Gender, Fantasy, and Realism in American Literature Alfred Habegger, 1982      The Urban Sublime in American Literary Naturalism Christophe Den Tandt, 1998 In this dynamic reappraisal of American literary naturalism Christophe Den Tandt connects late nineteenth century fiction to its romantic urban gothic roots and to recent discussions of the sublime in postmodern theory Den Tandt focuses on aspects of naturalist novels their use of hyperbole and hysteria of the grotesque and the abject of uncanniness and mesmerism that have often been left in the periphery of naturalist discourse He argues that realistic strategies of literary representation can never succeed in depicting the urban environment since the logic of the city rests on a network of hidden relations Naturalist texts try to resolve this dilemma by opposing sublime components and realistic documentary elements

Cooper, 2021-12-26 Recently the U S has seen a rise in misogynistic and race based violence perpetrated by men expressing a sense of grievance from incels to alt right activists Grounding sociological historical political and economic analyses of masculinity through the lens of cultural narratives in many forms and expressions The Routledge Companion to Masculinity in American Literature and Culture suggests that how we examine the stories that shape us in turn shapes our understanding of our current reality and gives us language for imagining better futures Masculinity is more than a description of traits associated with particular performances of gender It is more than a study of gender and social power It is an examination of the ways in which gender affects our capacity to engage ethically with each other in complex human societies This volume offers essays from a range of established global experts in American masculinity as well as new and upcoming scholars in order to explore not just what masculinity once meant has come to mean and may mean in the future in the U S it also articulates what is at stake with our conceptions of masculinity      *The Social Construction of American Realism* Amy Kaplan, 1992-12-15 Kaplan redefines American realism as a genre more engaged with a society in flux than with one merely reflective of the status quo She reads realistic narrative as a symbolic act of imagining and controlling the social upheavals of early modern capitalism particularly class conflict and the development of mass culture Brilliant analyses of works by Howells Wharton and Dreiser illuminate the narrative process by which realism constructs a social world of conflict and change Kaplan offers some enthralling readings of major novels by Howells Wharton and Dreiser It is a book which should be read by anyone interested in the American novel Tony Tanner Modern Language Review Kaplan has made an

important contribution to our understanding of American realism This is a book that deserves wide attention June Howard  
American Literature      **Hearts of Darkness** Bertram Wyatt-Brown,2002-10-01      **Coloring Locals** Bonnie James  
Shaker,2003 Coloring Locals examines how the late nineteenth century politics of gender class race and ethnicity influenced  
Kate Chopin s writing for the major family periodical of her time Chopin s canonical status as a feminist rebel and reformer  
conflicts with the fact that one of her most supportive publishers throughout her life was the Youth s Companion a juvenile  
periodical whose thoroughly orthodox family values contributed to its success as the longest running and at one time most  
widely circulating periodical in nineteenth century America Not surprisingly Chopin s Youth s Companion stories differ from  
her canonical texts in that they embrace and advance ideals of orthodox white femininity and masculinity Rather than  
viewing these two representations as being at odds with each other Bonnie Shaker asserts that Chopin s endorsement of  
conventional gender norms is done in the service of a second political agenda beyond her feminism one that can help the  
reader appreciate nuances of identity construction previously misunderstood or overlooked in the body of her work Shaker  
articulates this second agenda as the discursive act of coloring locals the narrative construction of racial difference for  
Louisiana peoples of African American Native American and French American ancestry For Chopin coloring locals meant  
transforming non Louisianans general understanding of the Creole and Cajun as mixed race people into purely white folks  
this designation of whiteness being one that conferred not only social preferment but also political protections and  
enfranchisement in one of the most racially violent decades of U S history Thus when Chopin is concerned with coloring her  
beloved Louisiana Creoles and Cajuns white she strategically deploys conventional femininity for the benefits it affords as a  
sign of middle class respectability and belonging Making significant contributions both to the scholarship on Kate Chopin and  
on race and gender construction this sophisticated study will be of great interest to scholars and students of nineteenth  
century ethnic and cultural studies as well as Chopin scholars      **Reclaiming Authorship** Susan S. Williams,2013-06-15  
There was in the nineteenth century a distinction made between writers and authors Susan S Williams notes the former  
defined as those who composed primarily from mere experience or observation rather than from the unique genius or  
imagination of the latter If women were more often cast as writers than authors by the literary establishment there also  
emerged in magazines advice books fictional accounts and letters a specific model of female authorship one that valorized  
natural feminine traits such as observation and emphasis on detail while also representing the distance between amateur  
writing and professional authorship Attending to biographical and cultural contexts and offering fresh readings of literary  
works Reclaiming Authorship focuses on the complex ways writers such as Maria S Cummins Louisa May Alcott Elizabeth  
Keckley Mary Abigail Dodge Elizabeth Stuart Phelps and Constance Fenimore Woolson put this model of female authorship  
into practice Williams shows how it sometimes intersected with prevailing notions of male authorship and sometimes  
diverged from them and how it is often precisely those moments of divergence when authorship was reclaimed by women

