## **Gender On Campus Issues For College Women:**

**Gender on Campus** Sharon Gmelch, 1998 Gender on Campus is the first book to combine solid analyses of the broad range of gender issues for women in college with realistic approaches to heighten awareness and alleviate problems. Written for students, the book first clarifies the concept of feminism and then examines gender dynamics in a variety of settings and contexts from the classroom to the sports field and from language to social life. Sharon Gmelch probes sexism, racism, and homophobia on campus and surveys the special issues facing diverse women students. The book also addresses issues relating to body image and sexuality. Its final chapters analyze the role gender continues to play after college in the media, workplace, and politics. After a thorough discussion of a topic, each chapter concludes with possibilities for action. What You Can Do, as well as a selected bibliography of books, videos, and organizations that students can consult. Gender on Campus is an invaluable resource for students, parents, and administrators as well as an excellent text for women's studies courses.

**Law and Social Justice in Higher Education** Crystal Renée Chambers, 2016-11-25 The latest volume in the Core Concepts in Higher Education series explores the complexity of law in higher education and both the limits and opportunities of how law can promote inclusivity and access on campus. Through a historical and legal framework, this volume discusses undergraduate students' histories of inclusion and struggles for social justice in higher education by race, sex, social class, disability, and sexual orientation. Bridging research, theory, and practice, Law and Social Justice in Higher Education encourages future and current higher education and student affairs practitioners to consider how they can collaborate to further a just society. Special features: Discussion of case law illustrates the reach and limits of law and where higher education professionals can continue to push for social justice. Accessible to non-lawyers, chapters highlight key legal terms and key concepts to guide readers at the beginning of each chapter. End of chapter questions provide prompts for discussion and encourage student interactivity.

**Troubling Intersections of Race and Sexuality** Kevin K. Kumashiro, 2001-06-26 In recent years, researchers have considerably expanded our understanding of the experiences of students of color and of students who are gay, lesbian, bisexual, transgendered, and questioning (i.e., Queer). They have provided us with rich resources for addressing racism and heterosexism; however, few have examined the unique experiences of students who are both queer and of color, and few have examined the heterosexist or white-centered nature of anti-racist or anti-heterosexist education, respectively. What of the students and educators who live and teach at the intersection of race and sexuality? By combining autobiographical accounts with qualitative and quantitative research on queer students of different racial backgrounds, these essays not only trouble the ways we think about the intersections of race and sexuality, they also offer theoretical insights and educational strategies to educators committed to bringing about change.

**College Women Or College Girls?** Renee Nicole Lansley, 2004 Abstract Undergraduate women s struggles to terminate the university s role in loco parentis represented a revolutionary moment on American campuses in the 1960s Though the end results were strikingly similar across regions and schools the paths to change were very different on historically black college campuses when compared to predominantly white college campuses Challenges to in loco parentis regulations took place earlier on coeducational campuses than at women s colleges At each college or university students forged a common language of rights to rescind long standing non academic regulations Student protests against in loco parentis policies emerged out of widespread civil rights activism and Black Power ideology by mid decade at Howard University in Washington D C and at Spelman College in Atlanta Georgia Undergraduate women framed arguments against in loco parentis rules in terms of civil rights and student respectability successfully to dismantle non academic regulations on campus by the late sixties On predominantly white campuses the tradition of student self government influenced the shape and tone of women s anti in loco parentis protests The movement to end the role of the university in place of the parent harbingered the women s rights movement of the late 1960s at the Ohio State University in Columbus Ohio and at Simmons College in Boston Massachusetts Women s protests on each campus

mobilized female students and significantly impacted their understanding of gender issues within the broader American culture. The underlying concern of administrators and parents regarding morality and sexuality on campus permeated campus debates. The in loco parentis ideology ultimately proved obsolete as campus officials realized that they could not codify or enforce individual morality in the face of strident student demands for privacy and self-determination. Undergraduate women struggled to redefine femininity and women's roles in light of shifts in the gender and race structures of American life. During the 1970s, undergraduate women pressured campus administrations to institute programs and services the students themselves deemed necessary to their success and welfare on campus. College women learned to navigate campus life without the special protections and pre-established women's community that in loco parentis policies and women's self-government had once provided.

