex in Contemporary America* is a valuable resource for educators.

Skeletons in the Closet Aysan Sev'er, Jan E. Trost, 2011-09-28 Family conflict has traditionally been studied by researchers who are at a safe intellectual distance from the families under their study. In *Skeletons in the Closet* and in line with feminist research methodologies the hierarchical distance between researcher and subject is broken down. All of the contributors to this volume are academics and all are closely related to the families they write about. *Skeletons in the Closet* consists of ten essays about unresolved or unresolvable family conflicts. The contributors start from the assumption that families, whether legal marriage families, common law marriage families, single parent families, multiple generation families, same sex partnerships or adoptive families, are cradles of intense emotion. That intensity they argue may translate into conflict, competition, domination, abuse, exploitation or even hate. This book explores those areas most likely to grip family members in unresolved interpersonal strife as well as the strategies people use to solve the issues and the shame and isolation that conflict brings in societies that normatively expect family life to be one of joy, mutual sharing and caring. This first hand narration of family conflict by social scholars has much to contribute to sociological studies of the family, both methodologically and theoretically. The introduction and conclusion place family conflict within sociological and social psychological theories and methods.

The Media Gaze Augie Fleras, 2011-09-15 While Canada is known for its official commitment to diversity, a close look at our media reveals that though they frequently promote superficial representations of difference, they actually play a pivotal role in producing and reproducing the values, structures and priorities of a predominantly straight white male society. *The Media Gaze* exposes how newscasters, advertisers, filmmakers and television programmers attempt to co-opt audiences into believing that media depictions entail neither prejudice nor perspective. In truth, the experiences of those who fall outside of the media's preferred populations are actively ignored or misrepresented. In this timely audit of the Canadian mainstream media, sociologist Augie Fleras draws on compelling case studies to explore the societal implications of the industry's hidden bias. He also examines alternative forms of media and media literacy to present readers with tools to challenge the dominant agenda.

Annual Review of the Sociology of Religion. Volume 4 (2013), 2013-11-21 Prayer is a phenomenon which seems to be characteristic not only of participants in every religion but also men and women who do not identify with traditional religions It can be practised even by those who do not believe either in a God or transcendent force In this sense therefore we may assert that the prayer is a typically human activity that has accompanied the development of different civilizations over the course of the centuries Both the material issues of concrete

daily life as well as more symbolic elements expressed through words gestures body positions and community celebration are brought together in the act of praying *Canadian Social Policy* Anne Westhues, Brian Wharf, 2012-05-25 Social policy shapes the daily lives of every Canadian citizen and should reflect the beliefs of a majority of Canadians on just approaches to the promotion of health safety and well being Too often those on the front lines social workers nurses and teachers observe that policies do not work well for the most vulnerable groups in society In the first part of this new edition of *Canadian Social Policy* Westhues and Wharf argue that service deliverers have discretion in how policies are implemented and the exercise of this discretion is how citizens experience policy whether or not it is fair and reasonable They show the reader how social policy is made and they encourage active citizenship to produce policies that are more socially just New material includes an examination of the reproduction of systemic racism through the implementation of human rights policy and a comparative analysis of the policy making process in Quebec and English Canada The second part of the book discusses policy issues currently under debate in Canada Included are new chapters that explore parental leave policies and housing as a determinant of health All chapters contain newly updated statistical data and research and policy analysis A reworked section on the process of policy making and the addition of questions for critical reflection enhance the suitability of the book as a core resource in social policy courses The final chapter explores how front line workers in the human services can advocate for change in organizational policies that will benefit the people supported **The Spaces In Between** Tim Schouls, 2023-11-30 *The Spaces In Between* examines prospects for the enhanced practice of Indigenous political sovereignty within the Canadian state As Indigenous rights include the right to self determination the book contends that restored practices of Indigenous sovereignty constitute important steps forward in securing better relationships between Indigenous peoples and the Canadian state While the Canadian state maintains its position of dominance with respect to the exercise of state sovereignty Tim Schouls reveals how Indigenous nations are nevertheless carving out and reclaiming areas of significant political power as their own By means of strategically acquired legal concessions through hard fought political negotiations and sometimes through simple declarations of intent Indigenous nations have repeatedly compelled the Canadian state to roll back its jurisdiction over them In doing so they have enhanced their prospects for political sovereignty within Canada As such they now increasingly occupy what Schouls refers to metaphorically as the spaces in between The book asserts that occupation of these jurisdictional spaces in between not only goes some distance in meeting the requirements of Indigenous rights but also contributes to Indigenous community autonomy and well being enhancing prospects for reconciliation between Indigenous peoples and the Canadian state *Canadian Books in Print. Author and Title Index* , 1975 *Women and Politics around the World* Joyce Gelb, Marian Lief Palley, 2009-03-30 A unique two volume examination of the progress women have made in achieving political equality *Women and Politics around the World* addresses both transnational and gender related issues as well as specific conditions in more than 20 countries *Women and*

