

Module 2 DBA Questions

1. What is the water cycle and how does the conservation of matter apply to the water cycle? In your own words, discuss two possible human impacts on the water cycle.

The water cycle is a continuous process of water moving throughout the planet and the atmosphere and changing forms. As factors such as temperature change in the atmosphere and in the water, it forces the water to move and change form. It has many processes within it, such as precipitation (the falling of water from clouds onto Earth as snow or rain), and evaporation (the process by which water heats up into water vapor and rises into the atmosphere. In the water cycle the conservation of matter applies to the water cycle because water cannot be destroyed or created, it simply changes shape. There is the same amount of water on Earth and in the atmosphere that there was 5 million years ago. Even when it changes form, the amount of water stays the same. Two possible human impacts on the water cycle are polluting the water and groundwater reduction. If a company is polluting a river by putting waste and chemicals into it, it will impact the water cycle because that water will become contaminated. If a town decided to build a dam in a river, that dam would cause less groundwater downstream.

2. A puddle of water is found on the sidewalk after an afternoon rainstorm. Trace a drop of water from this puddle through the entire water cycle.

After the drop of water has fallen during precipitation, it will then potentially cause runoff, which is where the water moves around the surface of the earth without really seeping into the ground. Then if it increases in temperature, it will transform into water vapor and evaporate into the atmosphere through a process called evaporation. Once it cools in the atmosphere, it will form a cloud with other water droplets in something called condensation. This process turns the water vapor into a cloud. When the cloud becomes too heavy, the water will fall back to earth in the form of precipitation. The water might move about the surface of the earth again through runoff. It may also seep into the ground through infiltration. There, it will be stored as groundwater. Plant roots may suck the water up into the plant, and then release the water again as water vapor into the atmosphere. This water vapor will have evaporated up into the atmosphere, where it will transform into a cloud once again through condensation, and fall once more as precipitation.

3. Winds in the northern hemisphere appear to be deflected to the right; in the southern hemisphere to the left. What causes this apparent motion?

This motion is caused mainly by the rotation of the earth.

4. In your own words, explain what causes air pressure.

Air pressure is caused by the molecules in the air being pulled towards the earth via gravitational pull. When there are air molecules in the atmosphere, Earth's gravity pulls the molecules towards earth, which causes pressure in the atmosphere. Motion of particles, particles strike the earth, denser the air, higher the pressure

5. What is the difference between weather and climate? Give examples of each.

Weather is the current or day-to-day changes in temperature, dew point, humidity, air pressure, wind, and precipitation. This is more short term. Climate is the average weather conditions in a certain area over a long period of time. So the big difference is the timing. Weather is short-term, climate is long term.

6. Why is the science of meteorology important to the everyday, average citizen? Talk about a time when meteorology impacted your plans for the weekend.

Meteorology can impact day-to-day plans because if you are planning something outdoors and then you learn that there's going to be lightning and thunder, it poses a safety risk and you should cancel. Having meteorology helps predict that and get information to people, so

Flvs Answers For Earth Science Introduction

Flvs Answers For Earth Science Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Flvs Answers For Earth Science Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Flvs Answers For Earth Science : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Flvs Answers For Earth Science : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Flvs Answers For Earth Science Offers a diverse range of free eBooks across various genres. Flvs Answers For Earth Science Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Flvs Answers For Earth Science Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Flvs Answers For Earth Science, especially related to Flvs Answers For Earth Science, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Flvs Answers For Earth Science, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Flvs Answers For Earth Science books or magazines might include. Look for these in online stores or libraries. Remember that while Flvs Answers For Earth Science, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Flvs Answers For Earth Science eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain

books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Flvs Answers For Earth Science full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Flvs Answers For Earth Science eBooks, including some popular titles.

FAQs About Flvs Answers For Earth Science Books

1. Where can I buy Flvs Answers For Earth Science books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Flvs Answers For Earth Science book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Flvs Answers For Earth Science books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
