## **Freedom Of Religion Apostasy And Islam:**

Freedom of Religion, Apostasy and Islam Abdullah Saeed, 2017-03-02 Debate on freedom of religion as a human right takes place not only in the Western world but also in Muslim communities throughout the world For Muslims concerned for this freedom one of the major difficulties is the punishment for apostasy death for those who desert Islam This book argues that the law of apostasy and its punishment by death in Islamic law is untenable in the modern period Apostasy conflicts with a variety of foundation texts of Islam and with the current ethos of human rights in particular the freedom to choose one's religion Demonstrating the early development of the law of apostasy as largely a religious political tool the authors show the diversity of opinion among early Muslims on the punishment highlighting the substantial ambiguities about what constitutes apostasy the problematic nature of some of the key textual evidence on which the punishment of apostasy is based and the neglect of a vast amount of clear Qur'anic texts in favour of freedom of religion in the construction of the law of apostasy Examining the significant challenges the punishment of apostasy faces in the modern period inside and outside Muslim communities exploring in particular how apostasy and its punishment is dealt with in a multi religious Muslim majority country Malaysia and the challenges and difficulties it faces there the authors discuss arguments by prominent Muslims today for an absolute freedom of religion and for discarding the punishment of apostasy

*Religious Freedom in Islam* Daniel Philpott, 2019-02-01 Since at least the attacks of September 11 2001 one of the most pressing political questions of the age has been whether Islam is hostile to religious freedom Daniel Philpott examines conditions on the ground in forty seven Muslim majority countries today and offers an honest clear eyed answer to this urgent question It is not however a simple answer From a satellite view the Muslim world looks unfree But Philpott shows the truth is much more complex Some one fourth of Muslim majority countries are in fact religiously free Of the other countries about forty percent are governed not by Islamists but by a hostile secularism imported from the West while the other sixty percent are Islamist The picture that emerges is both honest and hopeful Yes most Muslim majority countries are lacking in religious freedom But Philpott argues the Islamic tradition carries within it seeds of freedom and he offers guidance for how to cultivate those seeds in order to expand religious freedom in the Muslim world and the world at large It is an urgent project Religious freedom promotes goods like democracy and the advancement of women that are lacking in the Muslim majority world and reduces ills like civil war terrorism and violence Further religious freedom is simply a matter of justice not an exclusively Western value but rather a universal right rooted in human nature Its realization is critical to the aspirations of religious minorities and dissenters in Muslim countries to Muslims living in non Muslim countries or under secular dictatorships and to relations between the West and the Muslim world In this thoughtful book Philpott seeks to establish a constructive middle ground in a fiery and long lasting debate over Islam

**Apostates, Islam & Freedom of Faith** Abdulahmid AbuSulayman, 2013 In this new and important analysis of apostasy al Riddah the author examines fundamental teachings of the Qur'an the Sunnah of

the Prophet as well as historical as opposed to scriptural postulates to uncover the origins of the debate and refute misconception Mainstream media and critics of Islam delight in pointing to the death penalty as evidence of Islam's draconian tenets moral flaws and flagrant disregard for human rights This demonstrates a complete misunderstanding of the correct Islamic position what apostasy signifies in Islam ignorance of Islamic principles of justice as well as failure to comprehend the manipulation of religion for political purposes

Freedom of Religion and Religious Pluralism Md. Jahid Hossain Bhuiyan, Carla M. Zoethout, 2023-03-20 Religious pluralism is an important aspiration of contemporary societies meaning that religious diversity is permitted and everyone has the freedom of religion or belief or not to believe The peaceful coexistence of people of a myriad of faiths is indispensable for securing peace in the modern era of political upheaval and economic dissonance This book brings together a variety of religious and non religious perspectives on religious pluralism It explores the key philosophical and legal issues associated with religious freedom and social harmony Freedom of Religion and Religious Pluralism intends to serve as a valuable resource for scholars specialising in religion citizenship and migration studies It will also act as a reference for courses on law religion and human rights

