The second edition Thomas Thomson, 1810 Organic Chemistry: Chemistry of the aliphatic series; newly tr. and rev. from the German ed. (after E. F. Smith's 3d American ed.) by P. E. Spielmann, 1916 Victor von Richter, 1916 A Text-book of Physiological Chemistry Olof Hammarsten, 1900 **The Serpent's Shadow** Mercedes Lackey, 2002-03-01 The first in a series of adult fairy tale retellings full of magic romance humor and suspense from a Grand Master of science fiction and fantasy A richly reimagined Snow White uncovers the secrets of her family s magical history in an alternate Edwardian London As the daughter of a prominent British physician and a Brahmin woman of the highest caste Maya Witherspoon graduated from the University of Delhi as a Doctor of Medicine by the age of 22 But the science of medicine was not Maya s only heritage For Maya s aristocratic mother Surya was a sorceress a former priestess of the mystical magics fueled by the powerful and fearsome pantheon of Indian gods Though Maya felt the stirring of magic in her blood her mother had repeatedly refused to train her Yet it was Maya s father s death shortly thereafter that confirmed her darkest suspicions For her father was killed by the bite of a krait a tiny venomous snake and in the last hours of her mother s life Surya had warned Maya to beware the serpent s shadow Maya knew she must flee the land of her birth or face the same fate as her parents In self imposed exile in Edwardian London Maya knew that she could not hide forever from the vindictive power that had murdered her parents She knew in her heart that even a vast ocean couldn t protect her from the serpent s shadow that had so terrified her mother Her only hope was to find a way to master her own magic the magic of her father s blood But who would teach her And could she learn enough to save her life by the time her relentless pursuers caught up with their prey **Serpent Galaxy** David McElwrath, 2016-09-19 This books storyline is that of reptilians from the Andromeda Galaxy The first earth ship to meet the reptilians was not a human ship but an advanced ship of the ancient and advanced race of the Vlar The Vlar were a very high technology ancient race who expected to have no fear of the Snakes However the race of reptilians that were rapidly conquering all civilizations with which they came into contact were now a threat to all races

whatever their level of technology A century ago the Vlar never expected to be worried about the Snakes as all civilizations called them Their conquests had become so rapid and so had their takeover of advanced civilizations and their technology that they were now a threat to every being in the galaxy The Vlar gave the earth humans some of their high tech ships as a kind of last effort since they held the earth humans in such low regard The Vlar thought of the earth humans as warlike backward and vicious animals who killed their own kind However there were very few options left open to the Vlar so they gave the earth humans a few of their ships The Snakes had millions of high tech ships that carried thousands of Snake soldiers at several times the speed of light The Vlar gave the earth humans a few dozen Vlar ships The Snakes were over seven feet tall and weighed over five hundred pounds They were equipped with fangs and claws like the Tyrannosaurus rex of old earth history They liked to fight with hands or blade weapons to see the blood flow They were cannibals in addition to being carnivores They considered it honorable to eat your defeated foe and they were not above eating their own children The Snakes used massed ships in the millions to just roll over all the people they intended to conquer It was expected of any failed Snake expeditions to commit suicide The Snakes occupied over 1 400 planets and were continuing to conquer more as time went by Apparently none could stand before the Snakes Could the small blue planet called earth have a chance to survive
