Gender and Sexualities in Education Elizabeth J. Meyer, Dennis Carlson, 2014 This volume is about the education of gender and sexualities which is to say it explores how gender and sexuality identities and differences get constructed through the process of education and schooling Wittingly or not educational institutions and educators play an important role in normalizing gender and sexuality differences by disciplining regulating and producing differences in ways that are intelligible within the dominant or hegemonic culture To make gender and sexuality identities and differences intelligible through education is to understand them through the logic of separable binary oppositions man woman straight gay and to valorize and privilege one normalized identity within each binary man straight and simultaneously stigmatize and marginalize the other identity woman gay Educational institutions have been set up to normalize the construction of gender and sexual identities in these ways and this is both the overt and the hidden curriculum of schooling At the same time the postmodern times in which we live are characterized by a proliferating of differences so that the binary oppositional borders that have been maintained and policed through schooling and that are central to maintaining highly inequitable power relations and rigid gender roles are being challenged resisted and in other ways profoundly destabilized by young people today

Jessica Ringrose, 2012-08-21 This book challenges a contemporary postfeminist sensibility grounded not only in assumptions that gender and sexual equality has been achieved in many Western contexts but that feminism has gone too far with women and girls now overtaking men and boys positioned as the new victims of gender transformations The book is the first to outline and critique how educational discourses have directly fed into postfeminist anxieties exploring three postfeminist panics over girls and girlhood that circulate widely in the international media and popular culture First it explores how a masculinity crisis over failing boys in school has spawned a backlash discourse about overly successful girls second it looks at how widespread anxieties over girls becoming excessively mean and or violent have positioned female aggression as pathological third it examines how incessant concerns over controlling risky female sexuality underpin recent sexualisation of girls moral panics The book outlines how these postfeminist panics over girlhood have influenced educational policies and practices in areas such as academic achievement anti bullying strategies and sex education curriculum making visible the new postfeminist sexual politics of schooling Moving beyond media or policy critique however this book offers new theoretical and methodological tools for researching postfeminism girlhood and education It engages with current theoretical debates over possibilities for girls agency and empowerment in postfeminist neo liberal contexts of sexual regulation It also elaborates new psychosocial and feminist

Deleuzian methodological approaches for mapping subjectivity affectivity and social change Drawing on two UK empirical research projects exploring teen aged girls own perspectives and responses to postfeminist panics the book shows how real girls are actually negotiating notions of girls as overly successful mean violent aggressive and sexual The data offers rich insight into girls gendered raced and classed experiences at school and beyond exploring teen peer cultures friendship offline and online sexual identities and bullying and cyberbullying The analysis illuminates how and when girls take up and identify with postfeminist trends but also at times attempt to re work challenge and critique the contradictory discourses of girlhood and femininity In this sense the book offers an opportunity for girls to talk back to the often simplistic either wildly celebratory or crisis based sensationalism of postfeminist panics over girlhood This book will be essential reading for those Rethinking Gender in Development Practice Emily interested in feminism girlhood media studies gender and education Finlay, Patrick Kilby, Rochelle Spencer, Joyce Wu, 2024-07-12 Rethinking Gender in Development Practice is about the ways in which issues of gender including violence against women and girls entrenched gender roles and expectations the exclusion of non binary genders and the participation of disempowered genders affect and are affected by development practice This volume which pulls together papers from Development in Practice provides accounts from researchers and practitioners working with women in countries from Africa to the Pacific The book offers a global perspective but with the inclusion of local voices on the way gender can impact daily living in the Global South This book includes groundbreaking articles by some of development studies most well known scholars which are interspersed with more recent publications that address urgent issues of gender in development practice Targeted at development practitioners and academics from across the world this book reveals the plight of those from the Global South who do not identify as men and offers examples of how NGOs targeted programs enhanced participation in decision making processes and the interrogation of established discourse on gender can assist in transforming lives
