cultures also claim that someday the world will again be destroyed in a similar fashion In the Bible we are told that the disciples once asked Jesus if there would be a warning sign prior to this destructive event He said that there would indeed a sign Jesus said that whatever was happening in the Days of Noah will happen again before the end of this age The Bible has only a few verses about Noah s Flood So we are forced to turn to the ancient flood legends of over 350 other cultures to learn more about this prophecy But Noah s days did not end with the flood he lived for many years afterward He saw the creation of a tower in Babylon This is interesting because the Freemasons claim that their Order originated here Here is the most thorough examination of Freemasonry ever undertaken using their own texts to solve the Days of Noah prophecy *The New York Masonic Outlook* ,1928 A Lexicon of Freemasonry: containing a definition of all its communicable terms, notices of its history, traditions, and antiquities; and an account of all the rites and mysteries of the ancient world Albert Gallatin MACKEY,1845 *Freemasonry: A Very Short Introduction* Andreas Önnarfors,2017-08-17 Freemasonry is one of the oldest and most widespread voluntary organisations in the world Over the course of three centuries men and women have organized themselves socially and voluntarily under its name With a strong sense of liberation moral enlightenment cosmopolitan openness and forward looking philanthropy freemasonry has attracted some of the sharpest minds in history and has created a strong platform for nascent civil societies across the globe With the secrecy of internally communicated knowledge the clandestine character of organization and the enactment of rituals and the elaborate use of symbols freemasonry has also opened up feelings of distrust as well as allegations of secretiveness and conspiracy This Very Short Introduction introduces the inner activities of freemasonry and the rituals symbols and practices Looking at the development of the organizational structure of masonry from the local to the global level Andreas nnerfors considers perceptions of freemasonry from the outside world and navigates through the prevalent fictions and conspiracy theories He also discusses how freemasonry has from its outset struggled with issues of exclusion based upon gender race and religion despite promoting tolerant openness and inclusion Finally nnerfors shines a light on the rarely discussed but highly compelling history of female agency in masonic and para masonic orders ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **The History of Freemasonry in Canada** John Ross Robertson,1900 **The History of Freemasonry** Robert Freke Gould,1884 Title varies slightly v 2 By Robert Freke Gould assisted by W J Hughan and others **Freemasonry, Greek Philosophy, the Prince Hall Fraternity and the Egyptian (African) World Connection** Keith Moore 32°,2008-08-29 Freemasonry is a system of learning that has been recognized as a product of western civilization however what is not told is the influences by people of African descent This book describes the contributions to freemasonry from the ancient African civilizations of Egypt Nubia and pre Islamic Arabia It is designed to

give the reader a deeper understanding of its origins as well as its connection to world civilizations and world religion all of which has an African presence This book will also look at the universe of African American Masonic organizations from the early 18th century to the 20th century America which ranged from the origins of prince hall freemasonry to Black Nationalist and esoteric religious sects like the Moorish Science Temple of America the UNIA and several other offshoots Contrary to prior accounts African American Freemasonry was concerned with far more than simply acknowledgement and respectability The book will demonstrate that Freemasonry played a critical role in history politics and African American social life I discuss such topics as the impact of Greek philosophy on western civilization the rise of Islam and its impact on the African continent and finally the grandeur and accomplishments of the moors of Spain African people have been at the very core of this rich foundation In addition I discuss the comparisons between the ancient Egyptian civilization and modern day freemasonry I explore its symbolism as well as the esoteric foundations that freemasonry relies so heavily upon Once freemasonry reach the western hemisphere it became a tool for influencing Europe s elite Moreover my research covers the history of the knight s of Europe and the origins of european chivalry and how Arabic poetry played an important role in its establishment Additional topics include Napoleon Bonaparte The mystic shrine and the foundations of Orientalism *A Lexicon of Freemasonry. ... Third edition, enlarged and improved by the author. With a portrait* Albert Gallatin MACKEY,1860 The New Larned History for Ready Reference, Reading and Research Josephus Nelson Larned,1923
