Fixing Haiti Minustah And Beyond:

Fixing Haiti Jorge Heine, Andrew Stuart Thompson, 2011 Haiti may well be the only country in the Americas with a last name References to the land of the black Jacobins are almost always followed by the phrase the poorest country in the Western Hemisphere To that dubious distinction on 12 January 2010 Haiti added another when it was hit by the most devastating natural disaster in the Americas a 7.0 Richter scale earthquake More than 220 000 people lost their lives and much of its vibrant capital Port au Prince was reduced to rubble Since 2004 the United Nations has been in Haiti through MINUSTAH in an ambitious attempt to help Haiti raise itself by its bootstraps This effort has now acquired additional urgency Is Haiti a failed state Does it deserve a Marshall plan like program What will it take to address the Haitian predicament In this book some of the world's leading experts on Haiti examine the challenges faced by the first black republic the tasks undertaken by the UN and the new role of hemispheric players like Argentina Brazil and Chile as well as that of Canada France and the United States

Obligations and Omissions Rebecca Tiessen, Stephen Baranyi, 2017-06-12 On issues pertaining to women and girls Stephen Harper's federal government positioned Canada as a beacon of light in the world Programs were developed in relation to women's maternal health and the protection of the girl child but other actions point to an ambiguous and even contradictory approach that failed to address gender inequality In Obligations and Omissions contributors examine Canada's equivocal and diminished role in working toward gender equality in the period between 2006 and 2015 Using a critical feminist lens to document analyze and challenge Canada's relations with the Global South chapters explore the extent to which matters of gender equality have been erased or exploited under the Harper government and the factors that explain these policy shifts While the contributors document successes in Canada's approach to some issues facing women and girls around the world they also show many problems with the ways that agenda was framed and implemented under the Conservative government Drawing on rich theoretical investigation empirical research and discourse analysis Obligations

and Omissions reveals a complex picture of diverse practices underscoring the implications of these actions for communities in the Global South for Canada's image in the international community and for future governments in the pursuit of a renewed gender equality strategy

The Myth of the Democratic Peacekeeper Arturo C. Sotomayor, 2014-01-15 If democratic principles do not just rub off onto United Nations peacekeepers what positive or negative implications can be observed Winner of the Luciano Tomassini Latin American Relations Book Award of the Luciano Tomassini Latin American Relations The Myth of the Democratic Peacekeeper reevaluates how United Nations peacekeeping missions reform or fail to reform their participating members It investigates how such missions affect military organizations and civil military relations as countries transition to a more democratic system Two thirds of the UN's peacekeepers come from developing nations many of which are transitioning to democracy as well The assumption is that these blue helmet peacekeepers learn not only to appreciate democratic principles through their mission work but also to develop an international outlook and new ideas about conflict prevention Arturo C Sotomayor debunks this myth arguing that democratic practices don't just rub off on UN peacekeepers So what if any benefit accrues to these troops from emerging democracies In this richly detailed study of a decade's worth of research 2001-2010 on Argentine Brazilian and Uruguayan peacekeeping participation Sotomayor draws upon international socialization theory and civil military relations to understand how peacekeeping efforts impact participating armed forces He asks three questions Does peacekeeping reform military organizations Can peacekeeping socialize soldiers to become more liberalized and civilianized Does peacekeeping improve defense and foreign policy integration His evaluation of the three countries involvement in the UN Stabilization Mission in Haiti reinforces his final analysis that successful democratic transitions must include a military organization open to change and a civilian leadership that exercises its oversight responsibilities The Myth of the Democratic Peacekeeper contributes to international relations theory and to substantive issues in civil military relations and comparative politics It provides a novel argument about how peacekeeping works and

