Gendering Global Conflict Toward A Feminist Theory Of War:

Gendering Global Conflict Laura Sjoberg, 2013-08-13 Laura Sjoberg positions gender and gender subordination as key factors in the making and fighting of global conflict Through the lens of gender she examines the meaning causes practices and experiences of war building a more inclusive approach to the analysis of violent conflict between states Considering war at the international state substate and individual levels Sjoberg's feminist perspective elevates a number of causal variables in war decision making These include structural gender inequality cycles of gendered violence state masculine posturing the often overlooked role of emotion in political interactions gendered understandings of power and states mistaken perception of their own autonomy and unitary nature Gendering Global Conflict also calls attention to understudied spaces that can be sites of war such as the workplace the household and even the bedroom Her findings show gender to be a linchpin of even the most tedious and seemingly bland tactical and logistical decisions in violent conflict Armed with that information Sjoberg undertakes the task of redefining and reintroducing critical readings of war's political economic and humanitarian dimensions developing the beginnings of a feminist theory of war

The Oxford Handbook of Gender and Conflict Fionnuala Ní Aoláin, Naomi Cahn, Dina Francesca Haynes, Nahla Valji, 2017-12-15 Traditionally much of the work studying war and conflict has focused on men Men commonly appear as soldiers commanders casualties and civilians Women by contrast are invisible as combatants and when seen are typically pictured as victims The field of war and conflict studies is changing more recently scholars of war and conflict have paid increasing notice to men as a gendered category and given sizeable attention to women s multiple roles in conflict and post conflict settings The Oxford Handbook of Gender and Conflict focuses on the multidimensionality of gender in conflict yet it also prioritizes the experience of women given both the changing nature of war and the historical de emphasis on women s experiences Today s wars are not staged encounters involving formal armies but societal wars that operate at all levels from house to village to city Women are necessarily involved at each level Operating from this basic intellectual foundation the editors have arranged the volume into seven core sections the theoretical foundations of the role of gender in violent conflicts the sources for studying contemporary conflict the conflicts themselves the post conflict process institutions and actors the challenges presented by the evolving nature of war and finally a substantial set of case studies from across the globe Genuinely comprehensive this Handbook will not only serve as an authoritative overview of this massive topic it will set the research agenda for years to come

Gender, Violence and Politics in the Democratic Republic of Congo Jane Freedman, 2016-03-09 The Democratic Republic of Congo DRC has been called the worst place in the world for women with reports of widespread and horrific incidents of rape and sexual violence and almost complete impunity for the perpetrators of such violence However despite the high profile media reporting on sexual violence in the DRC and the widely publicized

responses of the international community there is still very little real analysis of the real situation of women in the country. This book provides such detailed analysis of gender relations in the DRC and goes beyond the usual explanations of sexual violence as a product of conflict to examine the complex and socially constructed gender norms and roles which underlie incidences of violence. The book benefits from a comprehensive account of men's and women's roles in conflict, violence, peace building and reconstruction and evaluates the impacts of national and international political responses. In doing so, this book provides valuable new evidence and analysis of the complex and multilayered conflicts in the DRC. *Routledge Handbook of Gender and Security* Caron E. Gentry, Laura J. Shepherd, Laura Sjoberg, 2018-09-03. This handbook provides a comprehensive look at the study of gender and security in global politics. The volume is based on the core argument that gender is conceptually necessary to thinking about central questions of security analytically important for thinking about cause and effect in security and politically important for considering possibilities of making the world better in the future. Contributions to the volume look at various aspects of studying gender and security through diverse lenses that engage diverse feminisms with diverse policy concerns and working with diverse theoretical contributions from scholars of security more broadly. It is grouped into four thematic sections: Gendered approaches to security including theoretical, conceptual and methodological approaches; Gendered insecurities in global politics including the ways insecurity in global politics is distributed and read on the basis of gender; Gendered practices of security including how policy practice and theory work together or do not; Gendered security institutions across a wide variety of spaces and places in global politics. This handbook will be of great interest to students of gender studies, security studies and IR in general. *Political Science Today* Wendy N. Whitman Cobb, 2019-07-09. Political science has changed the way students learn, has changed so too should the way it is taught. This is *Political Science Today*. *Political Science Today* by Wendy Whitman Cobb gives you a holistic view of the subfields that make up political science by dedicating one chapter to each of the topics at the core of the discipline. Unlike denser texts on the market, *Political Science Today* uses a field-based approach that allows you to engage with the material directly and dig into each of the discipline's diverse subfields while also developing critical thinking skills, discerning the differences between politics and political science, conducting and consuming research and broadening your future career aspirations. The book's innovative table of contents begins with foundational tools like theories and research methods, then builds up to subfield chapters on Comparative Politics, International Relations, American Government, Political Economy and Public Policy and Administration. Current case studies throughout the text provide a backdrop for engaging classroom discussions on topics such as President Trump's travel ban, ISIS as a state, and strengths and weaknesses of the United Nations. This unique approach provides short segments of topic coverage, plenty of summarizing content and review questions as well as comprehensive learning objectives which will help you understand the realities of political science today.

