Freedom Regained Julian Baggini, 2015-10-05 Originally published in English by Granta Publications under the title Freedom Regained Title page verso **Freedom Regained** Julian Baggini, 2015-10-05 For anyone who has ever given serious thought to the degree to which our actions are within our own control Freedom Regained will give you a lot to chew on Spectrum Culture It s a question that s puzzled philosophers and theologians for centuries and is at the heart of numerous political social and personal concerns Do we have free will In this cogent compelling book Julian Baggini explores the concept of free will from every angle blending philosophy sociology and cognitive science to find rich new insights on the intractable questions that plague us Are we products of our culture or free agents within it Are our neural pathways fixed early on by a mix of nature and nurture or is the possibility of comprehensive intentional psychological change always open to us And what exactly are we talking about when we talk about freedom anyway Freedom Regained brings the issues raised by the possibilities and denials of free will to thought provoking life drawing on scientific research and fascinating encounters with everyone from artists to prisoners to dissidents Baggini looks at what it means to be material beings in a universe of natural laws He asks if there s any difference between ourselves and the brains from which we seem never able to escape He throws down the wild cards and plays them to the fullest What about art What about addiction What about twins And he asks of course what this all means for politics Ultimately Baggini challenges those who think free will is an illusion Moving from doubt to optimism to a hedged acceptance of free will he ultimately lands on a satisfying conclusion It is something we earn The result is a highly engaging new and more positive understanding of our sense of personal freedom a freedom that is definitely worth having Entertaining The Wall Street Journal While firmly rooted in the philosophical tradition Baggini also gets out and talks to people for whom freedom and lack of it is a real and pressing matter Literary Review **The Cruelty of Free Will** Richard Oerton, 2018-11-08 Following on from the success of The Nonsense of Free Will The Cruelty of Free Will takes up where the earlier book left off It sets to answer two questions why and how does free will belief persist so stubbornly Heidegger's Conception of Freedom Matthew J. Barnard, 2024-09-12 This book is the first monograph in English exclusively dedicated to the exegesis of Martin Heidegger s radical conception of freedom which was developed in response to the human experience of existential guilt and mortality explained through the phenomena of transcendence and truth The book is additionally distinctive in that it is the first to approach these issues with the purpose of clarifying the texts involved rather than constructing a novel conception of agency or freedom on the basis of those texts Heidegger s Conception of Freedom is ideal for scholars and researchers of philosophy and especially for those focusing on Heidegger s thought existentialism and phenomenology *Go, Go, Go, Said the Bird* Richard Oerton, 2025-01-28 Taking its title from lines in T S Eliot s Four Quartets Go go go said the bird human kind cannot bear very much reality this book sets out to expose some of the realities which at this stage of our evolution human beings cannot bear to accept Successive chapters

examine rationality conscience religion perception sexuality free will moral responsibility and crime pointing out the incomprehension which mars our approach to each topic One of the book's themes is that we are still below the surface a savage species clinging to our misconceptions because they liberate and justify our cruelty to one another Despite its deadly serious and controversial approach the book is enlivened by humour personal stories quotes from others and bits of poetry It is not academic but readily accessible to the general reader In the last chapter the author sums up by saying that although the human species now is what it is some of us can imagine a better one A species that isn't irrational ignorant credulous uncomprehending self-defeating ill at ease with its sexuality mired in contradictory beliefs impelled by a savagery let loose by misperception and misunderstanding and asks Could this imaginary species ever become a real one

Educational Authorities and the Schools Helene Årlestig, Olof Johansson, 2020-05-28 This book describes and analyses the organisation functions and development of national educational authorities and agencies and the influence they have on local schools in 20 countries around the world It examines the governing chain in the respective countries from both a theoretical and descriptive perspective It does so against the background of the stability and rigour of the governing chains having been challenged with some researchers considering the chain to be broken However the view that comes to the fore in this book is that the chain is still present and contains both vertical implementation structures and intervening spaces for policy interpretation How schools become successful is important for the individual students as well as the local community and the national state A vast quantity of research has looked at what happens in schools and classrooms At the same time national governance and politics as well as local prerequisites are known to exert influence on schools and their results to a high degree Societal priorities problems and traditions provide variety in how governance is executed This book provides an international overview of the similarities and differences between educational agencies and how their work influences schools

