Gender Stories Negotiating Identity In A Binary World:

Gender Stories Sonja K. Foss, Mary E. Domenico, Karen A. Foss, 2012-06-06 Essential for anyone who seeks to understand the contemporary gender landscape Gender Stories defines gender as the socially constructed meanings that are assigned to bodies The book helps readers navigate issues of gender by introducing them to the ubiquitous gender binary the problems with much of the research on gender differences and the variety of gender stories in popular culture At the heart of the book is a description of the process of becoming a gendered person through crafting and performing gender stories Because each gender performance is unique a virtually unlimited number of genders exists not just two as the gender binary would have us believe The same multiplicity that characterizes the gender landscape characterizes the individual who typically changes gender multiple times a day and across the lifespan In Gender Stories personal gender performances are framed within a philosophy of choice Readers are encouraged to become more conscious of the choices they have in constructing their gender identities and to allow others the same choice by respecting their gender performances Readers will easily find a place for themselves in the book regardless of their views on gender because one perspective on gender is not presented as the right one Gender Stories affirms and legitimizes diverse perspectives as providing more comprehensive knowledge about gender for everyone *Lesbian, Queer, and Bisexual Women in Heterosexual Relationships* Ahoo

Tabatabai, 2015-10-29 This book draws on interviews with women who left relationships with women to begin relationships with men and uncovers how the women make sense of who they are The women who leave female partners to begin relationships with male partners have the capacity to redefine their sexual identity They can essentially call themselves whatever they want However their capacity for such a creative process is limited In the process of framing their decision in a way that renders their claim to a stable identity legitimate the women communicate their understandings of notions of identity community and belonging The women also show a nuanced regard for sexual categories They stretch the boundaries of some categories while preserving and even policing the boundaries of other categories This book is in no way an ex gay narrative It is entirely the voices of feminist queer women who find themselves viewed by society as heterosexual but who themselves with two exceptions do not identify as such This book is a rich collection of wonderfully human stories about what it means to be true to oneself **The SAGE Encyclopedia of Communication Research Methods** Mike Allen, 2017-04-11

Broken Branches Latashia Nicole Harris, 2019-03-15 Broken Branches places a critical lens on the infrastructure institutions social processes and practices that govern our society The text examines the ways that neoliberalism influences society and our lives across generations The practice of colonialism is deconstructed showing how this practice has been renamed but holds steadfast to its original intention of cultivating institutionalized oppression that feeds social perception The author exposes the ways that social perceptions juxtaposed semantics commonly accepted definitions practices rhetoric and propaganda create products of maintained systemic injustice when resistance is absent and desensitization is prevalent Colonialism and its consequential social reproductions of oppression continue to traverse across land body and mind in individual as well as collective contexts Broken Branches explores the tributaries of oppression but also highlights the source of oppression within the United States The philosophical intersectional and feminist approach of critical analysis lays the framework for further interrogation and utilizes the catalyst of historical precedence to initiate this introduction The author implores the reader to take introspective steps towards understanding where one's own complicity exists in oppression as well and addresses the cognitive dissonance we have become accustomed to in perpetuating oppression Broken Branches offers suggestions on how to forge forward to create substantive and structural change that is not contingent on the dispossession and oppression of the marginalized so that the health and vitality of a few is sustained Broken Branches encourages the practice of continuous inquiry and acknowledges that transformation is not possible without change The author pushes for collectively empowered marginalized

voices operationalized pathways to inclusion intersectional and equitable perspectives and an increased investment in healing the trauma caused by the perpetuation of colonialism **New Books on Women and Feminism**, 2015 Die Wirkungskraft der Krise Severina Laubinger, 2020-07-20 Die Krise ist ein omnipräsentes Phänomen in unserer Gesellschaft. Was eine Krise jedoch grundlegend charakterisiert wurde, von der Forschung bislang nur unzureichend ermittelt. Dieser Lücke nimmt sich das Buch an. Die Sichtweise der Rhetorik als Erforschung strategischer Kommunikationsprozesse ist dafür eine hilfreiche Ausgangslage. Zeitgleich existieren ganz unterschiedliche Krisenauffassungen. Wir müssen daher stets beachten, wann von einer Krise spricht. Eine groß angelegte Korpusanalyse der Parteiprogramme in der BRD von 1949 bis 2017 ermöglicht den Krisen-Topos unter Beachtung unterschiedlicher ideologisch motivierter Perspektiven näher zu beleuchten. Die Krise ist ein argumentativer Joker, mit dem sich politische Reformen begründen lassen, eigene Verdienste gelobt werden können und die Versäumnisse des politischen Gegners angeprangert werden können. Mithilfe des Krisen-Topos decken die Parteien vermeintlich lang verschüttete Missstände auf und rufen zu Wandel und Neuausrichtung auf. Die Ergebnisse der Analyse können sowohl genutzt werden, um Krisendiskurse zukünftig besser zu verstehen, als auch um sie aktiv mitzugestalten.

De la picaresca als viodejocs Maria Àngels Viladot, 2014-02-13 Els infants, els nens i les nenes han estat percebuts al llarg de la història com a éssers angelicals, com a adults en miniatura, com a hereus del pecat, com a éssers sense valor, passius, com a joies intocables, fins que al final s'han acabat considerant individus socials de ple dret, condició establerta en la Convenció dels Drets de l'Infant de l'ONU l'any 1989. L'autora ens presenta una anàlisi dels processos històrics socials i culturals que s'han a les arrels de les representacions socials de la infància de l'edat mitjana fins arribar al segle XVI. Després s'aborda els segles XVII el reformisme religiós del Barroc i XVIII la Il·lustració quan dos filòsofs John Locke 1632-1704 i Jean-Jacques Rousseau 1712-1778 prenen una importància rellevant en els canvis de mentalitat dels adults sobre els infants i la infantesa. Més endavant tracta la problemàtica de les criatures pobres en general i més específicament la flagrant situació de les nenes i de les nenes pobres. Aborda els segles XIX i XX quan els infants passen de la seva situació de treballadors a la d'escolars i la gran importància que han tingut els feminismes en la nova definició de família i concepció dels infants. Finalment Viladot debat la situació actual de la infantesa, la del segle XXI, els seus problemes, les pors i ansietats que genera en els adults, la relació amb la família actual, la interrelació que manté amb les noves tecnologies.
