Genders In Production Making Workers In Mexicos Global Factories:

Genders in Production Leslie Salzinger, 2003-04-03 In this engrossing and original book Leslie Salzinger takes us with her into the gendered world of Mexico's global factories. Her careful ethnographic work, personal voice, and sophisticated analysis capture the feel of life inside the maquiladoras and make a compelling case that transnational production is a gendered process. The research grounds contemporary feminist theory in an examination of daily practices and provides an important new perspective on globalization.

Genders in Production Leslie Salzinger, 2003 Leslie Salzinger worked in four maquiladoras in northern Mexico and in this book she takes us inside the gendered world of these global factories. Her ethnographic work grounds contemporary feminist theory in an examination of daily practices and provides a fresh perspective on globalization.

The Oxford Handbook of Gender and Politics Georgina Waylen, Karen Celis, Johanna Kantola, S. Laurel Weldon, 2013-02-12 As a field of scholarship, gender and politics has exploded over the last fifty years and is now global, institutionalized, and ever expanding. The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and shows how these contributions produce a richer understanding of politics and societies. Like the field it represents, the handbook has a broad understanding of what counts as political and is based on a notion of gender that highlights masculinities as well as femininities, thereby moving feminist debates in politics beyond the focus on women. It engages with some of the key aspects of political science as well as important themes in gender and feminist research, such as sexuality and body politics, thereby forging a dialogue between gender studies in politics and mainstream political science. The handbook is organized in sections that look at sexuality and body politics, political economy, civil society, participation, representation, and policymaking, institutions, states, and governance, as well as nation, citizenship, and identity. The Oxford Handbook of Gender and Politics contains and reflects the best scholarship in its field.

Cultural Representations of Feminicidio at the US-Mexico Border Nuala Finnegan, 2018-07-18 Since the early 1990s, the repeated murders of women from Ciudad Juárez, Mexico, have become something of a global cause célèbre. *Cultural Representations of Feminicidio at the US-Mexico Border* examines creative responses to these acts of violence. It reveals how theatre, art, film, fiction, and other popular cultural forms seek to remember and mourn the female victims of violent death in the city at the same time as they interrogate the political, legal, and societal structures that produce the crimes. Different chapters examine the varying art forms to engage with Ciudad Juárez's feminicidal wave. Finnegan discusses lex Rigola's theatrical adaptation of Roberto Bolaño's novel 2666 by Teatre Lliure in Barcelona, as well as painting about the victims of feminicidio by Irish painter Brian Maguire. There is analysis of documentary film about Ciudad Juárez, including Lourdes Portillo's acclaimed *Se orita Extraviada* (2001). The final chapter turns its attention to writing about feminicide and examines testimonial and crime fiction narratives like the mystery novel *Desert Blood: The Juárez Murders* by Alicia Gaspar de Alba.

among other examples By drawing on a range of artistic responses to the murders in Ciudad Ju rez Cultural Representations of Feminicidio at the US Mexico Border shows how art film theatre and fiction can unsettle official narratives about the crimes and undo the static paradigms that are frequently used to interpret them **Special Economic Zones** Thomas Farole,Gokhan Akinci,2011-08-01 For countries as diverse as China and Mauritius Special Economic Zones SEZs have been a powerful tool to attract foreign investment promote export oriented growth and generate employment for many others the results have been less than encouraging While the benefits and limitations of zones will no doubt continue to be debated what is clear is that policymakers are increasingly attracted to them as an instrument of trade investment industrial and spatial policy Since the mid 1980s the number of newly established zones has grown rapidly in almost all regions with dramatic growth in developing countries In parallel with this growth and in the evolving context of global trade and investment zones are also undergoing significant change in both their form and function with traditional export processing zones EPZs increasingly giving way to larger and more flexible SEZ models This new context will bring significant opportunities for developing countries to take advantage of SEZs but will also raise new challenges to their successful design and implementation This volume aims to contribute to a better understanding of the role and practice of SEZs in developing countries in order to better equip policymakers in making effective decisions in planning and implementing SEZ programs It covers some of the emerging issues and challenges in SEZs including upgrading regional integration WTO compliance innovation the environment and gender issues with practical case examples from SEZ programs in developing countries

