## **Freedom Programme Manual:**

**The Freedom Programme** Pat Craven, 2013-01 Many women who are subjected to abuse from their partners or children do not understand what is happening to them. They do not need therapy but they do need the information they are given when they attend the Freedom Programme. This is a rolling group work course which informs and empowers women in this situation. It can also help to identify warning signs in a new relationship. It also explains how children are affected by domestic abuse and how their lives can improve after the abuser is removed. Also, it must be used in conjunction with Pat Craven's book *Living with the Dominator*. This manual contains details, instructions on how to facilitate the Freedom Programme which is based upon the author's experience in working with violent offenders when she was a probation officer in the UK. I love life now thanks to the Freedom Programme. Our lives are so much better now. Mummy Life is looking good again thanks to the Freedom Programme. I know I can succeed in my life now. I have found two new social work positions and I love being a working emancipated mother again. Instead of self-medicating, I now live a healthy, contented and happy life. I have a future. The Freedom Programme is now going into schools to give young girls information which could save their lives. Kelly Mattison Guardian 2009

**Station Freedom Program** Bruce L. Bream, 1993 **Freedom Programme for Men** Pat Craven, 2013 I have produced this manual in response to requests from hundreds of practitioners who have asked for a different approach to working with men who use violence against women. I am Pat Craven, a former probation officer who ran perpetrator programmes for Merseyside Probation Service in the UK between 1996 and 1998. I concluded that the programmes could have been much more successful if they were run in a different style and by a different agency which was not subjected to the same constraints as a statutory body. This manual provides detailed instructions which are simple and easy to follow. This programme is aimed at men who have volunteered to attend and many of whom have never come to the attention of authorities.

The Routledge Handbook of Women's Experiences of Criminal Justice Isla Masson, Natalie Booth, 2022-10-25 This Handbook brings together the voices of a range of contributors interested in the many varied experiences of women in criminal justice systems and who are seeking to challenge the status quo. Although there is increasing literature and research on gender and certain aspects of the criminal justice system, often Western focused, there is a significant gap in the form of a Handbook that brings together these important gendered conversations. This essential book explores research and theory on how women are perceived, handled and experience criminal justice within and across different jurisdictions with particular consideration of gendered and disparate treatment of women as law breakers. There is also consideration of women's experiences through an intersectional lens including race and class as well as feminist scholarship and activism. The Handbook contains 47 unique chapters with nine overarching themes: Lessons from history and theory; Routes into the criminal justice system; Intersectionality; Sentencing and the courts and community punishments; Specific offences;

Incarcerated women's experiences Mothers and families Rehabilitation and reintegration Practitioner relationships and each theme includes contributions from different countries as well as the experiences of contributors from different stages in their own journey International and interdisciplinary in scope this Handbook is essential reading for scholars and students of criminology sociology social policy social work and law It will also be of interest to practitioners such as social workers probation officers prison officers and policy makers

Chen, 2009-05-26 Where did affirmative action in employment come from The conventional wisdom is that it was instituted during the Johnson and Nixon years through the backroom machinations of federal bureaucrats and judges The Fifth Freedom presents a new perspective tracing the roots of the policy to partisan conflicts over fair employment practices FEP legislation from the 1940s to the 1970s Drawing on untapped sources Anthony Chen chronicles the ironic forgotten role played by American conservatives in the development of affirmative action Decades before affirmative action began making headlines millions of Americans across the country

debated whether government could and should regulate job discrimination On one side was an interfaith and interracial bloc of liberals who demanded FEP legislation that would establish a centralized system for enforcing equal treatment in the labor market On the other side was a bloc of business friendly small government conservatives who felt that it was unwise to legislate tolerance and who made common cause with the conservative wing of the Republican party Conservatives ultimately prevailed but their obstruction of FEP legislation unintentionally facilitated the rise of affirmative action a policy their ideological heirs would find even more abhorrent Broadly interdisciplinary The Fifth Freedom sheds new light on the role of parties elites and institutions in the policymaking process the impact of racial politics on electoral realignment the history of civil rights the decline of New Deal liberalism and the rise of the New Right Some images inside the book are unavailable due to digital copyright restrictions