The current trend to examine women writers rather than authors marks a full rotation of the circle and writers can indeed be the more capacious term embracing producers of everything from letters and diaries to published books Yet certain nineteenth century women made particular efforts to claim the title author Williams demonstrates and we miss something of significance by ignoring their efforts

**Performing the Everyday in Henry James's Late Novels** Professor Maya Higashi Wakana, 2013-04-28 Focusing on James's last three completed novels *The Ambassadors* *The Wings of the Dove* and *The Golden Bowl* Maya Higashi Wakana shows how a microsociological approach to James's novels radically revises the widespread tradition of putting James's characters into historical and cultural contexts Wakana begins with the premise that day to day living is inherently theatrical and thus duplicitous and goes on to show that James's art relies significantly on his powerful sense of the agonizing and even dangerous complications of mundane face to face rituals that pervade his work Centrally informed by social thinkers such as G H Mead and Erving Goffman Wakana's study discloses the richness complexity and singularity of the interpersonal connections depicted in James's late novels Persuasively argued and rich in original close readings her book makes an important contribution to James's studies and to theories of social interaction

Murphy, 1994-07 We are just beginning to understand masculinity as a fiction or a localizable historical and therefore unstable construct This book points the way to a much needed interrogation of the many modes of masculinity as represented in literature Both women and men who are engaged in critical thinking about genders and sexualities will find these essays always thoughtful and often provocative Thas E Morgan Associate Professor of English Arizona State University Peter Murphy has assembled an innovative challenging and important set of contributions to a growing field of inquiry into constructions of masculinities in literature inspired principally by feminist and gay studies Illuminatingly crossing lines of genders sexualities cultures and methodologies *Fictions of Masculinity* greatly advances our understanding of representations of men masculinities misandry and misogyny in a wide range of literary works and genres and helps us to imagine and thereby ultimately bring about alternative constructions Harry Brod Editor *The Making of Masculinities The New Men's Studies A Mensch Among Men Explorations in Jewish Masculinity and Theorizing Masculinities* Women writing about women dominates contemporary work on sexuality Men have been far more willing to discuss female sexuality than male sexuality while the most radical and insightful analyses of male sexuality have come from women When men consider the issue of female sexuality they often speak from assumptions of security about their own unexamined sexuality This book maintains that men have to interrogate their own sexuality if there is to be a revision of phallogocentric discourse and that this revision of masculinity must be done in dialogue with women The essays included in this collection examine the deep structure of masculine codes They ask the question Who are the men in modern literature Examining the force of the dominant values of Western masculinity they synthesize insights from feminism psychoanalysis post structuralism and new historicism These perspectives help explain how male sexuality has been structured by fictional

representations By examining the images of masculinity in modern literature the essays explore traditional and non traditional roles of men in society and in personal relationships They look at how men are represented in literature the fiction of manhood They attempt to unravel the assumptions behind these representations by looking at the implications of this imagination And they speculate on possibilities for creating a new imaginary of masculinity by identifying what literature has to say about that change With analyses of a range of genres novels poetry plays and autobiography Western and Third World literatures and theoretical perspectives *Fictions of Masculinity* provides a significant contribution to this rapidly growing field of study Contributors are David Bergman Towson State University Miriam Cooke Duke University Martin Danahy Emory University Richard Dellamora Trent University Ontario Leonard Duroche University of Minnesota Jim Elledge Illinois State University Alfred Habegger University of Kansas Suzanne Kehde California Polytechnic University San Luis Obispo David Leverenz University of Florida Christopher Metress Wake Forest University Peter F Murphy SUNY Empire State College Rafael Prez Torres University of Pennsylvania David Radavich Eastern Illinois University and Peter Schwenger St Vincent University Nova Scotia

**F.O. Matthiessen and the Politics of Criticism** William E. Cain, 1988 F O Matthiessen remains one of America's leading twentieth century critics in part because the problems he and his contemporaries struggled with remain ours today William E Cain studies Matthiessen's career with careful attention to biographical institutional literary and political contexts He considers Matthiessen's many reviews and essays on literature and deals sympathetically but critically with Matthiessen's attitudes toward the Cold War as revealed in his memoir *From the Heart of Europe* Cain draws connections between Matthiessen's criticism and the influence of significant political movements like the Popular Front of the 1930s the Progressive Party and Henry Wallace's campaign for the presidency in 1948 Analyzing specific texts by Thoreau James Dreiser and Melville he confronts the difficult and highly contested relationships between literary criticism and politics scholarship and the public sphere pedagogy and social activism He suggests that critics need to acknowledge the primacy of their political commitments and should proceed to teach and write accordingly This argument certain to prove a controversial one will spark extensive debate and discussion about the theory and practice of intellectual work All students and scholars of English and American literature American studies black studies and American history will welcome this original and stimulating study the first to treat Matthiessen in fully detailed social historical and political contexts