Dust and Dignity Erynn Masi de Casanova,2019-09-15 What makes domestic work a bad job even after efforts to formalize and improve working conditions Erynn Masi de Casanova s case study based partly on collaborative research conducted with Ecuador s pioneer domestic workers organization examines three reasons for persistent exploitation First the tasks of social reproduction are devalued Second informal work arrangements escape regulation And third unequal class relations are built into this type of employment Accessible to advocates and policymakers as well as academics this book provides both theoretical discussions about domestic work and concrete ideas for improving women s lives Drawing on workers stories of lucha trabajo and sacrificio struggle work and sacrifice Dust and Dignity offers a new take on an old occupation From the intimate experience of being a body out of place in an employer s home to the common work histories of Ecuadorian women in different cities to the possibilities for radical collective action at the national level Casanova shows how and why women do this stigmatized and precarious work and how they resist exploitation in the search for dignified employment From these searing stories of workers lives Dust and Dignity identifies patterns in domestic workers experiences that will be helpful in understanding the situation of workers elsewhere and offers possible solutions for promoting and ensuring workers rights that have relevance far beyond Ecuador *Making Women Pay* Smitha Radhakrishnan,2021-10-25 In Making Women Pay Smitha Radhakrishnan explores India s microfinance industry which in the past two decades has come

to saturate the everyday lives of women in the name of state led efforts to promote financial inclusion and women s empowerment Despite this favorable language Radhakrishnan argues microfinance in India does not provide a market oriented development intervention even though it may appear to help women borrowers Rather this commercial industry seeks to extract the maximum value from its customers through exploitative relationships that benefit especially class privileged men Through ethnography interviews and historical analysis Radhakrishnan demonstrates how the unpaid and underpaid labor of marginalized women borrowers ensures both profitability and symbolic legitimacy for microfinance institutions their employees and their leaders In doing so she centralizes gender in the study of microfinance reveals why most microfinance programs target women and explores the exploitative implications of this targeting *Wages of Empire* Amalia L. Cabezas, Ellen Reese, Marguerite Waller, 2015-12-03 Corporate globalization has intensified in recent years taking a terrible toll on the lives of ordinary women in the global North and South This book investigates the related processes of neoliberal economic restructuring and increased militarization tracking policy and its enforcement to its impact on low income women This interdisciplinary volume provides rich analyses of the oppressive working and living conditions of urban and rural women rightward shifts in public policies and women s resistance to these developments *Handbook on the International Political Economy of Gender* Juanita Elias, Adrienne Roberts, 2018-02-23 This Handbook brings together leading interdisciplinary scholarship on the gendered nature of the international political economy Spanning a wide range of theoretical traditions and empirical foci it explores the multifaceted ways in which gender relations constitute and are shaped by global politico economic processes It further interrogates the gendered ideologies and discourses that underpin everyday practices from the local to the global The chapters in this collection identify analyse critique and challenge gender based inequalities whilst also highlighting the intersectional nature of gendered oppressions in the contemporary world order

Gendering Globalization on the Ground Gay Young, 2014-11-13 How has globalization worked for women working on the frontlines of neoliberalism on the Mexico US border This border divides US from Others and produces social inequalities that form a site where marginalized border women encounter the othering power of neoliberalism and confront inequalities of gender and class Within this context a critical comparison of socially similar women working either in export production industries or in small scale commerce and low level services in Ciudad Ju rez reveals how export factory work constrains women s empowerment at home as well as the wages they earn and the well being of their households This volume challenges the neoliberal rationale of empowering women to support market growth and argues instead for understanding women s empowerment as a process of transformation from disempowerment by gender power relations to challenging masculinist domination in households and ultimately the economy and society Because structures of gender and globalization are mutually constituted women s empowerment as gender democracy is integral to producing alternative democratic globalization Using a feminist methodology that gives attention to the standpoint of women located on the downside of social

hierarchies and takes into account strategically diverse points of view this study develops analysis to counter neoliberal globalization as it touches down in the lives of ordinary women and men on the border and beyond
