Gender Rituals Female Initiation In Melanesia:

Gender Rituals Nancy Lutkehaus, Paul Roscoe, 2013-09-13 This volume draws together ethnographies of female initiation rites in Melanesia which require anthropologists to rethink their analysis of initiations and their perceptions of gender The contributors argue that female initiation rites express more than cultural notions of femininity narrow definitions of reproduction or coming of age rituals instead they play an important role in other life cycle rituals and in the political and economic organization of society Choruses of Young Women in Ancient Greece Claude Calame, 2001 In this groundbreaking work Claude Calame argues that the songs sung by choruses of young girls in ancient Greek poetry are more than literary texts rather they functioned as initiatory rituals in Greek cult practices Using semiotic and anthropologic theory Calame reconstructs the religious and social institutions surrounding the songs demonstrating their function in an aesthetic education that permitted the young girls to achieve the stature of womanhood and to be integrated into the adult civic community This first English edition includes an updated bibliography Theorizing Rituals Jens Kreinath, Michael Strausberg, 2006 Volume two of Theorizing Rituals mainly consists of an annotated bibliography of more than 400 items covering those books edited volumes and essays that are considered most relevant for the field of ritual theory Instead of proposing yet another theory of ritual the bibliography is a comprehensive monument documenting four decades of Moving Oceans Ralph Buck, Nicholas Rowe, 2017-09-19 Celebrating the diversity of dance across the theorizing rituals South Pacific this volume studies the various experiences motivations and aims for dance emerging from the voices of dance professionals in the islands In particular it focuses on the interplay of cultures and pathways of migration as people move across the region discovering new routes and connections Photography's Other Histories Christopher Pinney, Nicolas Peterson, 2003-04-24 Richly illustrated with over 100 images this volume explores the role of photography in raising historical consciousness from a variety of geographic cultural and historical perspectives 128 photos **Thicker Than Water** Melissa Meyer, 2014-02-04 Blood is more than a fluid solution of cells platelets and plasma It is a symbol for the most basic of human concerns life death and family find expression in rituals surrounding everything from menstruation to human sacrifice Comprehensive in its scope and provocative in its argument this book examines beliefs and rituals concerning blood in a range of regional and religious contexts throughout human history Meyer reveals the origins of a wide range of blood rituals from the earliest surviving human symbolism of fertility and the hunt to the Jewish bris and the clitoridectomies given to young girls in parts of Africa The book also explores how cultural practices influence gene selection and makes a connection with the natural sciences by exploring how color perception influences the human proclivity to create blood symbols and **Deeply Into the Bone** Ronald L. Grimes, 2002-12 Providing a personal informed and cultural perspective on rites rituals of passage for general readers this text illustrates the power of rites to help us navigate life s troublesome transitions Secrecy and Cultural Reality Gilbert Herdt, 2010-02-22 A compelling study of male ritual secrecy and its impact on the

cultures of Melanesia and Papua New Guinea Kinship in Action Andrew Strathern, Pamela J Stewart, 2015-07-02 For courses in Social Organization Kinship and Cultural Ecology Kinship has made a come back in Anthropology Not only is there a line of noted general introductory works and readers in the topic but theoretical discussions have been stimulated both by technological changes in mechanisms of reproduction and by reconsiderations of how to define kinship in the most productive ways for cross cultural comparisons In addition kinship studies have moved away from the minutiae of kin terminological systems and the kinship algebra often associated with these to the broader analysis of processes historical changes and fundamental cultural meanings in which kin relationships are implicated. In this changed and changing context both Andrew Strathern and Pamela J Stewart both of the University of Pittsburgh bring together a number of interests and concerns in order to provide pointers for students as well as scholars in this field of study Taking an explicitly processual approach the authors examine definitions of terms such as kinship itself approach the topic in a way that is invariably ethnographic and deploy materials from field areas where they themselves have worked **Gender Analysis in Papua** New Guinea Elizabeth C. Brouwer, Bruce M. Harris, Sonomi Tanaka, 1998-01-01 In October 1996 The East Asia and Pacific Region developed a Regional Gender Action Plan that stressed the importance of country specific strategies regarding gender issues This report on gender in Papua New Guinea intends to lay the foundation for such a strategy The report provides an outline of the key historical economic demographic political geographic socio cultural legal and institutional issues that are relevant to understanding the status of women in Papua New Guinea today Anthropology Matters Shirley A. Fedorak, 2012-06-13 The second edition of this popular text has been updated throughout and includes four new chapters on language revitalization social media and social revolutions human migration and the role of NGOs in international development practice Women of the Sacred Groves Susan Starr Sered, 1999 Although most historical and contemporary religions are governed by men there are scattered throughout the world a handful of well documented religions led by women Most of these are marginal subordinate or secondary religions in the societies in which they are located The one known exception to this rule is the indigenous religion of Okinawa where women lead the official mainstream religion of the society In this fieldwork based study Susan Sered provides the first in depth look at this unique religious tradition exploring the intersection between religion and gender In addition to providing important information on this remarkable and little studied group this book helps to overturn our mostly unexamined assumptions that male dominance of the religious sphere is universal axiomatic and necessary Common Worlds and Single Lives Verena Keck, 2020-08-20 In Pacific societies local knowledge which has been accumulated over thousands of years and is irreplaceable is rapidly disappearing With the extinction of languages the ability to observe and interpret the world from varying perspectives is also being lost At the same time an enormous body of knowledge about nature plants and animals is vanishing However in parallel with this the people of the Pacific are confronted with new modes of knowledge and newly introduced technologies through

