Coercive Control How Men Entrap Women In Personal Life Interpersonal Violence:

Coercive Control Evan Stark, 2009 Drawing on cases Stark identifies the problems with our current approach to domestic violence outlines the components of coercive control and then uses this alternate framework to analyse the cases of battered women charged with criminal offenses directed at their abusers **Coercive Control: How Men Entrap Women in Personal Life** Evan Stark, 2007-04-16 Despite its great achievements the domestic violence revolution is stalled Evan Stark argues a provocative conclusion he documents by showing that interventions have failed to improve women's long term safety in relationships or to hold perpetrators accountable Stark traces this failure to a startling paradox that the singular focus on violence against women masks an even more devastating reality In millions of abusive relationships men use a largely unidentified form of subjugation that more closely resembles kidnapping or indentured servitude than assault He calls this pattern coercive control Drawing on sources that range from FBI statistics and film to dozens of actual cases from his thirty years of experience as an award winning researcher advocate and forensic expert Stark shows in terrifying detail how men can use coercive control to extend their dominance over time and through social space in ways that subvert women's autonomy isolate them and infiltrate the most intimate corners of their lives Against this backdrop Stark analyzes the cases of three women tried for crimes committed in the context of abuse showing that their reactions are only intelligible when they are reframed as victims of coercive control rather than as battered wives The story of physical and sexual violence against women has been told often But this is the first book to show that most abused women who seek help do so because their rights and liberties have been jeopardized not because they have been injured The coercive control model Stark develops resolves three of the most perplexing challenges posed by abuse why these relationships endure why abused women develop a profile of problems seen among no other group of assault victims and why the legal system has failed to win them justice Elevating coercive control from a second class misdemeanor to a human rights violation Stark explains why law policy and advocacy must shift its focus to emphasize how coercive control jeopardizes women's freedom in everyday life Fiercely argued and eminently readable Stark's work is certain to breathe new life into the domestic violence revolution **Coercive Control** Evan Stark, 2023 Coercive Control a major update of the seminal first edition contains painful first hand accounts of psychological sexual financial and physical abuse of women Stark identifies the elements of coercive control and the harms they pose to women and their rights New laws policies and approaches are proposed for supporting perpetrators and victims The overall effect is uplifting because the numerous real life stories emphasize survival and endurance **Coercive Control and the Criminal Law** Cassandra Wiener, 2022-12-30 This book considers how a phenomenon as complex as coercive control can be criminalised The recognition and ensuing criminalisation of coercive control in the UK and Ireland has been the focus of considerable international attention It has generated complex questions about the best way to criminalise domestic abuse This work reviews recent domestic abuse criminal law reform in the UK and Ireland In particular it defines

coercive control and explains why using traditional criminal law approaches to prosecute it does not work. Laws passed in England and Wales versus Scotland represent two different approaches to translating coercive control into a criminal offence. This volume explains how and why the jurisdictions have taken different approaches and examines the advantages and disadvantages of each. As jurisdictions around the world review what steps need to be taken to improve national criminal justice responses to domestic abuse, the question of what works and why, at the intersection of domestic abuse and the criminal law, has never been more important. As such, the book will be a vital resource for lawyers, policy makers and activists with an interest in domestic abuse law reform.

Divided into seven parts: Introduction; Theoretical perspectives on domestic violence and abuse; Domestic violence and abuse across the life course; Manifestations of domestic violence and abuse; Responding to domestic violence and abuse; Researching domestic violence and abuse; Concluding thoughts. It will be of interest to all academics and students working in social work, allied health, sociology, criminology and gender studies as well as policy professionals looking for new approaches to the subject.

The Routledge Handbook of Critical Pedagogies for Social Work Christine Morley, Phillip Ablett, Carolyn Noble, Stephen Cowden, 2020-01-20. The Routledge Handbook of Critical Pedagogies for Social Work traverses new territory by providing a cutting edge overview of the work of classic and contemporary theorists in a way that expands their application and utility in social work education and practice, thus providing a bridge between critical theory, philosophy and social work. Each chapter showcases the work of a specific critical educational, philosophical and/or social theorist, including Henry Giroux, Michel Foucault, Cornelius Castoriadis, Herbert Marcuse, Paulo Freire, bell hooks, Joan Tronto, Iris Marion Young, Karl Marx, Antonio Gramsci and many others, to elucidate the ways in which their key pedagogic concepts can be applied to specific aspects of social work education and practice. The text exhibits a range of research-based approaches to educating social work practitioners as agents of social change. It provides a robust and much-needed alternative paradigm to the technique-driven conservative revolution currently being fostered by neoliberalism in both social work education and practice. The volume will be instructive for social work educators who aim to teach for social change by assisting students to develop counter-hegemonic practices of resistance and agency and reflecting on the pedagogic role of social work practice more widely. The volume holds relevance for both postgraduate and undergraduate qualifying social work and human services courses around the world.

Intimate Partner Violence, Risk and Security Kate Fitz-Gibbon,Sandra Walklate,Jude McCulloch,JaneMaree Maher,2018-06-14 This edited collection addresses intimate partner violence risk and security as global issues Although intimate partner violence risk and security are intimately connected they are rarely considered in tandem in the context of global security Yet intimate partner violence causes widespread physical sexual and or psychological harm It is the most common type of violence against women internationally and is estimated to affect 30 per cent of women worldwide Intimate partner violence has received significant attention in recent years animating political debate policy and law reform as well as scholarly attention In bringing together a range of international experts this edited collection challenges status quo understandings of risk and questions how we can reposition the risk of IPV and particularly the risk of IPH as a critical site of global and national security It brings together contributions from a range of disciplines and international jurisdictions including from Australia and New Zealand United Kingdom Europe United States North America Brazil and South Africa The contributions here urge us to think about perpetrators in more nuanced and sophisticated ways with chapters pointing to the structural and social factors that facilitate and sustain violence against women and IPV Contributors point out that states not only exacerbate the structural conditions producing the risks of violence but directly coerce and control women as both citizens and non citizens States too should be understood as collaborators and facilitators of intimate partner violence Effective action against intimate partner violence requires sustained responses at the global state and local levels to end gender inequality Critical to this end are environmental issues poverty and the divisions often along race and ethnic lines underpinning other dimensions of social and economic inequality