Why Women Rebel Alexis Henshaw, 2016-12-08 Why Women Rebel presents a global analysis of the extent to which women are engaged in armed organized rebellions and why they choose to join such rebellions Henshaw has collected and analyzed data on women s participation in over 70 post Cold War rebel groups The book provides a theoretical analysis drawing upon both mainstream literature in the social sciences and critical feminist inquiry on women and political violence to offer a new gendered theory on why women rebel The book reveals that women are active in over half of all rebel groups sampled and that while the majority of rebel groups have women serving in support roles away from direct combat approximately a third of these groups employ women in the conduct of armed attacks and just over a quarter have women in a leadership capacity Henshaw reaffirms the idea that women are more likely to be engaged in left wing political organizations but does suggest that more conservative or traditional movements may also successfully incorporate women by appealing to concerns about community rights Addressing several gaps in the current literature on this topic this book will be of interest to academics in the fields of political science international relations security studies and gender and women s studies

International Relations' Last Synthesis? J. Samuel Barkin, Laura Sjoberg, 2019-02-12 Many scholars intentionally or unintentionally have entangled constructivisms and critical theories in problematic ways either by assigning a critical theoretical politics to constructivisms or by assuming the appropriateness of constructivist epistemology and methods for critical theorizing IR s Last Synthesis makes the argument that these connections mirror IR s grand theoretical syntheses of the 1980s and 1990s and have similar constraining effects on the possibilities of IR theory They have been made without adequate reflection in contradiction to the base assumptions of each theoretical perspective and to the detriment of both knowledge accumulation about global politics and theoretical rigor in disciplinary IR It is not that constructivisms and critical theories have no common ground rather the fact that it has become routine for IR scholars to overstate their common ground is counterproductive to the discovery and utilization of their

potential dialogues To that end IR's Last Synthesis argues that scholars using the two in conjunction should be cognizant of rather than gloss over the tensions between the approaches and the tools they have to offer Along these lines the book uses the concept of affordances to look at what each has to offer the other and to argue for a modest reflective specified return to constructivist and critical IR theorizing By rejecting its over simple syntheses this book hews a road toward reviving IR theorizing

Childhood, Youth Identity, and Violence in Formerly Displaced Communities in Uganda Victoria Flavia Namuggala, 2018-08-09 This volume provides a critical assessment of the mainstream western childhood constructions and their impact to the developing world Using African feminist and indigenous epistemological frameworks the volume decolonizes the understanding of childhood children and youth Specifically the volume presents Global South contestations to mainstream western constructions by exploring alternative notions to standardized universal understanding of childhood The author further deliberates childhood as a human right exploring how armed violence hinders realization of such rights assessing humanitarian assistance during armed violence Besides childhood the volume explores the complex intersectional nature of youthhood and its cultural relevance to formerly displaced communities and how this manifests in access to and use

of humanitarian assistance **Breaking the Binaries in Security Studies** Ayelet Harel-Shalev, Shir Daphna-Tekoah, 2020 Drawing on interviews with 100 women soldiers about their experiences in combat this book asks what insights are gained when we take women's experiences in war as our starting point instead of treating them as add-ons to more fundamental or mainstream levels of analysis and what importance these experiences hold for an analysis of violence and for security studies The book provides different perspectives about why it is important to explore women in combat what their experiences teach us and how to consider soldiers and veterans both as citizens and as violent state actors an issue with which scholars are often reluctant to engage Breaking the Binaries in Security Studies raises methodological and theoretical considerations about ways of evaluating power relations in conflict situations and patriarchal structures **Elgar Encyclopedia of International Relations** Beate Jahn, Sebastian Schindler, 2025-03-12 This Encyclopedia provides a comprehensive account of the theoretical and practical development of international relations Experts in the field examine the intellectual and political relevance of core concepts from liberalism and constructivism to war and conspiracy This title contains one or more Open Access chapters *Research and Writing in International Relations* Laura Roselle, Joel T. grounded aspirations for the future Colombia's protracted conflict and its effects on the population raise many questions about how we think about peacebuilding in and with communities of conflict affected people Building on contemporary debates in International Relations about post liberal everyday peace Helen Berents draws on feminist International Relations and embodiment theory to pay meaningful attention to those on the margins She conceptualises a notion of embodied everyday peace amidst violence to recognise the presence and voice of young people as stakeholders in everyday efforts to respond to violence and insecurity In doing so Berents argues for and engages a more complex understanding of the everyday stemming from the embodied experiences of those centrally present in conflicts Taking young people's lives and narratives seriously recognises the difficulties of protracted conflict but finds potential to build a notion of an embodied everyday amidst violence where a complex and fraught peace can be found Young People and Everyday Peace will be of interest to scholars of Latin American Studies International Relations and Peace and Conflict Studies
