Gendering World Politics:

Gendering World Politics J. Ann Tickner, 2001-05-22 Expanding on the issues she originally explored in her classic work *Gender in International Relations* J Ann Tickner focuses her distinctively feminist approach on new issues of the international relations agenda since the end of the Cold War such as ethnic conflict and other new security issues globalizations democratization and human rights As in her previous work these topics are placed in the context of brief reviews of more traditional approaches to the same issues She also looks at the considerable feminist work that has been published on these topics since the previous book came out Tickner highlights the misunderstandings that exist between mainstream and feminist approaches and explores how these debates developed in the new environment of post Cold War international relations Acclaim for Tickner's *Gender in International Relations* For all who seek new ways to think about and understand world politics Political Science Quarterly Tickner rethinks from a feminist point of view virtually every conventional category used by theorists and practitioners of international relations Susan Moller Okin Stanford University *Gender in International Relations* J. Ann Tickner, 1992 Political Science Quarterly *Sexualities in World Politics* Manuela Lavinas Picq, Markus Thiel, 2015-05-15 As LGBTQ claims acquire global relevance how do sexual politics impact the study of International Relations This book argues that LGBTQ perspectives are not only an inherent part of world politics but can also influence IR theory making LGBTQ politics have simultaneously gained international prominence in the past decade achieving significant policy change and provoked cultural resistance and policy pushbacks Sexuality politics more so than gender based theories arrived late on the theoretical scene in part because sexuality and gender studies initially highlighted post structuralist thinking which was hardly accepted in mainstream political science This book responds to a call for a more empirically motivated but also critical scholarship on this subject It offers comparative case studies from regional cultural and theoretical peripheries to identify ways of rethinking IR Further it aims to add to critical theory broadening the knowledge about previously unrecognized perspectives in an accessible manner Being aware of preoccupations with the de queering disciplining nature of theory establishment in the social sciences we critically reconsider IR concepts from a particular LGBTQ vantage point and infuse them with queer thinking Considering the relative dearth of contemporary mainstream IR theorizing authors ask what contribution LGBTQ politics can provide for conceiving the political subject as well as the international structure in which activism is embedded This book will be of interest to students and scholars of gender politics cultural studies and international relations theory *Introduction to International Relations* Joyce P. Kaufman, 2022-02-23 This clear and concise text introduces four key theoretical frameworks that form the foundation of international relations realism liberalism constructivism and feminist theory and uses levels of analysis as the primary unifying force to explain contemporary global politics Cases on climate change gender peace and security migration and the rise of China illustrate Kaufman's approach The third edition explains core issues in international relations such as the

interaction of nations in a globalized world the growing threat posed by non state actors and civil conflicts and the need for countries to work together to counter what have been called existential crises such as climate change which threaten human lives and the planet Significant revisions focus on discussion of democratic backsliding the Covid 19 pandemic cyberterrorism and cyberwar changes to the European Union and expanded coverage of international political economy

Gendering Global Conflict Laura Sjoberg, 2013-08-13 Laura Sjoberg positions gender and gender subordination as key factors in the making and fighting of global conflict Through the lens of gender she examines the meaning causes practices and experiences of war building a more inclusive approach to the analysis of violent conflict between states Considering war at the international state substate and individual levels Sjoberg's feminist perspective elevates a number of causal variables in war decision making These include structural gender inequality cycles of gendered violence state masculine posturing the often overlooked role of emotion in political interactions gendered understandings of power and states mistaken perception of their own autonomy and unitary nature Gendering Global Conflict also calls attention to understudied spaces that can be sites of war such as the workplace the household and even the bedroom Her findings show gender to be a linchpin of even the most tedious and seemingly bland tactical and logistical decisions in violent conflict Armed with that information Sjoberg undertakes the task of redefining and reintroducing critical readings of war's political economic and humanitarian dimensions developing the beginnings of a feminist theory of war

Gender, Race, and Power Joyce P. Kaufman, Kristen P. Williams, 2024-10-02 Kaufman and Williams present critical issues in international relations through an intersectional approach that examines race gender class ethnicity and power to arrive at better explanations for such core IR issues as war and peace security human rights development and international political economy and the global environment Their approach builds on early calls amongst feminist IR theorists imploring Where are the women It is only fairly recently that students of IR have broadened the approach to the field to incorporate the dimensions of race ethnicity and class as well as gender Kaufman and Williams help guide readers exploring questions like How does gender matter for understanding war and peace How does race matter Where are the men What is intersectionality in IR How does an intersectional approach change or broaden our understanding of international relations

The Ethics of Care Virginia Held, 2006 The author assesses the ethics of care as a promising alternative to the familiar moral theories that serve so inadequately to guide our lives Held examines what we mean by care and focuses on caring relationships She also looks at the potential of care for dealing with social issues and global problems

Women, the State, and War Joyce P. Kaufman, Kristen P. Williams, 2007-01-01 Women the State and War looks at the intersection of gender citizenship and nationalism marriage intermarriage and how states gender that relationship and the ways in which women are used as symbols to reinforce or further nationalistic goals Women have long struggled with issues of citizenship identity and the challenge of being recognized as equal members of the community Governments use feminine imagery e.g mother country to create a national

identity while simultaneously minimizing the role that women play as productive contributors to the society Authors Joyce P Kaufman and Kristen P Williams examine the relationship of government and women in four different countries the United States Israel the former Yugoslavia and Northern Ireland In each case numerous similarities appear conflict plays a significant role in the definition of citizenship for women women s movements have worked in contradiction to the state and citizenship and marriage are gendered undertakings Environmental Security Rita Floyd, Richard A. Matthew, 2013 Economic development population growth and poor resource management have combined to alter the planet s natural environment in dramatic and alarming ways The field of environmental security has matured in response to improved scientific understanding of the causes and trends of global environmental change Research conducted in the past two decades has grappled with this core set of questions in a variety of ways generating findings and hypotheses that have stimulated considerable intellectual and policy activity This volume takes stock of the research and organizes it into a framework described in the first chapter of the volume that clarifies its achievements as well as identifies its weaknesses and gaps This is followed by seven chapters representing the various ways in which environmental change and security have been linked and including the principal critiques of this linkage A third section explores six key issue areas water population development food energy and climate change The book concludes with a chapter on the future of environmental security

Militant Citizenship Belinda A. Stillion Southard, 2011 In *Militant Citizenship Rhetorical Strategies of the National Woman s Party 1913-1920* Belinda A. Stillion Southard explores the ways in which the militant NWP negotiated institutional opposition and secured such a prominent position in national politics **The Globalization of World Politics** John Baylis, Steve Smith, Patricia Owens, 2008 Now in its fourth edition this title has been fully revised and updated in the light of recent developments in world politics with new chapters on the changing nature of war human security and international ethics **International Politics**, 2008 **International Security: Debating security and strategy and the impact of 9-11** Barry Buzan, Lene Hansen, 2007 **Engendering International Relations** Jacqui True, 2002 **The Brown Journal of World Affairs**, 2003 *Global Political Economy* Theodore H. Cohn, 2008 Praised for its authoritative coverage of theory and history *Global Political Economy* places the study of IPE in the broadest global context Written by one of the field s leading scholars this text helps students understand the fundamental importance of international political economy and make sense of current events in the global economy Its three areas of focus globalization North North relations and North South relations encourage students to connect theory and history with practice explore domestic and international economic interactions and examine the critical relationship between economic and security issues Gender and International Relations J. D. Kenneth Boutin, 1994 **International Affairs**, 2002 *International Journal*, 2002 **The British National Bibliography** Arthur James Wells, 2003