further insight into how international factors affect domestic politics as well as how international institutions affect democratizing efforts *Building Security in Post-Conflict States* Ursula Schroeder, 2017-10-02 Support for security and justice institutions has become a crucial instrument of international engagement in fragile and conflict affected states In attempts to shore up security as a precondition for sustainable peace international actors have become deeply engaged in reforming the security agencies and security governance institutions of states emerging from conflict But despite their increasing importance in the field of international peace and state building security sector reform SSR interventions remain both highly political and deeply contentious processes Expanding on this theme this edited volume identifies new directions in research on the domestic consequences of external support to security sector reform Both empirically and theoretically the focus lies on the so far neglected role of domestic actors interests and political power constellations in recipient states Based on a wide range of empirical cases the volume discusses how the often conflictual and asymmetric encounters between external and domestic actors with divergent interests and perceptions affect the consequences of international interventions By taking into account the plurality of state and non state security actors and institutions beyond classical models of Weberian statehood the contributions make the case for engaging more closely with the complexity of the domestic security governance configurations that can result from external engagement in the field of security sector reform This book was published as a special issue of *International Peacekeeping* *Police Peacekeeping* Lou Pingeot, 2023-09-07 UN peace operations increasingly deploy police forces and engage in policing tasks The turn to police peacekeeping has generally been met with enthusiasm in both academic and policy circles and is often understood to provide a more civilian instrument of intervention better suited to mandates that increasingly emphasize protection Rebuilding local police forces along democratic liberal lines is seen as a prerequisite for a successful transition towards peace and stability In this book Lou Pingeot questions this optimistic reading of police peacekeeping and demonstrates that the logic of policing leads to the depoliticization of conflict and the criminalization of those who are deemed to threaten not just public order but social order authorizing violence against them in the name of law enforcement *Police Peacekeeping* proposes a new way of studying peace operations that focuses not on their success or failure but on how they allow people and ideas to circulate transnationally It shows that peace operations act as a point of cross fertilization for the creation and transmission of policing discourses and practices globally In so doing these missions contribute to re producing social orders that are based on the exclusion of often racialized socio economically marginalized populations both domestically in countries of intervention and internationally in troop contributing countries The book draws on and contributes to critical understandings of police power that show that police forces were never meant to protect all equally It also furthers our understanding of policing at a global level Drawing on interpretive feminist and postcolonial methodologies that emphasize relations processes and situatedness Lou Pingeot s in depth study of UN intervention in Haiti shows how a single site can help illuminate global processes Rather

than starting from Haiti's supposed deviance from international expectations and norms she posits that Haiti can reveal a great deal about how policing functions globally *Who Owns Haiti?* Robert Maguire, Scott Freeman, 2017-11-07 A timely collection of articles by some of the leading and emerging scholars and specialists on Haiti offering a wide range of critical perspectives on the question and meaning of sovereignty in Haiti Alex Dupuy coauthor of *The Prophet and Power* Jean Bertrand Aristide the International Community and Haiti Directly asks the provocative question of ownership and Haitian sovereignty within the post earthquake moment an unstable period in which ideas on re development humanitarianism globalization militarism self determination and security converge Millery Polyn author of *From Douglass to Duvalier* U S African Americans Haiti and Pan Americanism 1870 1964 Powerful essays by experts in their fields addressing what matters most to smaller nations the meaning of sovereignty and the horrid trajectory from colonialism to neocolonialism into neoliberalism Patrick Bellegarde Smith author of *Haiti The Breached Citadel* Although Haiti established its independence in 1804 external actors such as the United States the United Nations and non profits have wielded considerable influence throughout its history Especially in the aftermath of the Duvalier regime and the 2010 earthquake continual imperial interventions have time and again threatened its sovereignty *Who Owns Haiti* explores the role of international actors in the country's sovereign affairs while highlighting the ways in which Haitians continually enact their own independence on economic political and cultural levels The contributing authors contemplate Haiti's sovereign roots from a variety of disciplinary perspectives including political science anthropology history economics and development studies They also consider the assertions of sovereignty from historically marginalized urban and rural populations This volume addresses how Haitian institutions grassroots organizations and individuals respond to and resist external influence Examining how foreign actors encroach on Haitian autonomy and shape or fail to shape Haiti's fortunes it argues that varying discussions of ownership are central to Haiti's future as a sovereign state Contributors Laurent Dubois Robert Fatton Jr Scott Freeman Nicholas Johnson Chelsey Kivland Robert Maguire Francois Pierre Louis Jr Karen Richman Ricardo Seitenfus Amy Wilentz

Netherlands Yearbook of International Law 2014 Mónika Ambrus, Ramses A. Wessel, 2015-05-15 The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles of a more general nature in the area of public international law including the law of the European Union One of the key functions or purposes of international law and law in general for that matter is to provide long term stability and legal certainty Yet international legal rules may also function as tools to deal with non permanent or constantly changing issues and rather than stable international law may have to be flexible or adaptive Prima facie one could think of two main types of temporary aspects relevant from the perspective of international law First the nature of the object addressed by international law or the problem that international law aims to address may be inherently temporary temporary objects Second a subject of international law may be created for a specific period of time after the elapse of which this entity ceases to exist temporary subjects These types of temporariness raise several questions from the perspective of international law which are hardly addressed from a more conceptual perspective This volume of the Netherlands Yearbook of International Law aims to do exactly that by asking the question of how international law reacts to various types of temporary issues Put differently where does international law stand on the continuum of predictability and pragmatism when it comes to temporary issues or institutions

