First Of Hearts Selected Letters Of Mrs Henry Adams:

First of Hearts Ward Thorton, 2011 *Henry Adams, Selected Letters* Henry Adams, 1992 Henry Adams has been called an indispensable figure in American thought Although he famously took his own life in the autobiographical *Education of Henry Adams* his letters more intimate and unbuttoned though hardly unselfconscious are themselves indispensable for an understanding of the man and his times This selection the first based on the authoritative 6 volume *Letters* represents every major private and public event in Adams's life from 1858 to 1918 and confirms his reputation as one of the greatest letter writers of his time Adams knew everyone who was anyone and went almost everywhere and true to the Adams family tradition recorded it all These letters to an array of correspondents from American presidents to Henry James to 5 year old honorary nieces reveal Adams's passion for politics and disdain for politicians his snobbish delight in society and sincere affection for friends his pose of dilettantism and his serious ambitions as writer and historian his devastation at his wife's suicide and his acquiescence in the role of Elizabeth Cameron's tame cat his wicked humor at others expense and his own reflexive self depreciation This volume allows the reader to experience 19th century America through the eyes of an observer on whom very little was lost and to make the acquaintance of one of the more interesting personalities in American letters As Ernest Samuels says in his introduction The letters lift the veil of old age disenchantment that obscures the *Education* and exhibit Adams as perhaps the most brilliant letter writer of his time What most engages one in the long course of his correspondence is the tireless range of his intellectual curiosity his passionate effort to understand the politics the science and the human society of the world as it changed around him It is as literature of a high order that his letters can finally be read

Washington Tom Lewis, 2015-10-13 On January 24 1791 President George Washington chose the site for the young nation's capital ten miles square it stretched from the highest point of navigation on the Potomac River and encompassed the ports of Georgetown and Alexandria From the moment the federal government moved to the District of Columbia in December 1800 Washington has been central to American identity and life Shaped by politics and intrigue poverty and largess contradictions and compromises Washington has been from its beginnings the stage on which our national dramas have played out In Washington the historian Tom Lewis paints a sweeping portrait of the capital city whose internal conflicts and promise have mirrored those of America writ large Breathing life into the men and women who struggled to help the city realize its full potential he introduces us to the mercurial French artist who created an ornate plan for the city en grande members of the nearly forgotten anti Catholic political party who halted construction of the Washington monument for a quarter century and the cadre of congressmen who maintained segregation and blocked the city's progress for decades In the twentieth century Washington's Mall and streets would witness a Ku Klux Klan march the violent end to the encampment of World War I Bonus Army veterans the 1963 March on Washington for Jobs and Freedom and the painful rebuilding of the city in the wake of Martin Luther King Jr's assassination It is our national center Frederick Douglass once said of Washington

DC it belongs to us and whether it is mean or majestic whether arrayed in glory or covered in shame we cannot but share its character and its destiny Interweaving the story of the city's physical transformation with a nuanced account of its political economic and social evolution Lewis tells the powerful history of Washington DC the site of our nation's highest ideals and some of our deepest failures *Marching Home: Union Veterans and Their Unending Civil War* Brian Matthew

Jordan, 2015-01-26 Finalist for the Pulitzer Prize in History Winner of the Gov John Andrew Award Union Club of Boston An acclaimed groundbreaking and powerful exploration Washington Post of the fate of Union veterans who won the war but couldn't bear the peace For well over a century traditional Civil War histories have concluded in 1865 with a bitterly won peace and Union soldiers returning triumphantly home In a landmark work that challenges sterilized portraits accepted for generations Civil War historian Brian Matthew Jordan creates an entirely new narrative These veterans tending rotting wounds battling alcoholism campaigning for paltry pensions tragically realized that they stood as unwelcome reminders to a new America eager to heal forget and embrace the freewheeling bounty of the Gilded Age Mining previously untapped archives Jordan uncovers anguished letters and diaries essays by amputees and gruesome medical reports all deeply revealing of the American psyche In the model of twenty first century histories like Drew Gilpin Faust's *This Republic of Suffering* or Maya Jasanoff's *Liberty's Exiles* that illuminate the plight of the common man *Marching Home* makes almost unbearably personal the rage and regret of Union veterans Their untold stories are critically relevant today *The Clocks Are Telling Lies* Scott Alan Johnston, 2022-01-15 Until the nineteenth century all time was local time On foot or on horseback it was impossible to travel fast enough to care that noon was a few minutes earlier or later from one town to the next The invention of railways and telegraphs however created a newly interconnected world where suddenly the time differences between cities mattered *The Clocks Are Telling Lies* is an exploration of why we tell time the way we do demonstrating that organizing a new global time system was no simple task Standard time envisioned by railway engineers such as Sandford Fleming clashed with universal time promoted by astronomers When both sides met in 1884 at the International Meridian Conference in Washington DC to debate the best way to organize time disagreement abounded If scientific and engineering experts could not agree how would the public Following some of the key players in the debate Scott Johnston reveals how people dealt with the contradictions in global timekeeping in surprising ways from zealots like Charles Piazza Smyth who campaigned for the Great Pyramid to serve as the prime meridian to Maria Belville who sold the time door to door in Victorian London to Moraviantown and other Indigenous communities that used timekeeping to fight for autonomy Drawing from a wide range of primary sources *The Clocks Are Telling Lies* offers a thought provoking narrative that centres people and politics rather than technology in the vibrant story of global time telling **Wilde in America** David M.

Friedman, 2014-09-29 The story of Oscar Wilde's landmark 1882 American tour explains how this quotable literary eminence became famous for being famous On January 3 1882 Oscar Wilde a twenty seven year old genius at least by his own

reckoning arrived in New York The Dublin born Oxford man had made such a spectacle of himself in London with his eccentric fashion sense acerbic wit and extravagant passion for art and home design that Gilbert he was a strategist From his antics in London to his manipulation of the media Wilde gave 100 interviews in America more than anyone else in the world in 1882 he designed every move to increase his renown There had been famous people before him but Wilde was the first to become famous for being famous Wilde in America is an enchanting tale of travel and transformation comedy and capitalism an unforgettable story that teaches us about our present as well as our past **The Unexpected President** Scott S.

Greenberger,2017-09-12 Vibrant narrative and fetching personal profiles transform a biography about a overlooked political figure into an unexpectedly gratifying read New York Times When President James Garfield was shot in 1881 nobody expected Vice President Chester A Arthur to become a strong and effective president a courageous anti corruption reformer and an early civil rights advocate For years Arthur had been perceived as unfit to govern not only by critics and the vast majority of his fellow citizens but by his own conscience As President James A Garfield struggled for his life Arthur knew better than his detractors that he failed to meet the high standard a president must uphold And yet from the moment President Arthur took office he proved to be not just honest but brave going up against the very forces that had controlled him for decades He surprised everyone and gained many enemies when he swept house and took on corruption civil rights for blacks and issues of land for Native Americans A mysterious young woman deserves much of the credit for Arthur s remarkable transformation Julia Sand a bedridden New Yorker wrote Arthur nearly two dozen letters urging him to put country over party to find the spark of true nobility that lay within him At a time when women were barred from political life Sand s letters inspired Arthur to transcend his checkered past and changed the course of American history This beautifully written biography tells the dramatic untold story of a virtually forgotten American president An entertaining illuminating biography Wall Street Journal Greenberger convincingly presents a machine politician transformed by the responsibility of high office Boston Globe
