LAB MANUAL FOR CHEMISTRY: ATOMS FIRST Gregg Dieckmann,John W. Sibert,2017-10-31 This laboratory manual
presents a curriculum that is organized around an atoms first approach to general chemistry Our motivation for writing this
manual is to 1 tap into the natural curiosity present in all of us and provide engaging experiments that students will find
interesting 2 emphasize topics that students find particularly challenging in the general chemistry lecture course and 3
create a laboratory environment that encourages students on occasion to solve puzzles and not just follow recipes All too
often students view general chemistry lab as a boring exercise in which an exact set of instructions is followed leading to an
answer that in many cases results in a good grade regardless of how much learning has taken place To these students the
successful lab is the one that takes the least amount of time Unfortunately a huge opportunity to get students truly turned on
to science is missed To us the laboratory represents high stakes ground for engagement and relatively low stakes for grading
as the laboratory is typically a single credit course or minor component to the lecture grade Thus while the rigor of the
experiments in this manual can be tuned to meet the needs of the instructor our hope is that students will be encouraged to
play safely with chemical concepts and laboratory techniques with grades simply being a natural consequence of their
laboratory actions To facilitate such a mindset this manual has been written to provide instructors with a weekly tool that can
attract and keep student interest while providing important connections to the material covered in an atoms first lecture
course Our philosophy student curiosity leads to engagement which leads to discovery which leads to learning The manual is
for a freshman level general chemistry laboratory course and serves as an ideal supplement for any atoms first general
chemistry textbook such as Chemistry Atoms First by Julia Burdge and Jason Overby It is designed for students at all levels
from those seeing chemistry for the first time to chemistry majors *Joy for STEM General Chemistry Part 1 Lab Manual* C.
