Ebeling,2016-09-27 This highly original book is an ethnographic noir of how Big Data profits from patient private health information The book follows personal health data as it is collected from inside healthcare and beyond to create patient consumer profiles that are sold to marketers Primarily told through a first person noir narrative Ebeling as a sociologist hard boiled detective investigates Big Data and the trade in private health information by examining the information networks that patient data traverses The noir narrative reveals the processes that the data broker industry uses to create data commodities data phantoms or the marketing profiles of patients that are bought by advertisers to directly market to consumers Healthcare and Big Data considers the implications these data phantoms have for patient privacy as well as the very real harm that they can cause The Immaculate Conception of Data Kelly Bronson,2022-08-15 Every new tractor now contains built in sensors that collect data and stream it to cloud based infrastructure Seed and chemical companies are using these data and these agribusinesses are a form of big tech alongside firms like Google and Facebook The Immaculate Conception of Data peeks behind the secretive legal agreements surrounding agricultural big data to trace how it is used and with what consequences Agribusinesses are among the oldest oligopoly corporations in the world and their concentration gives them an advantage over other food system actors Kelly Bronson explores what happens when big data get caught up in pre existing arrangements of power Her richly ethnographic account details the work of corporate scientists farmers using the data and activist hackers building open source data platforms Actors working in private and public contexts have divergent views on whom new technology is for how it should be developed and what kinds of agriculture it should support Surprisingly despite their differences these groups share a way of speaking about data and its value for the future Bronson calls this the immaculate conception of data arguing that this phenomenon is a dangerous framework for imagining big data and what it might do for society Drawing our attention to agriculture as an important new site for big tech criticism The Immaculate Conception of Data uniquely bridges science and technology studies critical data studies and food

studies bringing to light salient issues related to data justice and a sustainable food system <u>Perspectives in digital health and big data in medicine: Current trends, professional challenges, and ethical, legal, and social implications</u> João Valente Cordeiro,Liliana Laranjo,2023-10-25 **The Use of Force for State Power** Michael Warner,John Childress,2020-06-22 This book studies force the coercive application of power against resistance building from Thomas Hobbes observation that all self contained political orders have some ultimate authority that uses force to both dispense justice and to defend the polity against its enemies This cross disciplinary analysis finds that rulers concentrate force through cooperation conveyance and comprehension applying common principles across history Those ways aim to keep foes from concerting their actions or by eliminating the trust that should bind them In short they make enemies afraid to cooperate and now they are doing so in cyberspace as well **Big Data** Benoit Leclerc,Jesse Cale,2020-02-14 The internet has launched the world into an era into which enormous amounts of data are generated every day through technologies with both positive and negative consequences This often refers to big data This book explores big data in organisations operating in the criminology and criminal justice fields Big data entails a major disruption in the ways we think about and do things which certainly applies to most organisations including those operating in the criminology and criminal justice fields Big data is currently disrupting processes in most organisations how different organisations collaborate with one another how organisations develop products or services how organisations can identify recruit and evaluate talent how organisations can make better decisions based on empirical evidence rather than intuition and how organisations can quickly implement any transformation plan to name a few All these processes are important to tap into but two underlying processes are critical to establish a foundation that will permit organisations to flourish and thrive in the era of big data creating a culture more receptive to big data and implementing a systematic data analytics driven process within the organisation Written in a clear and direct style this book will appeal to students and scholars in criminology criminal justice sociology and cultural studies but also to government agencies corporate and non corporate organisations or virtually any other institution impacted by big data **Economics** George Leland Bach,1977

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
