Gender Key Concepts In Philosophy:

Gender Tina Chanter, 2007-01-01 Explores and analyses the main philosophical theories ideas and arguments that inform and are raised by questions of gender and sexuality Pb Tina Chanter, 2006 *Key Concepts in World Philosophies* Sarah Flavel, Chiara Robbiano, 2023-01-12 Crossing continents and running across centuries Key Concepts in World Philosophies brings together the 45 core ideas associated with major Indian Chinese Japanese Islamic African Ancient Greek Indigenous and modern European philosophers The universal theme of self cultivation and transformation connects each concept Each one seeks to change our understanding the world or the life we are living From Chinese xin and karma in Buddhist traditions to okwu in African philosophy equity in Islamic thought and the good life in Aztec philosophy an international team of philosophers cover a diverse set of ideas and theories originating from thinkers such as Confucius Buddha Dogen Nezahualcoyotl Nietzsche and Zhuangzi Organised around the major themes of knowledge metaphysics and aesthetics each short chapter provides an introductory overview supported by a glossary This is a one of a kind toolkit that allows you to read philosophical texts from all over the world and learn how their ideas can be applied to your own life Philosophy of Education: The Key Concepts John Gingell, Christopher Winch, 2008-06-30 This new edition of Philosophy of Education The Key Concepts is an easy to use A Z guide summarizing all the key terms ideas and issues central to the study of educational theory today Fully updated the book is cross referenced throughout and contains pointers to further reading as well as new entries on such topics as Citizenship and Civic Education Liberalism Capability Well being Patriotism Globalisation Open mindedness Creationism and Intelligent Design Comprehensive and authoritative this highly accessible guide provides all that a student teacher or policy maker needs to know about the latest thinking on education in the 21st century **Key Concepts in Philosophy** Paddy McQueen, 2010-07-14 An accessible account of philosophical concepts theories and key thinkers with an emphasis on recent developments in the field Containing over 300 entries the terms are ordered alphabetically and cross referenced for ease of use Suggestions for further reading follow the explanations encouraging further reflection and independent learning Anarchafeminism Chiara Bottici, 2021-11-18 How can we be sure the oppressed do not become oppressors in their turn How can we create a feminism that doesn't turn into yet another tool for oppression It has become commonplace to argue that in order to fight the subjugation of women we have to unpack the ways different forms of oppression intersect with one another class race gender sexuality disability and ecology to name only a few By arguing that there is no single factor or arche explaining the oppression of women Chiara Bottici proposes a radical anarchafeminist philosophy inspired by two major claims that there is something specific to the oppression of women and that in order to fight that we need to untangle all other forms of oppression and the anthropocentrism they inhabit Anarchism needs feminism to address the continued subordination of all femina but feminism needs anarchism if it does not want to become the privilege of a few Anarchafeminism calls for a decolonial and deimperial position and for a renewed awareness of

the somatic communism connecting all different life forms on the planet In this new revolutionary vision feminism does not mean the liberation of the lucky few but liberation for all living creatures from both capitalist exploitation and an androcentric politics of domination Either all or none of us will be free **Gender** Brooke Holmes,2012-05-31 Gender has now become a pervasive topic in the humanities and social sciences Yet despite its familiarity within universities and colleges some have argued that the radical debates which first characterized gender studies have become ghettoized or marginalized so that gender no longer makes the impact on creative thinking and ideas that it once did Brooke Holmes here rescues ancient ideas about sex and gender in order precisely to reinvigorate contemporary debate She argues that much writing on gender in the classical age fails to place those ancient ideas within their proper historical contexts As a result the full transformational force of that thinking is often overlooked In this short lively book the author offers a sophisticated and historically rounded reading of gender in antiquity in order to map out the future of contemporary gender studies By re examining ancient notions of sexual difference bodies culture and identity Holmes shows that Plato Aristotle the Stoics Epicureans and others force us to reassess what is at stake in present day discussions about gender The ancient world thus offers a vital resource for modern gender theory The Body God Gives Robert S. Smith,2025-02-19 What is the relationship between sex and gender Understand society s shifts in thinking and talking about sex and gender Discover how biological sex guides gender Recognize how the Bible speaks to gender and transgender Respond to affirming interpretations of Scripture Answer gender confusion with clarity and compassion In The Body God Gives A Biblical Response to Transgender Theory Robert S Smith argues that God intends a person s gender to be grounded in the reality of his or her biological sex the body God has given In making his case Smith critiques the central claim of transgender theory that the sexed body does not determine the gendered self He also evaluates contemporary changes in thought and speech about sex and gender responding to modern confusion with biblical conviction and compassion God speaks clearly both in his word and in his world