Leaving Islam, Ex-Muslims and Zemiology Weronika Lenartowicz, 2024-02-28 Cases of ex Muslims in Europe being punished by their former fellow Muslims constitute an unacceptable practice from the standpoint of democratic societies in which human rights are respected and individuals have the freedom to choose their religion or none at all Ex Muslims fear of punishment by their former community should prompt an open candid and measured discussion of the issue Leaving Islam Ex Muslims and Zemiology presents the reasons for and consequences of consciously leaving Islam based on interviews with 80 ex Muslims currently living in Germany and Sweden In their view many of the practices and beliefs of Islam are harmful and unfair Many parts of the Islamic world regard apostasy as treason or a crime As a result emphasis in the book is shifted from crime to harm and a thesis is put forward concerning the decriminalization of apostasy from the perspective of zemiology The book highlights how a broader shift of interest in the democratic structures of Europe could allow ex Muslims to join the discussion on the guaranteed right to religious liberties and freedom of speech in the context of the apostasy law in Islam This should happen without fear for their own security and without facing potential suppression or social exclusion It will appeal to scholars with interest in Islam and the conflict between religious values and an individual's aspirations and needs

**Islam and Politics in Indonesia: Freedom of Religion or Belief and the influence of Islamic actors** Tobias Hoheneder, 2018-08-15 In most Islamic societies freedom of religion or belief is not a reality for religious minorities Indonesia home of the biggest Muslim population in the world is a positive exception in this regard The country was always a role model for the peaceful coexistence of diverse religious and cultural traditions but in recent years Islamic fundamentalist groups challenge the country's tolerant and pluralistic identity This book inquires the development of freedom of religion or belief from a political legal and religious perspective It analyzes the laws and mechanisms that protect the rights of minorities and traces the role of the

country's most important Islamic organizations and the influence they have on national policy making. It finally points out possible future developments and how the government can counter the threat of militant Islamism and preserve Indonesia's tolerant traditions.

**Contemporary Interpretation of Islamic Law** Ahmed Affi, Hassan Affi, 2014. This book does not champion some of the popular misconceptions surrounding Islamic law. It does not advocate stoning to death, amputating the hands of thieves, call for the death penalty for those who leave the fold of Islam, or urge Muslims to save their souls from Hellfire by shunning bank loans for fear of incurring interest. What it does advocate is less sensationalistic but it is in line with the real interpretation of Islamic law. *Contemporary Interpretation of Islamic Law* is divided into thirteen chapters. The majority of the chapters concentrate on criminal aspects of Islamic law while the remainder concern themselves with social issues. Each chapter where possible provides background information of the topic under discussion and then proceeds to analyse, examine, and critique the contentious parts of the topic, looking at the arguments from all sides and the evidence put forward by each side before arriving at a conclusion. The book is accompanied by a glossary. Our work differs from other published titles on Islamic law as it takes into account the different aspects of the Qur'an. The Qur'an employs many parables, allegories, and metaphors to highlight important messages for Mankind, yet jurists often make the common mistake of either omitting or misinterpreting these devices, resulting in inaccurate and often unlawful rulings which have direct and indirect effects on both Muslims and non-Muslims alike. It is hoped that our work will create a better understanding of the correct interpretation of the Qur'an and Islamic law, says authors Ahmed Affi and Hassan Affi. *Contemporary Interpretation of Islamic Law* will appeal to those with an interest in Islam and Islamic law though no specialist knowledge of Arabic or Islamic law is required.

*Let there be no Compulsion in Religion (Sura 2:256)* Christine Schirrmacher, 2016-02-04. In Christine Schirrmacher's postdoctoral thesis for the first time one finds reviews of original voices coming from Islamic theology on the topic of religious freedom and apostasy. Arabic, English, French, and Urdu texts have been translated and analyzed and thus made accessible. There are basically three positions which are defended on falling away from the Islamic faith: Complete advocacy of religious freedom, the complete denial of religious freedom with a call for the immediate application of the death penalty for apostates, and the centrist position. The centrist position, however, which allows inner freedom of thought and warns against premature persecution, calls for the death penalty in the case of open apostasy, e.g. in the case of conversion to another faith. Within established Islamic theology, the latter approach is nowadays the most frequent point of view found. These three main positions on apostasy are introduced in this postdoctoral thesis by means of the publications of three influential 20th-century theologians: Yusuf al-Qaradawi (b. 1926), Abdullah Saeed (b. 1960), and Abu l-A'la Maududi (1903-1979). They all have followings of many millions of people and have political influence at their disposal. The study explains why in many Muslim majority countries there is still today only very limited or sometimes no freedom of religion in the sense of the Universal Declaration of Human Rights adopted by the United Nations in 1948 for converts, critical intellectuals, artists, and