Politics around the World A Comparative History and Survey is an exploration of the role of women in political systems worldwide as well as an examination of how government actions in various countries have an impact on the lives of the female population Women and Politics around the World divides its coverage into two volumes The first looks at such crucial issues facing women today as health policy civil rights and education comparing conditions around the world The second volume profiles 22 different countries representing a broad range of governments economies and cultures Each profile looks at the history and current state of women s political and economic participation in a particular country and includes an in depth look at a representative policy The result is a resource unlike any other one that gives students researchers and other interested readers a fresh new way of investigating a truly global issue *Art of Sharing* Mary Janigan,2020-07-23 In 1957 after a century of scathing debates and threats of provincial separation Ottawa finally tackled the dangerous fiscal inequalities among its richer and poorer provinces Equalization grants allowed the poorer provinces to provide relatively equal services for relatively equal levels of taxation The Art of Sharing tells the dramatic history of Canada s efforts to save itself The introduction of federal equalization grants was controversial and wealthier provinces such as Alberta wanting to keep more of their taxpayers money for their own governments continue to attack them today Mary Janigan argues that the elusive ideal of fiscal equity in spite of dissent from richer provinces has helped preserve Canada as a united nation Janigan goes back to Confederation to trace the escalating tensions among the provinces across decades as voters demanded more services to survive in a changing world She also uncovers the continuing contacts between Canada and Australia as both dominions struggled to placate disgruntled member states and provinces that blamed the very act of federation for their woes By the mid twentieth century trapped between the demands of social activists and Quebec s insistence on its right to run its own social programs Ottawa adopted non conditional grants in compromise The history of equalization in Canada has never been fully explored Introducing the idealistic Canadians who fought for equity along with their radically different proposals to achieve it The Art of Sharing makes the case that a willingness to share financial resources is the real tie that has bound the federation together into the twenty first century Media, Culture, and the Meanings of Hockey Stacy L. Lorenz,2017-04-21 This volume examines the cultural meanings of high level amateur and professional hockey in Canada during the late nineteenth and early twentieth centuries In particular the author analyzes English Canadian media narratives of Stanley Cup challenge games and championship series between 1896 and 1907 Newspaper coverage and telegraph reconstructions of Stanley Cup challenges contributed significantly to the growth of a mediated Canadian hockey world and a broader world of sport during this time period By 1903 Stanley Cup hockey games had become national Canadian events followed by audiences across the country Hockey also played an important role in the construction of gender and class identities and in debates about amateurism professionalism and community representation in sport The author also explores the connections between violence and masculinity in Canadian hockey by examining media descriptions of brutal and

strenuous play He analyzes how notions of civic identity changed as hockey clubs evolved from amateur teams represented by players who were members of their home community to professional aggregations that included paid imports from outside the town As a result this volume addresses important gaps in the study of sport history and the analysis of sport and popular culture This book was originally published as a special issue of The International Journal of the History of Sport

Social Inequality in Canada Edward G. Grabb, Neil Guppy, 2008 Social Inequality in Canada is a collection of twenty eight articles that cover all of the major aspects of social inequality The text covers two broad components objective or structural conditions of social inequality power poverty and wealth occupations and educational attainment in particular and ideologies that help support these differences Readers who would prefer a more egalitarian society than currently exists in Canada will find reasons for both optimism and pessimism in the research presented here The studies in this collection demonstrate that some types of inequality are generally becoming more marked over time while others have considerably diminished and still more that show little change in recent decades