Sexuality in the Middle Ages and Early Modern Times Albrecht Classen,2008-12-10 Sexuality is one of the most influential factors in human life The responses to and reflections upon the manifestations of sexuality provide fascinating insights into fundamental aspects of medieval and early modern culture This interdisciplinary volume with articles written by social historians literary historians musicologists art historians and historians of religion and mental ity demonstrates how fruitful collaborative efforts can be in the exploration of essential features of human society Practically every aspect of culture both in the Middle Ages and the early modern age was influenced and determined by sexuality which hardly ever surfaces simply characterized by prurient interests The treatment of sexuality in literature chronicles music art legal documents and in scientific texts illuminates central concerns anxieties tensions needs fears and problems in human society throughout times Whose Antigone? Tina Chanter,2011-07-01 In this groundbreaking book Tina Chanter challenges the philosophical and psychoanalytic reception of Sophocles Antigone which has largely ignored the issue of slavery Drawing on

textual and contextual evidence including historical sources she argues that slavery is a structuring theme of the Oedipal cycle but one that has been written out of the record Chanter focuses in particular on two appropriations of Antigone The Island set in apartheid South Africa and T g nni set in nineteenth century Nigeria Both plays are inspired by the figure of Antigone and yet they rework her significance in important ways that require us to return to Sophocles original play and attend to some of the motifs that have been marginalized Chanter explores the complex set of relations that define citizens as opposed to noncitizens free men versus slaves men versus women and Greeks versus barbarians Whose Antigone moves beyond the narrow confines critics have inherited from German idealism to reinvigorate debates over the meaning and significance of Antigone situating it within a wider argument that establishes the salience of slavery as a structuring theme

The Radical Critique of Liberalism Toula Nicolacopoulos,2008 There are many books about liberalism but no defence of radical critique that treats liberal theory with the depth breadth and intensity of this work Rigorously examining Rawls Waldron Larmore and Kymlicka the book demonstrates that an adequate appreciation of the deep structural flaws of liberal theory presupposes the application of a critical philosophical methodology that has the power to reveal the systemic interconnections within and between the varieties of liberal inquiring practices

Writing Philosophical Autoethnography Alec Grant,2023-09-15 Writing Philosophical Autoethnography is the result of Alec Grant s vision of bringing the disciplines of philosophy and autoethnography together This is the first volume of narrative autoethnographic work in which invited contributing authors were charged with exploring their issues concerns and topics about human society culture and the material world through an explicitly philosophical lens Each chapter while written autoethnographically showcases sustained engagement with philosophical arguments ideas concepts theories and corresponding ethical positions Unlike much other autoethnographic work within which philosophical ideas often appear to be grafted on or supplementary the philosophical basis of the work in this volume is fundamental to its shifting content focus and context The narratives in this book from scholars working in a range of disciplines in the humanities and human sciences function as narrative conceptual and analytical exemplars to act as a guide for autoethnographers in their own writing and suggest future directions for making autoethnography more philosophically rigorous This book is suitable for students and scholars of autoethnography and qualitative methods in a range of disciplines including the humanities social and human sciences communication studies and education

Revolutionary Time Fanny Söderbäck,2019-12-01 This book is the first to examine the relationship between time and sexual difference in the work of Julia Kristeva and Luce Irigaray Because of their association with reproduction embodiment and the survival of the species women have been confined to the cyclical time of nature a temporal model that is said to merely repeat itself Men on the other hand have been seen as bearers of linear time and as capable of change and progress Fanny S derb ck argues that both these temporal models make change impossible because they either repeat or repress the past The model of time developed here revolutionary time aims at

returning to and revitalizing the past so as to make possible a dynamic embodied present and a future pregnant with change

S derb ck stages an unprecedented conversation between Kristeva and Irigaray on issues of both time and difference and engages thinkers such as Simone de Beauvoir Jacques Derrida Sigmund Freud Judith Butler Hannah Arendt and Plato along the way

Schooling Indifference John I'Anson, Alison Jasper, 2017-06-14 This book is concerned with re imagining Religious Education RE as this is practiced in schools colleges and universities throughout the UK and in a wide variety of international educational contexts On the basis of a critical analysis of current theory and practice in RE the authors argue that this educational framing is no longer plausible in the light of new theoretical developments within the academy A new educational approach to RE is outlined that challenges students to think and practice differently This includes a becoming ethnographer that can acknowledge socio material relations and engage the broader literacies necessary for such study Part One examines how RE has been constructed as a discipline in historical and spatial terms that abstract its study from material concerns In Part Two the authors offer some new starting points Spinoza Foucault and feminist theory that differently foreground context and relationality and Islam read as a discursive located tradition rather than as world view Finally Part Three proposes a new trajectory for research and practice in RE with the aim of re engaging schools colleges and universities in a dialogue that promotes thinking and practice that as educational is continually in touch with the need to be critical open ended and ethically justifiable

Imaginal Politics Chiara Bottici, 2014-05-06 Between the radical creative capacity of our imagination and the social imaginary we are immersed in is an intermediate space philosophers have termed the imaginal populated by images or re presentations that are presences in themselves Offering a new systematic understanding of the imaginal and its nexus with the political Chiara Bottici brings fresh insight into the formation of political and power relationships and the paradox of a world rich in imagery yet seemingly devoid of imagination Bottici begins by defining the difference between the imaginal and the imaginary locating the imaginal s root meaning in the image and its ability to both characterize a public and establish a set of activities within that public She identifies the imaginal s critical role in powering representative democracies and its amplification through globalization She then addresses the troublesome increase in images now mediating politics and the transformation of politics into empty spectacle The spectacularization of politics has led to its virtualization Bottici observes transforming images into processes with an uncertain relationship to reality and while new media has democratized the image in a global society of the spectacle the cloned image no longer mediates politics but does the act for us Bottici concludes with politics current search for legitimacy through an invented ideal of tradition a turn to religion and the incorporation of human rights language