question of identity can be traced back to the second half of the nineteenth century. Faced with European superiority and aware of their own need for reform, Muslim intellectuals pondered how to explain the stagnation of Islamic societies and what initiatives were needed to bring about the desired progress. Many Muslims were troubled not only by Europe's material superiority but also by the sense of inferiority they felt in the face of Europe's ideological defamation of Islamic societies. Any person wrote the French philosopher Ernest Renan in 1883 with a modicum of instruction in the affairs of our time clearly sees the current inferiority of Muslim countries, the decadence of the states governed by Islam, the intellectual nonentity of the races that derive their culture and education solely from this religion. Thus the idea of reform derived its impetus from an ideological challenge that saw the causes of Muslim stagnation as residing in Islam and identified the latter as inhibiting or even blocking the progress of Islamic societies. Accordingly, the crisis of the Muslim search for identity unfolded in response to the question of how to define oneself in relation to Europe and what role Islam should play in this regard. In a broader sense, Muslims were confronted with the basic questions of political philosophy: What principles should we live by and where do we derive these principles from? Can the principles of a modern society be derived from Islam? Or is it necessary to refer to the ideas and institutions of Europe? To what extent can we then still define ourselves as Muslims in relation to Europe? In response to these questions, three broad currents of thought can be identified.

2.1 Dialogue of Identities

Echoing the European position, a secularist school of thought believed that Muslims, by virtue of their religion, were intellectually incapable of developing progressive thought in the European sense. According to this view, Islam was fundamentally incompatible with science and modern civilization. Muslims should therefore accept European modernity as the ultimate frame of reference and assimilate to Europe as much as possible. Politically, this assimilationist stance became most prominent in Turkey. In contrast, a second, much broader current of thought, which might be called traditionalist, argued that the plight of Muslims was due to colonization and oppression by the European West. According to this view, the stagnation of Islamic societies was caused by the exercise of European imperial power, to which Muslims had fallen victim, so that adopting European ideas would be tantamount to intellectual capitulation. Rather, Muslims should seek and rediscover their strength in their own past. The only way to express one's true identity, according to this argument, is to return to one's own tradition.

**Routledge Handbook of Freedom of Religion or Belief** Silvio Ferrari, Mark Hill QC, Arif A. Jamal, Rossella

Bottoni, 2020-11-29

Freedom of religion is an issue of universal interest and scope. However, in the last two centuries, at least, the philosophical, religious, and legal terms of the question have been largely defined in the West. In an increasingly global world, widening our knowledge of this right's roots in different cultural and legal systems becomes a priority. This Handbook seeks to attain this goal through a better understanding of the historical roots and expressions of the right to freedom of religion, on the one hand, and on the other, of its theological background in different religious traditions. History and theology provide the setting for the analysis of the politics of freedom of religion, that is, how this right is used in the context of the

dialogue confrontation between countries placed in different cultural regions of the world and of the legal strategies and tools that have been developed and are employed to protect and foster the right to freedom of religion Behind these legal and political strategies there is an ongoing debate about the nature of this right whose main features are explored in the final section Global historical and interdisciplinary in approach this book studies the new relevance of freedom of religion worldwide and develops suitable categories to analyze and understand the role that freedom of religion can play in managing religious and cultural diversity in our societies Authored by experts through the contributions collected in these chapters scholars and students will be able to broaden and deepen their knowledge of the right to freedom of religion and to develop the ability to go beyond the borders of the different cultural environments in which this right took shape and developed
