Present absences Linnea Bodén, 2016-08-23 The aim of the study is to explore how school absenteeism as a material discursive phenomenon is produced in the practices of humans and nonhumans when absences and presences are registered and managed through digital technologies How is the phenomenon of school absenteeism produced when absences and presences are digitally registered How does the phenomenon of school absenteeism emerge when both human and nonhuman entanglements are included in the apparatuses of knowing Through a posthumanist approach the study engages empirically with two types of software for the registration of absences and

presences at three Swedish schools The results show that digital registration blurs the division between absences and presences and queers what is absent and what is present Digital registration produces school absenteeism as a phenomenon for all students every day and at the same time as mainly for the students who are present most of the time A conclusion that is drawn from the study is that digital registration makes absences present by the visualization and performative repetition of the registration The study points to how school absenteeism is always in the making and proposes the concept of school absenteeing as a productive way to open up new possibilities in relation to students absences Syftet med studien r att unders ka hur skolfr nvaro som materiellt diskursivt fenomen produceras i m nskliga icke m nskliga praktiker n r fr nvaro och n rvaro hanteras och registreras med hj lp av digitala system Hur produceras fenomenet skolfr nvaro n r elevers fr nvaro och n rvaro registreras digitalt Hur framtr der fenomenet skolfr nvaro n r m nniskor s v l som icke m nniskor inkluderas i kunskapsproduktionen I studien skapas empiriska engagemang tillsammans med tv digitala system f r registrering av fr nvaro och n rvaro p tre svenska skolor Genom ett posthumanistiskt perspektiv visar studien att den digitala registreringen suddar ut gr nserna mellan fr nvaro och n rvaro I sammanv vningar med digitala system blir fenomenet skolfr nvaro mer komplext eftersom den digitala registreringen producerar skolfr nvaro som ett fenomen f r alla elever varje dag Samtidigt reducerar den digitala registreringen skolfr nvarons komplexitet och skapar ett fenomen f r de elever som f r det mesta r n rvarande En slutsats fr n studien r att registreringen g r vad som r osynligt det fr nvarande synligt Studien pekar p hur skolfr nvaro alltid r ett g rande och introducerar begreppet school absenteeing skolfr nvarog ra Detta begrepp m jligg r en f rst else av skolfr nvaro som en p g ende produktion i m nskliga icke m nskliga relationer snarare n n got som elever har eller r och ppnar upp f r nya s tt att engagera sig i den alltid n rvarande fr nvaron