Empowering Women in Higher Education and Student Affairs Penny A. Pasque, Shelley Errington Nicholson, 2023-07-03 Co-published with How do we interrupt the current paradigms of sexism in the academy? How do we construct a new and inclusive gender paradigm that resists the dominant values of the patriarchy? And why are these agendas important not just for women but for higher education as a whole? These are the questions that these extensive and rich analyses of the historical and contemporary roles of women in higher education as administrators, faculty, students, and student affairs professionals seek constructively to answer. In doing so, they address the intersection of gender and women's other social identities such as race, ethnicity, sexual orientation, class, and ability. This book addresses the experiences and position of women students from application to college through graduate school and the barriers they

encounter the continuing inequalities in the rates of promotion and progression of women and other marginalized groups to positions of authority and the gap in earnings between men and women and pays particular attention to how race and other social markers impact such disparities contextualizing them across all institutional types Written collaboratively by an intergenerational group of women men and transgender people with different social identities feminist perspectives and professional identities and who in the process built upon each other s work this volume constitutes a call to educators and scholars to work toward centering feminist and other marginalized perspectives in their practice and research in order to equitably address the evolving complexities of college and university life Employing a wide range of theoretical lenses examining a variety of models of practice and giving voice to a diversity of personal experiences through narrative this is a major contribution to the scholarship on women in higher education This is a book for all women in the academy who want to better understand their experience and to dismantle the remaining barriers of sexism and oppression for themselves and future generations of students An ACPA Publication

Challenged by Coeducation Leslie Miller-Bernal, Susan L. Poulson, 2007-01-22 Challenged by Coeducation details the responses of women s colleges to the most recent wave of Women s colleges originated in the mid nineteenth century as a response to women s exclusion from higher education Women s academic successes and their persistent struggles to enter men s colleges resulted in coeducation rapidly becoming the norm however Still many prestigious institutions remained single sex notably most of the Ivy League and all of the Seven Sisters colleges In the mid

twentieth century colleges concerns about finances and enrollments as well as ideological pressures to integrate formerly separate social groups led men's colleges and some women's colleges to become coeducational. The admission of women to practically all men's colleges created a serious challenge for women's colleges. Most people no longer believed women's colleges were necessary since women had virtually unlimited access to higher education. Even though research spawned by the women's movement indicated the benefits to women of a room of their own, few young women remained interested in applying to women's colleges. Challenged by Coeducation details the responses of women's colleges to this latest wave of coeducation. Case studies written expressly for this volume include many types of women's colleges: Catholic and secular, Seven Sisters and less prestigious private and state liberal arts and more applied northern, southern and western, urban and rural, independent and coordinated with a coeducational institution. They demonstrate the principal ways women's colleges have adapted to the new coeducational era: some have been taken over or closed but most have changed by admitting men and thereby becoming coeducational or by offering new programs to different populations. Some women's colleges, mostly those that are in cities, connected to other colleges and prestigious with a high endowment, still enjoy success. Despite their dramatic drop in numbers from 250 to fewer than 60 today, women's colleges are still important. Editors Miller Bernal and Poulson argue. With their commitment to enhancing women's lives, women's colleges and formerly women's colleges can serve as models of egalitarian coeducation.

Preventing Sexual Violence on Campus Sara Carrigan Wooten, Roland W. Mitchell, 2016-12-01 Amid the ongoing national conversation regarding campus sexual assault, this book thoughtfully explores existing programmatic interventions while wrestling with fundamental questions regarding the cultural shifts in our nation's higher education institutions. Stressing the critical importance of student inclusion in policy decisions and procedures, scholars and experts provide complex and nuanced analyses of institutional practices while exploring themes of race, sexuality and sexual freedom. This volume addresses many of the unanswered questions in the present dialogue on campus sexual violence, including: What's working and not working? How can outcomes be assessed or measured? What resources are needed to ensure success? This volume provides a truly fresh contribution for higher education and student affairs practitioners seeking to alter design or implement effective sexual assault prevention resources at their universities and colleges.
