The Cooking Class Cookbook Linda Marcinko, 2011-02-09 This wonderful cookbook is the result of the 10 years of cooking classes that I taught plus my vast knowledge of the culinary arts that I acquired through working as an Executive Chef All of the recipes are easy to use and result in great food I tell you a little history of each recipe and what type of class it was created for I taught a variety of classes including baking and pastry classes and many of those recipes are in this book At the end of many of the recipes I've included notes that may give the reader information on certain ingredients or tell them how to prepare part or all of the recipe in advance This book also has a Tip and Advice section that touches on some important aspects of cooking I tested all of the recipes in this book before conducting the classes that they were featured in In addition many class participants went

home and made the recipes and reported how the food turned out so I know that these recipes are great and really work This is so important as it seems that there are a lot of cookbooks out there where the recipes are not tested before hand To this day I use these recipes at home because the resulting dishes are so tasty This is a book that can be used for everyday food and also for special occasion dishes It has quite a few healthy recipes too As I am a chef and a registered dietitian I was called on to teach a lot of classes featuring healthy foods so I have included those recipes as well I have made the recipes simple and have not used any hard to find ingredients I really want people to enjoy reading this book and using it a lot

The desire to see the world is common. Travel is one way, but people are finding it hard to take vacations these days. What if you could combine seeing the world and working? It is not easy to find jobs overseas unless you have very specialized skills and advanced foreign language fluency. For native speakers of English, TEFL/TESOL seems like a great solution. There are as many ways to teach English overseas as there are people willing to teach overseas. Indeed, your motivation for doing so should be your main influence when selecting where and how to teach. Here are just a few of the ways to teach English overseas. Here are many chains, such as English First and Wall Street, that operate language centers in countries around the world. On several continents and in Asia, especially, there are also small individual language centers, such as the hagwons in South Korea. You can teach in public schools at pre-primary, middle, and high school levels. You can also teach at private schools. Many countries have an American school or a Canadian school or an International School offering an IB program. You can teach at public universities. Teaching hours are very few, but class size is very high, so if you're teaching composition, for example, you'll have a lot of correcting to do. You can teach at one of the many private colleges popping up all over, some with associations with US or Australian universities. You can teach as a volunteer at a village school or in an orphanage. You can teach as a missionary or with one of the many religious service organizations that are non-proselytizing. You can teach executives as a consultant with one firm in-house or with a service that has many corporate clients. You can teach with a government program, such as EPIC in Korea or JET in Japan. This means you will have many peers teaching in-country with you, though perhaps not in your town. You can teach with one of your own government's programs as a Peace Corps volunteer. You can teach with a multinational organization as a United Nations volunteer or with an NGO teaching refugees, for example. You can teach as a private tutor or join the growing ranks of people teaching English online. There is bound to be a TESOL/TEFL job that's the right fit for you. How to find that right fit is what this book is all about. HowExpert publishes quick how-to guides on all topics from A to Z by everyday experts The Wizard King George
