Radical Visionaries: Feminist Therapy Pioneers, 1970-1975 Claudia Pitts, Debra M. Kawahara, 2018-10-08 Radical Visionaries documents and honours those feminist therapy pioneers of the 1970s who moved the mental health establishment and possibly the world through radical action to begin to consider women as fully human It is remarkable today even in these difficult times to realize how far we have come and to know it was these women who galvanized this move forward toward self exploration and equality As we move into the current era of feminism and social justice it is imperative to pause to consider how these second wave feminist pioneers gave us feminist therapy and all that followed from it From the earliest stages of the movement feminists used consciousness raising which moved into the notion of the egalitarian therapy and ultimately led toward a cultural shift towards female empowerment and the groundswell of women into clinical psychology programs These founding feminist therapists impacted structures including the criminal justice system divorce proceedings domestic violence services education medicine and banking This book highlight these women s stories told by the pioneers themselves as they forged the trail for those of us who follow them This book was originally published as a special issue of Women Therapy

Making the Right Choice Asha L. Abeyasekera, 2021-03-12 Making the Right Choice unravels the entangled relationship between marriage morality and the desire for modernity as it plays out in the context of middle class status concerns and aspirations for upward social mobility within the Sinhala Buddhist community in urban Sri Lanka By focusing on individual life histories spanning three generations the book illuminates how narratives about a gendered self and narratives about modernity are mutually constituted and intrinsically tied to notions of agency The book uncovers how becoming modern in urban Sri Lanka rather than causing inter generational conflict is a collective aspiration realized through the efforts of bringing up educated and independent women capable of making right choices The consequence of this collective investment is a feminist conundrum agency does not denote the right to choose but the duty to make the right choice hence agency is experienced not as a sense of freedom but rather as a burden of responsibility