imported educational systems missions of various denominations and the media They do not passively assimilate this knowledge but adopt adapt and apply it in a syncretistic way These changes will have permanent effects on the individual lives of people in the region and their knowledge about themselves and their surrounding world This stimulating book tracks the course of these developments and offers revealing insights into the complexity of Pacific peoples responses to the process of globalization Ritual Andrew Strathern,2017-05-15 This volume consists of a number of carefully selected readings that represent a wide range of discussions and theorizing about ritual The selection encompasses definitional questions issues of interpretation meaning and function and a roster of ethnographic and analytical topics covering classic themes such as ancestor worship and sacrifice initiation gender healing social change and shamanic practices as well as recent critical and reconstructive theorizing on embodiment performance and performativity In their Introduction to the volume the Editors provide an overall survey and critical consideration of topics incorporating insights from their own long term field research and reflections on the readings included The Introduction and readings together provide a unique research tool for those interested in pursuing the study of ritual processes in depth with the benefit of both historical and contemporary approaches

From Wives to Widows in Early Modern Paris Janine M. Lanza, 2016-04-22 Looking especially at widows of master craftsmen in early modern Paris this study provides analysis of the social and cultural structures that shaped widows lives as well as their day to day experiences Janine Lanza examines widows in early modern Paris at every social and economic level beginning with the late sixteenth century when changes in royal law curtailed the movement of property within families up to the time of the French Revolution The glimpses she gives us of widows running businesses debating remarriage and negotiating marriage contracts offer precious insights into the daily lives of women in this period Lanza shows that understanding widows dramatically alters our understanding of gender not only in terms of how it was lived in this period but also how historians can use this idea as a category of analysis Her study also engages the historiographical issue of business and entrepreneurship particularly women s participation in the world of work and explicitly examines the place of the law in the lived experience of the early modern period How did widowed women use their newly acquired legal emancipation How did they handle their emotional loss How did their roles in their families and their communities change How did they remain financially solvent without a man in the house How did they make decisions that had always been made by the men around them These questions all touch upon the experience of widows and on the ways women related to prevalent structures and ideologies in this society Lanza s study of these women the ways they were represented and how they experienced their widowhood challenges many historical assumptions about women and their roles with respect to the law the family and economic activity The Oxford Handbook of the Archaeology of Ritual and Religion Timothy Insoll, 2011-10-28 The Oxford Handbook of the Archaeology of Ritual and Religion provides a comprehensive overview by period and region of the relevant archaeological material in relation to theory methodology definition and practice Although as the title indicates the focus is

upon archaeological investigations of ritual and religion by necessity ideas and evidence from other disciplines are also included among them anthropology ethnography religious studies and history The Handbook covers a global span Africa Asia Australasia Europe and the Americas and reaches from the earliest prehistory the Lower and Middle Palaeolithic to modern times In addition chapters focus upon relevant themes ranging from landscape to death from taboo to water from gender to rites of passage from ritual to fasting and feasting Written by over sixty specialists renowned in their respective fields the Handbook presents the very best in current scholarship and will serve both as a comprehensive introduction to its subject and as a stimulus to further research The Melanesian World Eric Hirsch, Will Rollason, 2019-03-28 This wide ranging volume captures the diverse range of societies and experiences that form what has come to be known as Melanesia It covers prehistoric historic and contemporary issues and includes work by art historians political scientists geographers and anthropologists The chapters range from studies of subsistence ritual and ceremonial exchange to accounts of state violence new media and climate change The Melanesian world assembled here raises questions that cut to the heart of debates in the human sciences today with profound implications for the ways in which scholars across disciplines can describe and understand human difference This impressive collection of essays represents a valuable resource for scholars and students alike Thamyris Mythmaking from the Past to Present Nanny M. W. de Vries, Jan Best, Masculinity, Motherhood, and Mockery Eric Kline Silverman, 2001 An important ethnographic analysis of motherhood in one Melanesian society
