of six low SES Years 7-10 secondary schools in regional Victoria Australia where staff and students adapted to these new settings. In researching this transitional phase we focused on the practical reasoning of school leaders, teachers and students in adapting organisational, pedagogical and curricular structures to enable sustainable new learning environments. We report on approaches across the different schools to structural organisation of students in year level groupings, distributed leadership, teacher and pre-service teacher professional learning, student advocacy and wellbeing, use of technology-mediated learning, personalising student learning experiences and curriculum design and enactment. We found that these new settings posed significant challenges for teachers and students and that successful adaptation depended on many interconnected factors.
