This approach also provides readers with new contextualised understanding of the wider issues affecting the offsite market, from the need to embrace societal challenges through to the development of rich value-laden solutions required for creating sector resilience. Content includes a balance between case studies and practice-based work through to technical topics, theoretical propositions, pioneering research and future offsite opportunities ready for exploitation. This work includes stakeholder integration, skills acquisition, new business models and processes, circularity and sustainable business strategies, robotics and automation, innovation and change, lean production methodologies and new construction methods, Design for Manufacturing and Assembly, scaled portfolio platforms and customisability, new legal regulatory standards and conformance issues and offsite feasibility, scenario development, integration.

T&T Clark Companion to Liturgy

Alcuin Reid, 2015-12-17 In the decades following the Second Vatican Council, Catholic liturgy became an area of considerable interest and debate, if not controversy, in the West. Mid-late 20th century liturgical scholarship upon which the liturgical reforms of the Second Vatican Council were predicated and implemented no longer stands unquestioned. The liturgical and ecclesial springtime the reforms of Paul VI were expected to facilitate has failed to emerge, leaving many questions as to their wisdom and value. Quo vadis Catholic liturgy? This Companion brings together a variety of scholars who consider this question at the beginning of the 21st century in the light of advances in liturgical scholarship, decades of post-Vatican II experience and the critical re-examination in the West of the question of the liturgy promoted by Benedict XVI. The contributors, each eminent in their field, have distinct takes on how to answer this question, but each makes a significant contribution to contemporary debate, making this Companion an essential reference for the study of Western Catholic liturgy in history and in the light of contemporary scholarship and debate.

Leading Collaborative Architectural Practice Erin Carraher, Ryan E. Smith, 2017-02-22 The groundbreaking guide to modern leadership in architectural practice, *Leading Collaborative Architectural Practice* is the leadership handbook for today's design and construction professionals. Endorsed by the American Institute of Architects, this book describes the collaborative approach to leadership that is becoming increasingly prevalent in modern practice. Gone are

the days of authoritative star architects today's practice is a brand and requires the full input of every member of the team This book builds off of a two year AIA research project to provide a blueprint for effective leadership the ability awareness and commitment to lead project teams who work together to accomplish the project's goals Both group and individual hands on exercises help facilitate implementation and extensive case studies show how these techniques have helped real world firms build exemplary success through collaborative teamwork and leadership Highly illustrated and accessible this approach is presented from the practicing architect's point of view but the universal principles and time tested methods also provide clear guidance for owners contractors engineers project managers and students Build a culture of collaboration commitment and interpersonal awareness Adopt effective leadership techniques at the team project or practice level Handle conflict and resolve communication issues using tested approaches Learn how real world projects use effective leadership to drive success The last decade has seen a sea change in architectural leadership New practices no longer adopt the name and identity of a single person but create their own identity that represents the collaborative work of the entire group Shifts in technology and changing workplace norms have made top down management structures irrelevant so what does it now mean to lead Forefront presents effective contemporary leadership in the architectural practice and real world guidance on everyday implementation
