Five Years Of My Life An Innocent Man In Guantanamo:

Five Years of My Life Murat Kurnaz, 2008-04 Publisher Description *The Least Worst Place* Karen J. Greenberg, 2010 In January 2002 the first detainees of the War on Terror disembarked in Guantanamo Bay dazed bewildered and more often than not alarmingly thin With little advance notice the military's preparations for this group of predominantly unimportant ne'er-do-wells were hastily thrown together but as Karen Greenberg shows a number of capable and honorable Marine officers tried to create a humane and just detention center Greenberg a leading expert on the Bush Administration's policies on terrorism tells the story of the first one hundred days of Guantanamo through a group of career officers who tried and ultimately failed to stymie the Pentagon's desire to implement harsh new policies and bypass the Geneva Conventions The latter ultimately won out replacing transparency with secrecy military protocol with violations of basic operation procedures and humane and legal detainee treatment with harsh interrogation methods and torture patterns of power that would come to dominate the Bush administration's overall strategy From publisher description *Law's Detour* Peter Margulies, 2010-04-01 From the Justice Department's memos defending coerced interrogation to Alberto Gonzales firing of U.S. Attorneys who did not fit the Bush Administration's political needs *Law's Detour* paints an alarming picture of the many detours that George W. Bush and his allies created to thwart transparency and undermine the rule of law after September 11 2001 Pursuing those detours Bush officials set up a law free zone at Guantanamo ordered massive immigration raids that separated families and screened candidates for civil service jobs to ensure the hiring of real Americans While government needs flexibility to address genuine risks to national security which certainly exist in the post 9/11 world the Bush Administration's use of detours distracted the government from urgent priorities tarnished America's reputation and threatened voting and civil rights In this comprehensive analysis of Bush officials efforts to stretch and strain the justice system Peter Margulies canvasses the costs of the Administration's many detours from resisting accountability in the war on terrorism to thwarting economic and environmental regulation Concise and full of compelling anecdotes *Law's Detour* maps these aberrations surveys the damage done and reaffirms the virtues of transparency and dialog that the Bush administration dismissed *Liberal Democracies at War* Andrew Knapp, Hilary Footitt, 2013-09-26 An analysis of how 20th Century wars have been represented and misrepresented to Western publics **Bodies as Evidence** Mark Maguire, Ursula Rao, Nils Zurawski, 2018-11-30 Through global case studies that explore biometric identification border control forensics militarized policing and counterterrorism the contributors show how bodies have become critical sources of evidence that is organized and deployed to classify recognize and manage human life *Law and Anthropology* Michael D. A. Freeman, David Napier, 2009-11-19 *Law and Anthropology* the latest volume in the Current Legal Issues series offers an insight into the state of law and anthropology scholarship today Focussing on the inter connections between the two disciplines it also includes case studies from around the world **The Society of Prisoners** Renaud Morieux, 2019 Very little has been written of the

history of prisoners of war before the twentieth century and Renaud Morieux seeks to correct this in this new history of war captivity in the eighteenth century mining archives in Britain and France to take a fresh look at international relations through the histories of prisoners and host communities *Neo-Nazi Postmodern* Esther Elizabeth Adaire, 2024-03-21 From the violent skinhead protests of the early 1990s to the National Socialist Underground murder spree of the 2000s and the KSK Kommando Spezialkräfte scandal of 2020 this book traces Germany's long struggle to suppress a resurgent and ever more terroristic far right scene Esther Elizabeth Adaire analyses the electoral success of the AfD Alternative für Deutschland party in 2017 the growing presence of PEGIDA on German streets and the anti COVID lockdown protests led by conspiracy theorist groups such as Querdenken which have taken aback liberal onlookers for whom Germany's robust culture of Holocaust consciousness is supposed to provide a panacea against neo Nazism Adaire examines how since unification the intellectual Neue Rechte has increasingly destabilized the foundations of historical memory and lesson learning in Germany often doing so in the pages of mainstream conservative publications Neo Nazi Postmodern convincingly contends that far right intellectuals joined by notable left wing apostates who brought with them an anti establishment critique borrowed from the language of postmodernism have since the early 1990s excused and justified an increasingly violent far right youth scene even becoming leaders of this scene themselves The book therefore traces the development of today's German far right throughout several stages notable scandals and the ongoing destabilization of memory and truth from unification onwards showing how previously disparate groups such as neo Nazis Neue Rechte intellectuals and political fringe parties merged over time This far right scene Adaire adeptly demonstrates has come to embody what the historian Walter Laqueur once dubbed Postmodern Terrorism a mixture of cell based terror structures reliance on Internet technologies for organizational purposes and the sowing of epistemic chaos via informational warfare **Law's Trials** Richard L. Abel, 2018-08-09 The US war on terror has repeatedly violated fundamental rule of law values When executive and legislature commit such egregious wrongs courts represent the ultimate defense Law's Trials The Performance of Legal Institutions in the US War on Terror offers the first comprehensive account of judicial performance during the sixteen years of the Bush and Obama administrations Abel examines criminal prosecutions of alleged terrorists courts martial of military personnel accused of law of war violations military commission trials of high value detainees habeas corpus petitions by Guantanamo detainees civil damage actions by victims of both the war on terror and terrorism and civil liberties violations by government officials and Islamophobic campaigners Law's Trials identifies successful defenses of the rule of law through qualitative and quantitative analyses comparing the behavior of judges within and between each category of cases and locating those actions in a comparative history of efforts to redress fundamental injustices **Torture** Shampa Biswas, Zahi Zalloua, 2011-12-01 The counterterrorism policies following September 11 2001 brought the definition and legitimacy of torture to the forefront of political military and public debates This timely volume explores the question of torture through multiple lenses by situating

