*Gender and Private Security in Global Politics* Maya Eichler, 2015 For two hundred years the provision of military security has been a central and defining function of the modern nation state The increasing reliance on private military and security companies in contemporary conflict marks a fundamental transformation in the organization of military violence and it raises issues of accountability and ethics that are of particular concern to feminists This privatization of force not only enables states to circumvent citizens democratic control over questions of war and peace but also undermines women s and minority groups claims for greater inclusion in the

military sphere Gender and Private Security in Global Politics brings together key scholars from the fields of international relations security studies and gender studies to argue that privatization of military security is a deeply gendered process The chapters employ a variety of feminist perspectives including critical postcolonial poststructuralist and queer feminist perspectives as well as a wide range of methodological approaches including ethnography participant observation genealogy and discourse analysis This is the first book to develop an extended feminist analysis of private militaries and to draw on feminist concerns regarding power justice and equality to consider how to reform and regulate private forces The International Relations of Middle-earth Patrick James, Abigail E. Ruane, 2012-04-26 Based on their successful undergraduate course at the University of Southern California Abigail E Ruane and Patrick James provide an introduction to International Relations using J R R Tolkien's fantastically popular trilogy The Lord of the Rings Because Tolkien's major themes such as good versus evil and human agency versus determinism are perennially relevant to International Relations The Lord of the Rings is well suited for application to the study of politics in our own world This innovative combination of social science and humanities approaches to illustrate key concepts engages students and stimulates critical thinking in new and exciting ways

**Sexual Violence Against Men in Global Politics** Marysia Zalewski, Paula Drumond, Elisabeth Prugl, Maria Stern, 2018-05-11 Sexual violence against men is an under theorised and under noticed topic though it is becoming increasingly apparent that this form of violence is widespread Yet despite emerging evidence documenting its incidence especially in conflict and post conflict zones efforts to understand its causes and develop strategies to reduce it are hampered by a dearth of theoretical engagement One of the reasons that might explain its empirical invisibility and theoretical vacuity is its complicated relationship with sexual violence against women The latter is evident empirically theoretically and politically but the relationship between these violences conjures a range of complex and controversial questions about the ways they might be different and why and how these differences matter It is the case that sexual violence when noticed at all has historically been understood to happen largely if not only to women allegedly because of their gender and their ensuing place in gender orders This begs important questions regarding the impact of increasing knowledge about sexual violence against men including the impact on resources on understandings about and experiences of masculinity and whether the idea and practice of gender hierarchy is outdated This book engages this diverse set of questions and offers fresh analysis on the incidences of sexual violence against men using both new and existing data Additionally the authors pay close attention to some of the controversial debates in the context of sexual violence against men revisiting and asking new questions about the vexed issue of masculinities and related theories of gender hierarchy The book will be of great interest to students and scholars of sex gender masculinities corporeality violence and global politics as well as to practitioners and activists

Methodologies in Critical Terrorism Studies Alice E. Finden, Carlos Yebra López, Tarela Ike, Ugo Gaudino, Samwel Oando, 2024-01-04 This interdisciplinary book presents an intervention into methodological practices in the subfield of Critical Terrorism Studies and features established and early career scholars The volume interrogates the role that research

