Intellectual Teamwork Jolene Galegher, Robert E. Kraut, Carmen Egido, 2014-01-14 This book seeks to establish an interdisciplinary applied social scientific model for researchers and students that advocates a cooperative effort between machines and people After showing that basic research on social processes offers much needed guidance for those creating technology and designing tools for group work its papers demonstrate the mutual relevance of social science and information system design and encourage better integration of these disciplines This comprehensive collection closely examines the variety of electronic tools being deployed to solve traditional problems in communication and coordination Unfortunately research shows that these tools have not been as successful as their designers had envisioned partially because they were not always produced with the needs and goals of their human users in mind The editors goal is to entice more social scientists to orient their research around questions of practical interest to information system designers and to convince designers to search for the knowledge about social and organizational behavior that would make their tools more useful

*Integrating Literacy and Math* Ellen Fogelberg, Carole Skalinder, Patti Satz, Barbara Hiller, Lisa Bernstein, Sandra Vitantonio, 2013-10-15 Many K 6 teachers and students still think of mathematics as a totally separate subject from literacy Yet incorporating math content into the language arts block helps students gain skills for reading many kinds of texts And bringing reading writing and talking into

the math classroom supports the development of conceptual knowledge and problem solving in addition to computational skills This invaluable book thoroughly explains integrated instruction and gives teachers the tools to make it a reality Grounded in current best practices for both language arts and math the book includes planning advice learning activities assessment strategies reproducibles and resources plus a wealth of examples from actual classrooms

**Linguistic Dating of Biblical Texts: Vol 1** Ian Young, Robert Rezetko, 2016-04-08 Since the beginning of critical scholarship biblical texts have been dated using linguistic evidence In recent years this has been a controversial topic However until now there has been no introduction to and comprehensive study of the field Volume I introduces the field of linguistic dating of biblical texts particularly to intermediate and advanced students of Biblical Hebrew with a reasonable background in the language but also to scholars of the Hebrew Bibles in general who have not been exposed to the full scope of issues It outlines topics at a basic level before entering into detailed discussion Many text samples are presented for study and readers are introduced to significant linguistic features of the texts through notes on the pages Detailed notes on these text sample provide a background concrete illustrations and a point of departure for discussion of the general and theoretical issues discussed in each chapter that will make this volume useful as a classroom textbook