Fashion Aesthetics and Ethics Louise Wallenberg, Andrea Kollnitz, 2023-05-04 How are aesthetics and ethics related to the practical realities of the global fashion industry Both have played an important role in academic fashion studies to this point but they are most often discussed in the context of abstract phenomena such as modernity and capitalism or identity issues such as sexuality class and gender The essays in this volume strive instead to show how the realities of the global fashion industry have important and pertinent aesthetic and ethical consequences This collection provides critical and philosophical analysis of the interplay of aesthetics and ethics within the global fashion industry Characterized by an increasingly fast spinning production the industry is highly exploitative in terms of environment and labor force underpaid textile workers retailers working under brutal competition from the mass merchandise discounters young designers seamstresses and curators often working for free

and a vast body of aspiring models In addition fashion related aesthetic ideals are becoming more influential than ever in directing consumers in their social and personal identification processes and bodily practices with sometimes fatal consequences Covering a wide range of subjects such as fashion s highly problematic production and consumption practices the possibility of producing and consuming fashion ethically fashion s intimate connection with nature and technology Fashion Aesthetics and Ethics highlights the powerful aesthetical presence of fashion in relation to its ethical premises and often problematic outcomes

concern with choice has featured continually in human thought from the Hellenistic world of the Stoics to the post Kantian environment of modern philosophy Moreover he argues that the social and historical dimension of choice has been consistently underplayed and that the role of choice in modern economic and political developments is underestimated at our peril Through a critical account of the literature Hodgkiss adeptly diagnoses the insufficiency of the current conception of the choice making sovereign individual in the contemporary liberal democratic capitalist context and outlines the implications of this philosophy for the choice maker

Knowing Creation Zondervan, 2018-05-08 It is hard to think of an area of Christian theology that provides more scope for interdisciplinary conversation than the doctrine of creation This doctrine not only invites reflection on an intellectual concept it calls for contemplation of the endlessly complex dynamic and fascinating world that human being inhabit But the possibilities for wide ranging discussion are such that scholars sometimes end up talking past one another Productive conversation requires mutual understanding of insights across disciplinary boundaries Knowing Creation offers an essential resource for helping scholars from a range of fields to appreciate one another's concerns and perspectives In so doing it offers an important step forward in establishing a mutually enriching dialogue that addresses amongst others the following key questions Who is the God who creates Why does God create What is creation What does it mean to recognize that a theology of creation speaks of a natural world that is subject to the observation of the natural sciences What does it mean to talk about both a natural order and a created order What are the major tensions that have arisen between the natural sciences and Christian thinking historically and why How can we move beyond such tensions to a positive and constructive conversation while also avoiding facile notions such as a god of the gaps Is it feasible for a natural scientist to maintain a belief in God's continuing creative activity In what ways might a naturalistic understanding of the natural world be said to be limited How can biblical studies theology philosophy history and science talk better together about these questions At a time when the doctrine of creation and even a mention of creation has been disparaged due to its supposed associations with anti scientific dogma and theological offerings sometimes risk appearing a little more than reactionary exercises in naive apologetics ill informed by science or distinctly wary of engagement with it it is more important than ever to offer a cross disciplinary resource that can voice a positive account of a Christian theology of creation and do so as a genuinely broad ranging conversation about science and faith Contributors to Knowing Creation include Marilyn McCord Adams Denis Alexander Susan Eastman C Stephen Evans Peter van Inwagen Christoph Schwobel John H Walton Francis Watson and more X