methods play in shaping the sub discipline of Critical Terrorism Studies CTS It responds to two major methodological gaps within CTS 1 the dearth of Global South cases and voices and decolonial and feminist approaches and 2 the lack of engagement with traditional disciplines and quantitative methods Together authors demonstrate that interdisciplinary methodological dialogues can open up new possibilities for researchers seeking pathways towards and definitions of emancipation social justice and freedom from violence Simultaneously the book shows that by focusing on the possibilities that methodologies open up to us and by maintaining a commitment to reflexive practice we expand our understandings of what are legitimate and acceptable forms of research thus challenging the Critical Terrorism Studies divide The chapters draw upon a wide range of empirical cases including Nigeria Kenya France Brazil and the UK focusing on three key issues within Critical Terrorism Studies its own relationship with and perpetuation of epistemic violence decolonial postcolonial Global South feminist and queer approaches and more traditional approaches and methods as a means to interrogate the methodological binary between Critical Terrorism Studies and Terrorism Studies This book will be of much interest to students of critical terrorism studies counter terrorism security studies and International Relations in general Handbook on Gender and Violence Laura J. Shepherd, Containing contributions from leading experts in the field this Handbook explores the many ways gender and violence interact across different contexts and offers a range of disciplinary perspectives This comprehensive volume connects micro level interpersonal violence to macro level structural forms of violence across three discrete but interrelated sections concepts representations and contexts **Constructing Motherhood Identity Against Political Violence** Deniz Ülke Arıboğan, Hamoon Khelghat-Doost, 2023-08-22 This volume offers a nuanced understanding of female agency in political violence by reviewing and analyzing the political construction of motherhood as a form of social agency against political violence committed by both state and non state actors in different parts of the world While the international relations discipline has traditionally viewed the relationship between women and violent actors as an exploitative one this book demonstrates that taking maternal bodies seriously creates important intellectual space to examine the types and kinds of violence the discipline of IR takes seriously and the types and kinds of resistance practiced by mothers but often overlooked at least by male mainstream IR Focusing on motherhood as an agency of change this volume will appeal to scholars in the field of gender and international security think tanks working on political and security affairs social activists policymakers an interested public audience as well as undergraduate and postgraduate students undertaking study or research associated with gender and political violence The Palgrave International Handbook of Gender and the Military Rachel Woodward, Claire Duncanson, 2017-06-27 The Palgrave International Handbook of Gender and the Military provides a comprehensive overview of the multiple ways in which gender and militaries connect International and multi disciplinary in scope this edited volume provides authoritative accounts of the many intersections through which militaries issues and military forces are shaped by gender The chapters provide detailed accounts of key issues informed by examples

from original research in a wealth of different national contexts This Handbook includes coverage of conceptual approaches to the study of gender and militaries gender and the organisation of state military forces gender as it pertains to military forces in action transitions and transgressions within militaries gender and non state military forces and gender in representations of military personnel and practices With contributions from a range of both established and early career scholars The Palgrave International Handbook of Gender and the Military is an essential guide to current debates on gender and contemporary military issues

Women and Gender in International History Karen Garner, 2018-06-28 Most governments and global political organizations have been dominated by male leaders and structures that institutionalize male privilege As Women and Gender in International History reveals however women have participated in and influenced the traditional concerns of international history even as they have expanded those concerns in new directions Karen Garner provides a timely synthesis of key scholarship and establishes the influential roles that women and gender power relations have wielded in determining the course of international history From the early 20th century onward women have participated in state to state relations and decisions about when to pursue diplomacy or when to go to war to settle international conflicts Particular women as well as masculine and feminine gender role constructs have also influenced the establishment and evolution of intergovernmental organizations and their political social and economic policy making regimes and agencies Additionally feminists have critiqued male dominated diplomatic establishment and intergovernmental organizations and have proposed alternative theories and practices This text integrates women and gender and feminist analyses into the study of international history in order to produce a broader understanding of processes of international change during the 20th and 21st centuries

**The International Politics of Fashion** Andreas Behnke, 2016-07-07 This book seeks to address and fill a puzzling omission in contemporary critical IR scholarship Following on from the aesthetic turn in IR critical and postmodern IR has produced an impressive array of studies into movies literature music and art and the way these media produce mediate and represent international politics By contrast the proponents of the aesthetic turn have overlooked fashion as a source of knowledge about global politics Yet stories about the political role of fashion abound in the news media Margaret Thatcher used dress to define her political image and more recently the fascination with Michelle Obama Carla Bruni and other women in similar positions and the discussions about the appropriateness of their wardrobes regularly makes the news In Sudan a female writer and activist successfully challenged the government over her right to wear trousers in public and in Europe the debate on women's headscarves has politicised a garment item and turned it into a symbol of fundamentalism and oppression In response the contributors to this book investigate the politics of fashion from a variety of perspectives addressing theoretical as well as empirical issues establishing the critical study of fashion and its protagonists as a central contribution to the aesthetic turn in international politics The politics of fashion go beyond these examples of the uses and abuses of textiles and fabrics for political purposes extending into its very grammar and vocabulary