it within systems of belief social networks of power and ideological worldviews Individual essays examine the boundaries of what is deemed legitimate political violence for the sake of state security the immediate and long term effects of torture on human and social bodies the visual and artistic representations of torture how certain people are dehumanized to make it acceptable to torture them and how we understand complicity in and the ethical boundaries of torture **Traumatic**

Biopolitics of the More-Than-Human Joseph Pugliese,2020-10-23 In *Biopolitics of the More Than Human* Joseph Pugliese examines the concept of the biopolitical through a nonanthropocentric lens arguing that more than human entities from soil and orchards to animals and water are actors and agents in their own right with legitimate claims to justice Examining occupied Palestine Guantamo and sites of US drone strikes in Afghanistan Pakistan Somalia and Yemen Pugliese challenges notions of human exceptionalism by arguing that more than human victims of war and colonialism are entangled with and subject to the same violent biopolitical regimes as humans He also draws on Indigenous epistemologies that invest more than human entities with judicial standing to argue for an ethico legal framework that will enable the realization of ecological justice Bringing the more than human world into the purview of justice Pugliese makes visible the ecological effects of human war that would otherwise remain outside the domains of biopolitics and law *Losing Trust in the World* Leonard Grob,John K. Roth,2016-12-05 In July 1943 the Gestapo arrested an obscure member of the resistance movement in Nazi occupied Belgium When his torture inflicting interrogators determined he was no use to them and that he was a Jew he was deported to Auschwitz Liberated in 1945 Jean Amry went on to write a series of essays about his experience No reflections on torture are more compelling Amry declared that the victims of torture lose trust in the world at the very first blow The contributors to this volume use their expertise in Holocaust studies to reflect on ethical religious and legal aspects of torture then and now Their inquiry grapples with the euphemistic language often used to disguise torture and with the question of whether torture ever constitutes a necessary evil Differences of opinion reverberate raising deeper questions Can trust be restored What steps can we as individuals and as a society take to move closer to a world in which torture is unthinkable State Violence and the Execution of Law Joseph Pugliese,2013-03-20 State Violence and the Execution of Law stages a provocative analysis of how the biopolitical divide between human and animal has played a fundamental role in enabling state violence including torture secret imprisonment and killing at a distance via drones Analyzing the complex ways in which the United States government deploys law in order to consolidate and further imperial relations of power Pugliese tracks the networks that enable the diffusion and normalization of the state's monopoly of violence both in the US and in an international context He demonstrates how networks of state violence are embedded within key legal institutions military apparatuses civilian sites corporations carceral architectures and advanced technologies The author argues that the exercise of state violence as

