you are right in saying that and you may tell me that it is highly negative expected value in the long run But can you ignore these facts Roulette will produce winning and losing streaks Roulette will allow gamblers to win big by giving them 36 times of whatever they put straight up If a person goes hot and gets 2 times a number correct he stands to win 36 36 times the amount bet consecutively Giving you returns of 1296 times or if you just bet 25 dollars which anyone can afford to lose in a casino he will have won 32 thousand 400 dollars or 32 400 Now with such low house edges anyone can go on a hot streak but everyone loses And now if I tell you I have a system that will allow you to take shots at the game of Roulette and if you win you compound your profits and cut losses and take profits then certainly the casinos will a lot fun a lot entertainment and a hell lot more fun then would you deny it In this manual and in the coming pages I am going to convey to you the secrets of my winning system of Roulette every Roulette player must read this book at least one and what have you got to lose You are just going to get saved a lot of money and this is an indispensable guide to winning in casinos a cart full of money all crisp 100 dollar bundles And who knows you may even break the bank at roulette table A lot of players go to the casinos and assume they are lucky and going to win and this is the wrong mentality to win at poker because if you believe you are going to win you are going to compound your losses following bad strategies like Martingale The Martingale strategy works best for the casino and they prevent losses by limiting the maximum amount of bets that could be placed and of course players like you and me don t have access to infinite resources that will allow us to keep doubling our bets forever We need to win big and we need to win with a small amount of money In this manual I am going to give you solid advice that will allow players to reduce the house edge of casinos and who knows if everyone read my book probably the casinos will stop the game of Roulette altogether Because I have a system that really does beat the casinos And the rules which I will tell you precisely in later part of the book are as follows 1 Take Profits 2 Try to go on a hot streak 3 Cut losses 4 Go for big wins like betting straight up 5 An intuitive pattern recognition system that makes phrases out of meaningless numbers for identification of wheel bias This works on every Roulette Wheel in Vegas Atlantic City every casino in the world and all machines open and closed and even automatic Roulette machines which have a ball inside a chamber This is a short book that will give you the right tools to approach the game of Roulette and every chapter will convey the topics that I have told you above and you must use all of these tools at once so that you will make big money or be break even or have very little losses in the game of Roulette Good Luck and wish you a lot of fun and entertainment in the casinos      *The Keefer Roulette System* Jeremy B Keefer,2015-01-31 If you are looking for a way to finally beat the casino this book is for you The Keefer Roulette System is the most successful betting system ever created to earn thousands of dollars at roulette Developing this unique system has allowed me to earn over 120 per hour playing roulette and once you read this book you will be able to do the same      **Mastering Roulette** Edwin Cano,2024-07-28 Roulette a game synonymous with elegance and thrill has captivated gamblers for centuries With its origins tracing back to 18th century France roulette stands as a testament to the enduring allure of casino games The