Paramilitarism and the Assault on Democracy in Haiti Jeb Sprague, 2012-08 In this path breaking book Jeb Sprague investigates the dangerous world of right wing paramilitarism in

Haiti and its role in undermining the democratic aspirations of the Haitian people Sprague focuses on the period beginning in 1990 with the rise of Haiti's first democratically elected president Jean Bertrand Aristide and the right wing movements that succeeded in driving him from power Over the ensuing two decades paramilitary violence was largely directed against the poor and supporters of Aristide's Lavalas movement taking the lives of thousands of Haitians Sprague seeks to understand how this occurred and traces connections between paramilitaries and their elite financial and political backers in Haiti but also in the United States and the Dominican Republic The product of years of original research this book draws on over fifty interviews some of which placed the author in severe danger and more than 11 000 documents secured through Freedom of Information Act FOIA requests It makes a substantial contribution to our understanding of Haiti today and is a vivid reminder of how democratic struggles in poor countries are often met with extreme violence organized at the behest of capital

Production of Disaster and Recovery in Post-Earthquake Haiti Juliana Svistova, Loretta Pyles, 2018-02-21 Natural disasters have long been seen as naturally generated events but as scientific technological and social knowledge of disasters has become more sophisticated the part that people and systems play in disaster events has become more apparent Production of Disaster and Recovery in Post Earthquake Haiti demonstrates how social processes impact disasters as they unfold through the distribution of power and resources the use of discourses and images of disaster and the economic and social systems and relations which underlie affected communities The authors show how these processes played out in post earthquake Haiti to set in motion the mechanics of the disaster industrial complex to re produce disasters and recovery rather than bring sustainable change The book reveals that disaster and recovery rhetoric helped create fertile conditions for neoliberal disaster governance militarized and digital humanitarianism non profiteering and disaster opportunism to flourish while further disenfranchising marginalized populations However the Haiti earthquake as is the case with all disaster sites was ripe with mutual aid community building and collective action all of which further local resilience The authors seek to re construct dominant discourses policies and practices to advance equitable participatory partnerships with local community actors and propose a praxis for a people's recovery as an action oriented framework for resisting the transnational disaster industrial machinery The authors argue for new synergies in policymaking and program development that can respond to emergencies and plan for true long term sustainable development after disasters that focuses as much on humans and the natural world as it does on economic progress Production of Disaster and Recovery in Post Earthquake Haiti will be of great interest to students and scholars of disaster studies humanitarian studies development studies Haitian studies geography and environmental studies as well as to non governmental organizations humanitarians and policymakers *The Political Economy of Disaster* Mats Lundahl, 2013-02-11 Haiti one of the least developed and most vulnerable nations in the Western Hemisphere made the international headlines in January 2010 when an earthquake destroyed the capital Port au Prince More than a year later little reconstruction has taken place in spite of a strong international funding commitment Mats Lundahl

has written several seminal works on Haiti and this volume brings together the best of his past work on Haiti's economic and political history along with a comprehensive introduction and two new chapters which bring the story right up to the present day. Together the volume provides both historical background and explanation as to why Haiti was so badly affected by the earthquake and to why reconstruction efforts have been ineffective this far. Lundahl argues that the two main causes can be found in the interaction between the growth of the population and the destruction of the arable soil on the one hand and in the creation of a predatory state during the nineteenth century which still exists to this day. This book provides a comprehensive analysis which charts these themes from the time of the arrival of Columbus in the island in 1492 to the present day. The book also deals with contemporary market and policy failures as well as the crucial recent elections and considers the path ahead for this impoverished nation. This book will be of huge relevance and interest not only to students and researchers in economic history but also for all those working on development economics, development studies and American and Caribbean Studies more generally.

UN Peace Operations Eirin Mobekk, 2016-12-08. This book assesses the UN Peace Operations in Haiti and establishes what lessons should be taken into account for future operations elsewhere. Specifically, the book examines the UN's approaches to security and stability, demobilisation, disarmament and reintegration, DDR, police justice and prison reform, democratisation and transitional justice and their interdependencies through the seven UN missions in Haiti. Drawing on extensive fieldwork and interviews conducted in Haiti, it identifies strengths and weaknesses of these approaches and focuses on the connections between these different sectors. It places these efforts in the broader Haitian political context, emphasises economic development as a central factor to sustainability, provides a civil society perspective and discusses the many constraints the UN faced in implementing its mandates. The book also serves as a historical account of UN involvement in Haiti, which comes at a time when the drawdown of the mission has begun. In an environment where the UN is increasingly seeking to conduct security sector reform (SSR) within the context of integrated missions, this book will be a valuable contribution to the debate on intervention, UN peace operations and SSR. This book will be of interest to students of peace operations and peacekeeping, conflict studies, security studies and IR in general.

