Routledge Handbook of Applied Sport Psychology David Tod, Ken Hodge, 2010-10-18 Now available in paperback the Routledge Handbook of Applied Sport

Psychology is a definitive guide to the theory and practice of applied sport psychology. It goes further than any other book in surveying the full variety of issues that practising sport psychologists will confront in their working lives. It introduces the most important tools and skills that psychologists will need to be truly helpful to their clients and it also adopts a holistic definition of the role of the sport psychologist explaining how effective counseling, assessment and therapeutic models can add important extra dimensions to professional practice. The book is divided into seven thematic sections addressing counseling, assessment, theoretical and therapeutic models, issues for the individual athlete from injury and overtraining to depression, issues for teams from conflict resolution to travel, working with special populations, mental skills such as imagery, goal setting and concentration. Moving beyond the traditional tracks of clinical psychology and performance enhancement, the authors in this book argue convincingly that psychologists would benefit from attempting to understand athletes' social and familial contexts, their health, happiness and interpersonal dynamics in the broadest sense if they are to serve their clients' best interests. With contributions from many of the world's leading sport psychologists and with clear descriptions of best practice in each chapter, the Routledge Handbook of Applied Sport Psychology is essential reading for all serious students and practitioners of sport psychology, counseling, applied sport science, health psychology and related fields.

Directory of Graduate Programs in Applied Sport Psychology Michael L. Sachs, Kevin L. Burke, 2007. The eighth edition of the Directory of Graduate Programs in Applied Sport Psychology once again offers a wealth of information about graduate programs and career opportunities internationally. Over the years, the Directory has become the indispensable resource for exploring sport psychology graduate programs. In addition to over 100 masters and doctoral degree programs in the United States, Canada, Australia, Great Britain and South Africa, the Directory presents information about internships and career opportunities, details online courses and common research tools in the field, delineates the requirements for certification and licensure and discusses ethical issues and concerns in sport psychology. Perhaps most useful are the contact names, numbers and email addresses for programs and individuals around the world. This is the ideal resource for individuals interested in pursuing graduate study and a career in sport or exercise psychology.
