*The Strength-Based Clinical Supervision Workbook* Christopher L. Heffner, Jessica A. Cowan, 2022-08-25 Supervision is the cornerstone of clinical training across all types of mental health providers It facilitates the growth of mental health trainees and maintains the integrity of the field of mental health services by ensuring the competency of clinicians However the process can be complex and potentially confusing for both supervisors and trainees at any stage of their development or post licensure career Utilizing strength based approaches is crucial to the success of supervision This workbook facilitates a collaborative and strength based approach to clinical supervision that both supervisors and trainees can use during the entire course of supervision or for specific goals related to supervision Each chapter of this workbook contains information and activities specific to both the trainee and supervisor to facilitate dialogue about individual and combined strengths areas for growth and goals for collaborative work This is an essential start to finish guide addressing the entire supervision process from preparing for the first session to conducting the last session and everything in between

**Techniques and Interventions for Play Therapy and Clinical Supervision** Fazio-Griffith, Laura Jean, Marino, Reshelle, 2020-09-25 The use of techniques and interventions for play therapy during the supervision process for graduate and post graduate counselors provides a host of benefits for the counseling student post graduate intern and supervisor The counselor in training is able to experientially integrate theory

with practice through the use of different modalities that provide reflection and insight into their work with clients. Additionally, the use of techniques and interventions for play therapy allows a secure and strong supervisory relationship which allows the counselor in training to explore personal and professional goals, verbalize and conceptualize client issues, goals, and effective interventions, and develop counselor-client relationships that allow the client to progress during the therapeutic process. However, play therapy techniques and interventions are not often incorporated into the supervision process unless the clinician is a registered play therapist being supervised by a registered play therapist supervisor. *Techniques and Interventions for Play Therapy and Clinical Supervision* is a critical reference source that provides an opportunity for all clinicians to incorporate play therapy techniques and expressive art interventions into the process of supervision. It presents techniques and methods that allow for more effective supervision for counselors in training, which allows for more effective service delivery to clients. Highlighting topics that include play techniques in supervision, cognitive behavioral play therapy, and trauma, this book is ideal for individuals in a university, clinical school, agency, etc. setting who provide supervision for counselors in training, including graduate students and postgraduate students. The book is an excellent supplement for clinical courses at universities with counseling programs and play therapy programs, as well as universities with graduate social work and psychology programs that have play therapy courses and provide play therapy supervision.