Debating Civil-Military Relations in Latin America David R Mares, Rafael Martinez, 2013-09-01. The study of civil-military relations in Latin America produced a rich debate and research agenda prior to 2000. But this agenda was largely abandoned during the past decade as the spectre of military dictatorship has virtually disappeared with the political role of the military in many countries dramatically diminished. Indeed, in no country that has initiated a process of holding the military accountable to civilian control has the military openly rebelled. Yet the institutions and public attitudes that guarantee democratic civilian control of the military exist in a general context of political polarisation, citizen insecurity and in many countries a sense of developing ungovernability. The military coup in Honduras 2009, the military response to the police rebellion in Ecuador 2010 and the speculation concerning the Venezuelan military's behaviour in the event that Hugo

Chavez is incapacitated or dies 2013 demonstrates the relevance and importance of the civil military relationship today In this volume leading scholars from Latin America the U S and Spain debate the ability of contemporary Latin American civil military relationships to weather these challenges The authors examine new types of regimes the rise of participatory democracy new political orientations the renaissance of the Left in Latin America and new missions for the military Debate centres on the indicators to evaluate the level of consolidation of civilian control the manner in which these indicators are measured and the empirical ambiguities that arise These challenges must be confronted in order to effectively address the question of how much progress has been made in the region in subordinating the military to civilian control which countries are lagging behind and why Published in association with CILAS University of California San Diego **Culture and**

National Security in the Americas Brian Fonseca, Eduardo A. Gamarra, 2017-01-31 Culture and National Security in the Americas examines the most influential historical geographic cultural political economic and military considerations shaping national security policies throughout the Americas Sovereignty Sharing in Fragile States John D. Ciorciari, 2021-03-16 In fragile states domestic and international actors sometimes take the momentous step of sharing sovereign authority to provide basic public services and build the rule of law While sovereignty sharing can help address gaps in governance it is inherently difficult risking redundancy confusion over roles and feuds between partners when their interests diverge In Sovereignty Sharing in Fragile States John D Ciorciari sheds light on how and why these extraordinary joint ventures are created designed and implemented Based on extensive field research in several countries and more than 150 interviews with senior figures from governments the UN donor states and civil society Ciorciari discusses when sovereignty sharing may be justified and when it is most likely to achieve its aims The two he argues are closely related perceived legitimacy and continued political and popular support are keys to success This book examines a diverse range of sovereignty sharing arrangements including hybrid criminal tribunals joint policing arrangements and anti corruption initiatives in Sierra Leone Cambodia Lebanon Timor Leste Guatemala and Liberia Ciorciari provides the first comparative assessment of these remarkable attempts to repair ruptures in the rule of law the heart of a well governed state **The Humanitarian Response Index**

2011, 2012 The Liberal Script at the Beginning of the 21st Century Tanja A. Börzel, Johannes Gerschewski, Michael Zürn, 2024-10-10 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations 21st century liberalism is being contested on multiple fronts and by a wide range of actors To understand these challengers it is important to have a better grasp of their common target This book introduces the liberal script as an analytical concept that allows us to analyze and problematize liberal thinking as well as its different components and linkages and the tensions that they produce What happens when the pursuit of market efficiency is incompatible with social justice It is these tensions between the different components of the liberal script that are at the heart of the challenges against it Different societies have

resolved these tensions in different ways leading to a variety of liberal subscripts and their contestations. The volume integrates theoretical and methodological perspectives from different disciplines including political science, sociology, law, history, philosophy, post colonial studies and educational science. In demonstrating the theoretical and empirical added value of using the concept of liberal script, the volume presents a multifaceted and nuanced picture of what is at stake in the challenges to liberalism in the early 21st century. This volume has emerged from research carried out as part of the Cluster of Excellence Contestations of the Liberal Script SCRIPTS, which analyzes the contemporary controversies about liberal ideas, institutions and practices on the national and international level from a historical, global and comparative perspective. It connects academic expertise in the social sciences and area studies and collaborates with research institutions in all world regions. Operating since 2019 and funded by the German Research Foundation (DFG), SCRIPTS unites eight major Berlin-based research institutions: Freie Universität Berlin, the Humboldt Universität zu Berlin, the Berlin Social Science Center (WZB), the Hertie School, the German Institute for Economic Research (DIW), the Berlin branch of the German Institute of Global and Area Studies (GIGA), the Centre for East European and International Studies (ZOiS) and the Leibniz Zentrum Moderner Orient (ZMO).
