Understanding Affections in the Theology of Jonathan Edwards Ryan J. Martin,2018-11-15 This volume argues that the notion of affections discussed by Jonathan Edwards and Christian theologians before him means something very different from what contemporary English speakers now call emotions and that Edwards s notions of affections came almost entirely from traditional Christian theology in general and the Reformed tradition in particular Ryan J Martin demonstrates that Christian theologians for centuries emphasized affection for God associated affections with the will and distinguished affections from passions generally explaining affections and passions to be inclinations and aversions of the soul This was Edwards s own view and he held it throughout his entire ministry Martin further argues that Edwards s view came not as a result of his reading of John Locke or the pressures of the Great Awakening as many Edwardsean scholars argue but from his own biblical interpretation and theological education By analysing patristic medieval and post medieval thought and the journey of Edwards s psychology Martin shows how on their own terms pre modern Christians historically defined and described human psychology *A Survey of Psychology* Madison Bentley,1923 **Fat History** Peter N.