unleashed by the war on terror has enmeshed the subjects of the Global South within institutional and discursive structures that position them as non human animals that can be tortured killed and disappeared with impunity Drawing on poststructuralist critical race and whiteness and critical legal theories the book is transdisciplinary in its approach and value It will be invaluable to university students and scholars in Critical Legal and Socio Legal Studies Cultural Studies Race and Ethnicity Studies International Politics and Postcolonial Studies *Torture, Intelligence and Sousveillance in the War on Terror* Vian Bakir,2016-02-24 Torture Intelligence and Sousveillance in the War on Terror examines the communication battles of the Bush and Blair political administrations and those of their successors in America and Britain over their use of torture first hand or second hand to gain intelligence for the War on Terror Exploring key agenda building drivers that exposed the torture intelligence nexus and presenting detailed case studies of key media events from the UK and USA this insightful volume exposes dominant political discourses on the torture for intelligence policy Whether in the form of unauthorized leaks official investigations investigative journalism real time reporting or Non Governmental Organisation activity this timely study evaluates various modes of resistance to governments attempts at strategic political communication with particular attention to sousveillance community based recording from first person perspectives A rigorous exposition of the power knowledge relationships constituting the torture intelligence nexus which re evaluates agenda building models in the digital age and assesses the strength of the public sphere across the Third Fourth and Fifth Estates Torture Intelligence and Sousveillance in the War on Terror will appeal to scholars across the social sciences with interests in media and communication sociology and social theory politics and political communication international relations and journalism

Queer Terror C. Heike Schotten,2018-08-21 After Sept 11 2001 George W Bush declared Either you are with us or you are with the terrorists Bush s assertion was not simply jingoist bravado it encapsulates the civilizationalist moralism that has motivated and defined the United States since its beginning linking the War on Terror to the nation s settlement and founding In *Queer Terror* C Heike Schotten offers a critique of U S settler colonial empire that draws on political queer and critical indigenous theory to situate Bush s either or moralism and reframe the concept of terrorism The categories of the War on Terror exemplify the moralizing politics that insulate U S empire from critique render its victims deserving of its abuses and delegitimize resistance to it as unthinkable and perverse Schotten provides an anatomy of this moralism arguing for a new interpretation of biopolitics that is focused on sovereignty and desire rather than racism and biology This rethinking of biopolitics puts critical political theory of empire in dialogue with the insights of both native studies and queer theory Building on queer theory s refusal of sanctity propriety and moralisms of all sorts Schotten ultimately contends that the answer to Bush s ultimatum is clear dissidents must reject the false choice he presents and stand decisively against us rejecting its moralism and the sanctity of its life in order to further a truly emancipatory decolonizing queer politics **9/11 in European Literature** Svenja Frank,2017-11-28 This volume looks at the representation of 9 11 and the resulting wars in

European literature In the face of inner European divisions the texts under consideration take the terror attacks as a starting point to negotiate European as well as national identity While the volume shows that these identity formations are frequently based on the construction of two Others the US nation and a cultural ethnic idea of Muslim communities it also analyses examples which undermine such constructions This much more self critical strand in European literature unveils the Eurocentrism of a supposedly general humanistic value system through the use of complex aesthetic strategies These strategies are in itself characteristic of the European reception as the Anglo Irish British Dutch Flemish French German Italian and Polish perspectives collected in this volume perceive of the terror attacks through the lens of continental media and semiotic theory

Trading Secrets Mark Huband, 2012-12-14 Today s intelligence community faces challenges that would have been inconceivable only a dozen years ago Just as al Qaeda s destruction of the Twin Towers heralded a revolution in global diplomacy the events of 9 11 also threw two centuries of spy craft into turmoil because this new enemy could not be bought Gone were the sleepers and moles whose trade in secrets had sustained intelligence agencies in both peacetime and war A new method of intelligence had been born The award winning former Financial Times security correspondent Mark Huband here takes us deep inside this new unseen world of spies and intelligence With privileged access to intelligence officers from Rome to Kabul and from Khartoum to Guantanamo Bay he reveals how spies created secret channels to the IRA deceived Iran s terrorist allies frequently attempted to infiltrate al Qaeda and forced Libya to abandon its nuclear weapons Using accounts from ex KGB officers Huband vividly describes the devastation caused by the West s misreading of Soviet intentions in Africa and explains how ill prepared western intelligence agencies were when the Cold War was replaced by the perception of a new terrorist threat Benefiting from privileged access to intelligence sources across the world Trading Secrets provides a unique and controversial assessment of the catastrophic failure of spies to grasp the realities of the Taliban s grip on Afghanistan and draws upon exclusive interviews with serving officers in assessing the ability of the major intelligence agencies to combat the threat of twenty first century terrorism
