## QuickGuide to Canon Speedlite 580EX II Modes and Functions

### Overview

This QuickGuide is designed to provide an overview of the Canon Speedlite 580EX II's main features and menu structure. With this in mind, we have color-coded the three primary operating modes that are available, along with the selections that are available in each mode. By familiarizing yourself with how these modes and features are organized you will be able to quickly determine what features are available and where to find them. For more detailed information on each feature set, please refer to the 580EX II Instruction Manual.

### Controls

#### 1 Display Illuminator/Custom-Function Button

Press once to illuminate the display. Press and hold to access the Custom Function menu. The 580EX II offers 14 custom functions (C.Fn-00 – C.Fn-13). **Note:** To change the default distance indicator from meters to feet, change C.Fn-00 to "1".

#### 2 Flash Mode Button

Press this button to cycle through the three operating modes:

- E-TTL Automatic
- Manual
- Mult (Stroboscopic)

The display will change with each button press.

#### 3 High-Speed/Shutter Curtain Sync Button

The High-Speed Sync and Shutter Curtain Sync options are available only when the 580EX II is in E-TTL or Manual mode. Press the button until the corresponding icon appears on the display. When no icon is visible the corresponding function is off.

#### 4 Zoom/Wireless Select Button

Press this button once if you wish to manually set the flash coverage angle. The 580EX II will otherwise adjust its coverage to your lens' focal length automatically. Press and hold this button if you wish to select one of the three wireless options (available only when you are in the E-TTL Auto or Manual mode). See below for more information.

#### 5 Select Dial

This dial allows you to scroll through the options available in a particular feature set. The Select Dial is active only when a feature set is active (blinking).

#### 6 Select/Set Button

This button allows you to cycle through specific options available in each of the three flash modes. Once you have activated a feature (indicated by blinking), the Select Dial will allow you to change the feature to the setting of your choice.

### E-TTL AUTOMATIC MODE

This operating mode uses the camera's light meter to automatically control flash output and exposure. It can control a single Speedlite attached to the camera and can also wirelessly control multiple Speedlites. The basic functions available in this mode include:

#### Flash Exposure Compensation (FEC)

Press the Select/Set Button 6 until the flash exposure compensation icon flashes. Turn the Select Dial 5 clockwise to increase the flash exposure or counter-clockwise to reduce it. Compensation can be set in 1/3-stop increments up to a 3 stops. Press the Select/Set Button 6 to lock-in your choice. Once set, the icon will no longer blink.

#### Flash Exposure Bracketing (FEB)

Press the Select/Set Button 6 until the Flash Exposure Bracketing icon flashes. Turn the Select Dial 5 clockwise to increase the flash exposure bracket increment or counter-clockwise to reduce it. Bracketing can be set in 1/3-stop increments up to a 3 stops. Press the Select/Set Button 6 to set the amount. Once set, the icon will no longer blink.

#### Manual Zoom

Press the Zoom Button 4 once. When the coverage angle indicator (upper-right of the display) blinks, turn Select Dial 5 to the angle of your choice. The choices are 24, 28, 35, 50, 70, 80, and 105mm, in 35mm full-frame equivalents. Divide by 1.6 for the Canon APS-C equivalent.

#### High-Speed Sync

When this option is selected the flash will flash stroboscopically, in sync with the shutter as it cross the focal plane. Although this allows the 580EX II to synchronize with shutter speeds higher than 1/1000-second it also reduces light output as shutter speeds move progressively past the standard maximum sync speed.

#### Second-Curtain Sync

The 580EX II is normally triggered the instant the first shutter curtain opens. When Second-Curtain sync is selected the flash will be triggered just before the second shutter curtain closes. Note that given a fixed ISO setting, the longer your shutter speed, therefore the more effect that ambient light and any resulting pre-flash motion blur will have on the image.

E-TTL Automatic also has three wireless flash options:

- Wireless [Off]
- Wireless [On - Master]
- Wireless [On - Slave]

To access a wireless flash option:

1. Press and hold the Zoom/Wireless Select Button 4 until the display blinks.
2. Turn the Select Dial 5 to the option of your choice.
3. Press the Select/Set Button 6 to set your choice. Once set, the icon will no longer blink.

#### Wireless [Off]

All wireless functions are off. Only basic functions such as FEC, FEB and High-Speed/Second-Curtain Sync are available.

#### Wireless [On - Master]

When your Speedlite is set to this option it will function as the Master (main) unit that controls any other Slave (secondary) units that are set to the same Channel. It will also allow you to control the automatic power ratio between Master and Slaves.

# Flash 9 Manual

**L Manion**

## **Flash 9 Manual:**

This is likewise one of the factors by obtaining the soft documents of this **Flash 9 Manual** by online. You might not require more era to spend to go to the ebook creation as well as search for them. In some cases, you likewise complete not discover the notice Flash 9 Manual that you are looking for. It will utterly squander the time.

However below, considering you visit this web page, it will be consequently agreed simple to get as well as download guide Flash 9 Manual

It will not endure many mature as we explain before. You can get it even if put-on something else at house and even in your workplace. thus easy! So, are you question? Just exercise just what we provide below as skillfully as review **Flash 9 Manual** what you subsequently to read!
