**Contemporary Asian America (third Edition)** Min Zhou, Anthony Christian Ocampo, 2016-04-19 The third edition of the foundational volume in Asian American studies Who are Asian Americans Moving beyond popular stereotypes of the model minority or forever foreigner most Americans know surprisingly little of the nation's fastest growing minority population Since the 1960s when different Asian

immigrant groups came together under the Asian American umbrella they have tirelessly carved out their presence in the labor market education politics and pop culture Many times they have done so in the face of racism discrimination sexism homophobia and socioeconomic disadvantage Today contemporary Asian America has emerged as an incredibly diverse population with each segment of the community facing its unique challenges When Contemporary Asian America was first published in 2000 it exposed its readers to the formation and development of Asian American studies as an academic field of study from its inception as part of the ethnic consciousness movement of the 1960s to the systematic inquiry into more contemporary theoretical and practical issues facing Asian America at the century s end It was the first volume to integrate a broad range of interdisciplinary research and approaches from a social science perspective to assess the effects of immigration community development and socialization on Asian American communities This updated third edition discusses the impact of September 11 on Asian American identity and citizenship the continued influence of globalization on past and present waves of immigration and the intersection of race gender sexuality and class on the experiences of Asian immigrants and their children The volume also provides study questions and recommended supplementary readings and documentary films This critical text offers a broad overview of Asian American studies and the current state of Asian America

**The Managed Hand** Miliann Kang, 2010-06-02 This book is a must read for women s studies and sociology classes on labor migration and gender as it provides its readers a rich and theoretically engaging discussion on feminine culture the intersections of race class gender and migrant women s labor Rhacel Salazar Parre as Brown University In The Managed Hand Miliann Kang makes a significant contribution to the existing literature on Asian American women gender relations service workers beauty and the body Based on fieldwork in nail salons Kang reveals the social and emotional negotiations between and amongst women in that setting We will never look at fingernails and what they tell us about ourselves in the same way again Rebecca King O Riain author of Pure Beauty Judging Race in Japanese American Beauty Pageants I enjoyed reading Kang s work so much that I felt disappointed when I finished The book is a wonderful example of what sociology does best i e skillfully examining a relatively small site of interest such that the analysis speaks not only to matters of individual experience and identity but also to those of broader social and cultural processes and structures Debra L Gimlin author of Body Work Beauty and Self Image in American Culture How did manicured nails become such ubiquitous symbols of feminine status In this innovative and compelling ethnography Kang unravels the many social consequences of the polished nail bringing together insights from care work ethnic enclave entrepreneurship and gender and migration scholarship to illuminate the growing sector of body labor All those who would dismiss manicured nails as socially irrelevant should read this book Pierrette Hondagneu Sotelo author of Domestica Immigrant Workers Cleaning and Caring in the Shadows of Affluence

*Intersectionality and Ethnic Entrepreneurship* Zulema Valdez, Mary Romero, 2018-10-18 Intersectionality and Ethnic Entrepreneurship brings together a group of eminent and up and coming young scholars who apply an intersectional

perspective to the study of ethnic entrepreneurship Against the traditional approach s emphasis on ethnicity and its primacy which tends to conflate ethnicity with other social groupings i e social class considers their effect as an additive or secondary consequence only i e gender or ignores their influence altogether i e race the studies in this volume recognize that multiple dimensions of identity intermix to condition entrepreneurial outcomes Starting with the premise that systems of oppression and privilege specifically capitalism patriarchy and white supremacy are endemic to the American social structure the works in this volume recognize that these interlocking systems of inequality condition the life chances of entrepreneurs from diverse social locations differently even among members of the same ethnic group This book was originally published as a special issue of Ethnic and Racial Studies

**From Sweatshop to Fashion Shop** Jihye Kim,2021-08-26 Since their arrival in the 1960s Korean

immigrants in Argentina have been massively involved in the garment industry Nevertheless despite their decades long concentration in the same sector over time they have reshaped their motivations and business styles throughout the twists and turns of the host country s junctures Applying rigorous immigrant entrepreneurship theories yet wary of orthodoxies Kim examines the intriguing paths which Korean entrepreneurs have taken to develop their businesses in the Argentine garment industry amidst complex frantically volatile social and economic circumstances and argues for the application of a new approach that combines existing theories with historically contextual perspectives This unique case study on Korean immigrant entrepreneurship in Latin America represents a significant milestone in the fields of migration and Korean studies and a substantial contribution to bridging the gap between the North where such inquiries abound and the South where the history settlement and current status of Korean immigrants have been notoriously under examined Bibliographie
